

The agenda will include time for people to make oral statements of three minutes or less. Individuals wishing to make an oral statement should request in writing by August, 15, 2016 to be scheduled on the agenda. Anyone who would like to bring related matters to the attention of the committee may file written statements with the committee staff before or after the meeting. Written comments and requests for time for oral comments must be sent to Penny K. McLaughlin, RAC Coordinator, Chequamegon-Nicolet National Forest Supervisor's Office, 500 Hanson Lake Road, Rhinelander, Wisconsin 54501; by email to pmclaughlin@fs.fed.us or via facsimile to 715-369-8859.

Meeting Accommodations: If you are a person requiring reasonable accommodation, please make requests in advance for sign language interpreting, assistive listening devices or other reasonable accommodation for access to the facility or proceedings by contacting the person listed in the section titled **FOR FURTHER INFORMATION CONTACT**. All reasonable accommodation requests are managed on a case by case basis.

Dated: August 1, 2016.

Linda Riddle,

Acting Forest Supervisor.

DEPARTMENT OF AGRICULTURE

Rural Housing Service

Notice of Solicitation of Applications (NOSA) for Loans to Re-Lenders Under the Community Facility Loan Program for Fiscal Year (FY) 2016; Correction

AGENCY: Rural Housing Service, USDA.

ACTION: Notice; correction.

SUMMARY: The Agency published a document in the **Federal Register** of July 6, 2016, seeking applications from Re-Lenders under the Community Facility (CF) Loan Program for FY 2016. The Rural Housing Service (RHS) amended the CF Direct Loan regulations to make loans to qualified Re-Lenders who will loan those funds to Applicants primarily for projects in or serving persistent poverty counties or high poverty areas that are eligible for the CF Loan Program. This document has an incorrect cross-reference and an incorrect hyperlink which both need to be corrected.

DATES: Effective August 8, 2016.

FOR FURTHER INFORMATION CONTACT: Requests for additional information

should be directed to Alton Kimura, (202) 720-1390.

Correction

In the **Federal Register** of July 6, 2016, FR Doc 2016-16003, make the following corrections:

1. On page 43987, third column, fifth paragraph, fifth line, under section III. Definitions: Remove hyperlink <http://rdgisportal.sc.egov.usda.gov/home/index.html>, and add <http://rdgdwe.sc.egov.usda.gov/rdpoverty/index.html>.

2. On page 43989, second column, second line under section V(A)(p) of V. Application Submission: Remove cross reference (IV)(A)(e)(3)(b) (Agency risk assessment) and add (IV)(A)(h)(ii).

Dated: August 3, 2016.

Joyce Allen,

Acting Administrator, Rural Housing Service.

BILLING CODE 3410-XV-P

DEPARTMENT OF COMMERCE

Census Bureau

Proposed Information Collection; Comment Request; 2017 Census Test

AGENCY: U.S. Census Bureau, Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: To ensure consideration, written comments must be submitted on or before October 7, 2016.

ADDRESSES: Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW., Washington, DC 20230 (or via the Internet at jjessup@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Robin A. Pennington, Census Bureau, HQ-2K281N, Washington, DC 20233; (301) 763-8132 (or via email at robin.a.pennington@census.gov).

SUPPLEMENTARY INFORMATION:

I. Abstract

During the years preceding the 2020 Census, the Census Bureau is pursuing its commitment to reducing the cost of conducting the census while maintaining the quality of the results. The 2017 Census Test will allow the Census Bureau to test operations and procedures that have not yet been tested during this inter-census phase but that take advantage of the research that has been done and the technological advances that have been made since the 2010 Census.

