The U.S. AbilityOne Commission, whose mission is to provide employment opportunities for people who are blind or have significant disabilities in the manufacture and delivery of products and services to the Federal Government, received two public comments both more than 90 days after the expiration of the notice and comment period required by 5 U.S.C. 500, formerly known as the Administrative Procedure Act (APA). Notwithstanding that, the Commission is addressing the comments.

The Commenters recommended against the addition of these prescription eyewear products from the Commission's Procurement List. The Commenters did not assert a personal financial hardship or impact, one on behalf of its client and the other, itself, should the addition of these products to the Procurement List occur. Rather, the Commenters highlighted there may be an alternate method for the procurement of these products through veteran-owned sources and that addition of the products to the Procurement List may cause the Department of Veterans Affairs to be non-compliant no matter how it proceeds with such a procurement.

While the Commission appreciates there may be methods for purchasing the subject prescription eyewear products from veteran-owned sources, the Commission's mission and duty is to

provide employment opportunities for people who are blind or have significant disabilities, many of whom are veterans, through manufacture and delivery of products and services to the Federal Government. Adding the proposed products to the Commission's Procurement List will provide employment opportunities to a portion of the U.S. population that has a historically high rate of unemployment and underemployment, and is consistent with the Commission's authority¹ established by 41 U.S.C. Chapter 85.
