SUPPLEMENTARY INFORMATION:

Background and Purpose

On February 13, 2015, President Obama signed E.O. 13691 intended to enable and facilitate "private companies, nonprofit organizations, and executive departments and agencies . . . to share information related to cybersecurity risks and incidents and collaborate to respond in as close to real time as possible."

In accordance with E.O. 13691, DHS has entered into a cooperative agreement with a non-governmental

ISAO SO led by the University of Texas at San Antonio with support from the Logistics Management Institute (LMI) and the Retail Cyber Intelligence Sharing Center (R-CISC). The ISAO SO is working with existing information sharing organizations, owners and operators of critical infrastructure, relevant agencies, and other public and private sector stakeholders to identify a common set of voluntary standards or guidelines for the creation and functioning of ISAOs.

As part of this collaborative, transparent, and industry-driven process, the ISAO SO has established six working groups to assist in the development of voluntary standards. As part of the standards development process, the ISAO SO hosts public forums. This notice is to provide further information regarding the August 31 and September 1, 2016 public forum in Tysons, VA.

Additionally, this notice is to request comment on the Standards Organization's draft products. These drafts consolidate previous separate documents, comments and newly developed material. Your participation in this comment process is highly encouraged to ensure all equities are being met. To join a working group or to find out how else you can best participate, please visit www.ISAO.org or email Contact@ISAO.org.