The testing will take place on two American Indian or Alaska Native reservations, as well as in a nationally representative sample of 80,000 housing units. The questionnaires will contain different versions of tribal enrollment questions, the testing of which is one of two primary objectives of this test. A set of census operations will occur on the reservations, including development and update of the address frame or list, self-response involving delivery of printed questionnaires and other materials through mail, and enumeration at the household when self-response does not occur. The Update Enumerate (UE) operation planned for this test and for eventual use in the 2020 Census incorporates the address frame update and enumeration activities. Integrating these activities into one operation is the second primary objective for the Census Bureau in this test. This type of operation is cost-effective and manageable only in such areas where special procedures are needed due to types of addresses and various geographic considerations. Note that this type of operation was used for enumeration at about one percent of addresses in the 2010 Census.

Address Frame Maintenance and Usage

Prior to production of Update Enumerate activities, the address frame will be reviewed and updated through In-Office Address Canvassing. For the 2010 Census, the address frame was reviewed and updated during Address Canvassing, which was a field operation conducted before the 2010 Census Update Enumerate operation. Update Enumerate will be the first operation to review and update the address frame in the field for the areas in the 2017 Census Test. This revised procedure is an innovation as compared to the 2010 Census.

Questionnaires and mailing materials will be printed using the updated address list from In-Office Address Canvassing. Materials will be mailed to all mailable addresses (determined through Coding Accuracy Support

System certification) in the selected test site areas before the Update Enumerate operation commences. The mailing packages will provide both the 2017 Census Test Uniform Resource Locator (URL) and the phone number for Census Questionnaire Assistance (CQA). The package will also contain a paper questionnaire.

A further innovation for these UE areas is that a variety of means of achieving response will be used, as in previous census tests and in different types of areas. In particular, in addition to the materials sent to mailable addresses before the field operation begins, Internet response will be an option for all households in the test area. Self-response prior to enumeration is possible through the mail-back of a questionnaire (if received), response on the Internet, or response on the telephone through CQA. Generally, the materials will provide a Census ID for use in response, although it will also be possible for respondents to submit responses via Internet or CQA without an ID. Those households that have self-responded will be removed from the workload for the enumeration. Households that do not self-respond by the time of the household in-person visit in Update Enumerate will be enumerated at that time if a respondent is available.

Testing the feasibility of collecting tribal enrollment questions on the questionnaire is one of the primary objectives of this test. In order to collect data from other geographic locations and from a broader representation of American Indian or Alaska Native respondents for analysis of the tribal enrollment questions, a separate sample of 80,000 households will be drawn for a national self-response-only operation, oversampled for areas with relatively higher concentrations of people estimated to identify as American Indian or Alaska Native.

For the self-response-only sample, there will be no follow-up to obtain response from non-responding households. However, we will conduct a content reinterview (using an outbound telephone operation) to assess the validity of the tribal enrollment question. The sub-sample of 15,000 households for the content reinterview will be drawn from the sites and the national sample.

The Census Bureau has not done prior testing this decade in the type of geographic area that is included in the test sites. The areas selected for the 2017 Census Test differ from the generally more urban or suburban areas with a predominance of city-style addresses. The 2017 Census Test areas are sparser

and contain a lower percentage of city-style addresses. The Census Bureau has traditionally used a methodology like that of the planned Update Enumerate for completing the census in these types of areas.

The complexity of all the overlapping listing, self-response, and enumeration operations and the necessity of multiple systems to provide updates for tracking progress in the field operation make the 2017 Census Test essential for planning for the 2020 Census. By working through all the operational and system development and then learning from the challenges that still arise during the operation, the Census Bureau will be better prepared to perform this complex operation in the 2020 Census. The geographic areas selected for the test may be less accessible or sparsely populated, in addition to having a low rate of mailable addresses. As such, these areas do not lend themselves to performing the traditional mailing and self-response enumeration methodology for the census. For areas that are known to require a personal visit during the census, there is cost containment from not visiting the area prior to the enumeration.

This test will incorporate a number of the automation and management innovations that have been tested this decade, where other enumeration methodologies were used. In particular, Internet is available as the primary response mode, UE field data collection operations will be automated, and Field Infrastructure will continue to be refined with automated work assignments and management overview. In addition, Census Questionnaire Assistance (CQA) will offer the option for completing the questionnaire on the telephone and will include the option for language assistance. Within CQA, Interactive Voice Recognition will be available to answer respondent questions and to route calls to agents, as necessary. Results may differ from those observed in prior tests, such as if there is limited internet connectivity.

Below we provide additional details about the specific operations that will be tested or refined in this test.

Operations

Update Enumerate (UE)

The 2017 Census Test will allow the Census Bureau to test the Update Enumerate operation, which combines listing methodologies of Address Canvassing with the enumeration methodologies from Nonresponse Followup. This operation occurs in geographic areas that:

- Do not have city-style addresses.

- Do not receive mail through city-style addresses.
- Receive mail at post office boxes.
- Have unique challenges associated with accessibility to the housing unit.
- Have been affected by natural disasters.
- Have high concentrations of seasonally vacant housing.

The following objectives are being tested for Update Enumerate:

- Integrating listing and enumeration operations and systems.
- Evaluating the impact on cost and quality of the contact strategy on enumerator productivity and efficiency in these types of areas.
- Testing continued refinements to the field data collection instrument for enumeration including such things as allowing collection of data from 'other' address in-movers and whole household usual home elsewhere cases.
- Continuing enhancements to field operational procedures that are newly defined for the 2020 Census.
- Testing field supervisor to enumerator ratios in these types of areas.
- Testing refinements to alerts from operational control systems.

II. Method of Collection

The test will occur in two selected sites and using a national sample.

Test Sites

The test will take place on two American Indian areas—the Colville Indian Reservation and Off-Reservation Trust Land in Washington and the Standing Rock Reservation in North Dakota and South Dakota. Approximately 3,500 and 2,900 housing units, respectively, within the areas will be invited to participate.

Update Enumerate (UE)

Update Enumerate for the 2017 Census Test will test three of the components of the operation: Update Enumerate Production, Update Enumerate Followup, and Update Enumerate Reinterview, as described in more detail below. These are new components of the completely updated operational design for Update Enumerate. In addition to the field operation, the Census Bureau is testing mailing out an invitation package to housing units in the test site with a mailable address to generate self-response before the UE operation begins. If a household self-responds, the UE field staff person (enumerator) will not enumerate that house while listing the geographic area. This is a cost savings to Update Enumerate since the enumerator will not have to spend time

enumerating self-responding households.

Update Enumerate Production

The UE enumerators visit specific geographic areas to identify every place where people could live or stay, comparing what they see on the ground to the existing census address list, and either verify or correct the address and location information. Much like Address Canvassing, enumerators classify each living quarter (LQ) as a housing unit or Group Quarter (GQ). If the LQ is classified as a GQ, no attempt is made to enumerate at the GQ within this test, since the plan for the 2020 Census is to have a unique operation enumerate GQs.

The enumerators will attempt to conduct an interview for each housing unit if there is no self-response. If someone answers the door, the enumerators will provide a Confidentiality Notice and ask about the address in order to verify or update the information, as appropriate. The enumerators will then ask if there are any additional LQs in the structure or on the property. If there are additional LQs, the enumerators will collect/update that information, as appropriate. The enumerator will then interview the respondent using the questionnaire on the mobile device.

If no one is home at a non-responding housing unit, the enumerator will leave a Notice of Visit inviting a respondent for each household to go online with an ID to complete the 2017 Census Test Questionnaire. The Notice of Visit will

also include the phone number for Census Questionnaire Assistance if the respondent has any questions or would prefer to respond on the phone. The housing unit will be included in the Update Enumerate Followup until self-response is received.

Update Enumerate Followup

The UE operation will have a UE Followup component for those households that were not enumerated on the first visit and have not responded via the Internet or telephone. The UE Followup will use the same contact strategies and business rules as Nonresponse Followup. UE enumerators will conduct the operation using then Census Bureau provided listing and enumeration application on a Census Bureau provided mobile device.

Update Enumerate Reinterview

A sample of cases enumerated via Update Enumerate or Update Enumerate Followup will be selected for reinterview. The intention of this operation is to help pinpoint possible cases of enumerator falsification. Update Enumerate Reinterview will use the Census Bureau's enumeration software on mobile devices. We will also test centralized phone contacts of the reinterview cases before sending them to an enumerator in the field, providing potential cost savings.

Self-Response

A separate, nationally representative sample of 80,000 addresses will be drawn for a self-response-only

operation, oversampled for areas with relatively higher concentrations of people estimated to identify as American Indian or Alaska Native. These addresses will receive mailed materials (letter, postcards and/or questionnaire) and can respond by Internet (either with or without a pre-assigned ID) or by returning a paper questionnaire or by telephone.

Households from both the test sites and the self-response sample areas will be eligible for the sample for content reinterview follow-up. This interview will be performed by telephone.

III. Data

OMB Control Number: 0607-XXXX.

Form Number(s): Paper and electronic questionnaires; numbers to be determined.

Type of Review: Regular submission.

Affected Public: Households/Individuals.

Estimated Number of Respondents

Self-Response: 35,000.

Update Enumerate Operations: 6,400.

Update Enumerate Reinterview: 634.

Content Reinterview: 9,000.

Total: 51,034.

Estimated Time per Response: 10 minutes.

Estimated Total Annual Burden Hours

Self-Response: 5,833.

Update Enumerate Operations: 1,067.

Update Enumerate Reinterview: 106.

Content Reinterview: 1,500.

Total: 8,506.

	Estimated number of responses	Estimated time per response (minutes)	Total respondent burden (minutes)
National Sample			
Self-Response	35,000	10	5,833
American Indian Reservation Sample			
Update Enumerate Operations	6,400	10	1,067
Update Enumerate Reinterview	634	10	106
Content Reinterview	9,000	10	1,500
Totals	51,034	8,506

Estimated Total Annual Cost to Public: There are no costs to respondents other than their time to participate in this data collection.

Respondent's Obligation: Mandatory.

Legal Authority: Title 13 U.S.C. Sections 141 and 193.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information

is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the

burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection;

they also will become a matter of public record.

Dated: August 3, 2016.

Glenna Mickelson,

Management Analyst, Office of the Chief Information Officer.

BILLING CODE 3510-07-P

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[B-50-2016]

Foreign-Trade Zone 193—Pinellas County, Florida; Application for Reorganization and Expansion Under Alternative Site Framework

An application has been submitted to the Foreign-Trade Zones (FTZ) Board by Pinellas County, Florida, grantee of FTZ 193, requesting authority to reorganize and expand the zone under the alternative site framework (ASF) adopted by the FTZ Board (15 CFR Sec. 400.2(c)). The ASF is an option for grantees for the establishment or reorganization of zones and can permit significantly greater flexibility in the designation of new subzones or “usage-driven” FTZ sites for operators/users located within a grantee’s “service area” in the context of the FTZ Board’s standard 2,000-acre activation limit for a zone. The application was submitted pursuant to the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a–81u), and the regulations of the Board (15 CFR part 400). It was formally docketed on August 2, 2016.

FTZ 193 was approved by the FTZ Board on February 17, 1993 (Board Order 630, 58 FR 11833, March 1, 1993). The current zone includes the following sites: *Site 1* (1,771 acres)—St Petersburg-Clearwater International Airport Complex, 14700 Terminal Boulevard, Clearwater; *Site 2* (3 acres)—Port of St. Petersburg, 250 8th Avenue SE., St. Petersburg; *Site 3* (96 acres)—Pinellas Science, Technology & Research Center, Bryan Dairy and Belcher Roads, Largo; *Temporary Site 4* (13 acres, expires 8/31/2017)—HIT Promotional Products, Inc., 7150 Bryan Dairy Road, Largo; *Temporary Site 5* (3 acres, expires 8/31/2017)—HIT Promotional Products, Inc., 8155 Bryan Dairy Road, Largo; *Temporary Site 6* (4.5 acres, expires 8/31/2017)—HIT Promotional Products, Inc., 3320 122nd Avenue North, Largo; and, *Temporary Site 7* (3.09 acres, expires 8/31/2017)—HIT Promotional Products, Inc., 10810 72nd Street, Largo.

The grantee’s proposed service area under the ASF would be Pinellas,

Hernando and Pasco Counties, Florida, as described in the application. If approved, the grantee would be able to serve sites throughout the service area based on companies’ needs for FTZ designation. The application indicates that the proposed service area is within and adjacent to the St. Petersburg Customs and Border Protection port of entry.

The applicant is requesting authority to reorganize its existing zone to include existing Sites 1, 2 and 3 as “magnet” sites and Sites 4, 5, 6 and 7 would become “usage-driven” sites. The ASF allows for the possible exemption of one magnet site from the “sunset” time limits that generally apply to sites under the ASF, and the applicant proposes that Site 1 be so exempted. The application would have no impact on FTZ 193’s previously authorized subzone.

In accordance with the FTZ Board’s regulations, Camille Evans of the FTZ Staff is designated examiner to evaluate and analyze the facts and information presented in the application and case record and to report findings and recommendations to the FTZ Board.

Public comment is invited from interested parties. Submissions shall be addressed to the FTZ Board’s Executive Secretary at the address below. The closing period for their receipt is October 7, 2016. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to October 24, 2016.

A copy of the application will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 21013, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230-0002, and in the “Reading Room” section of the FTZ Board’s Web site, which is accessible via www.trade.gov/ftz. For further information, contact Camille Evans at Camille.Evans@trade.gov or (202) 482-2350.

Dated: August 2, 2016.

Andrew McGilvray,

Executive Secretary.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Order No. 2004]

Expansion of Subzone 116C, Premcor Refining Group Inc., Port Arthur, Texas

Pursuant to its authority under the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a–81u), the Foreign-Trade Zones Board (the Board) adopts the following Order:

WHEREAS, the Foreign-Trade Zones Act provides for “. . . the establishment . . . of foreign-trade zones in ports of entry of the United States, to expedite and encourage foreign commerce, and for other purposes,” and authorizes the Foreign-Trade Zones Board to grant to qualified corporations the privilege of establishing foreign-trade zones in or adjacent to U.S. Customs and Border Protection ports of entry;

WHEREAS, the Board’s regulations (15 CFR part 400) provide for the establishment of subzones for specific uses;

WHEREAS, the Foreign-Trade Zone of Southeast Texas, Inc., grantee of Foreign-Trade Zone 116, has made application to the Board to expand Subzone 116C on behalf of Premcor Refining Group Inc., to include an additional site and pipeline (Site 5) in Port Arthur, Texas (FTZ Docket B-6-2016, docketed February 9, 2016);

WHEREAS, notice inviting public comment has been given in the **Federal Register** (81 FR 7745, February 16, 2016) and the application has been processed pursuant to the FTZ Act and the Board’s regulations; and,

WHEREAS, the Board adopts the findings and recommendations of the examiner’s memorandum, and finds that the requirements of the FTZ Act and the Board’s regulations are satisfied;

NOW, THEREFORE, the Board hereby approves the expansion of Subzone 116C on behalf of Premcor Refining Group Inc., as described in the application and **Federal Register** notice, subject to the FTZ Act and the Board’s regulations, including Section 400.13.

Signed at Washington, DC, this July 29, 2016.

Ronald K. Lorentzen,

Acting Assistant Secretary of Commerce for Enforcement and Compliance, Alternate Chairman, Foreign-Trade Zones Board.

Andrew McGilvray,

Executive Secretary.
