

GAN also incorporates your approved application as part of your binding commitments under the grant.

3. *Reporting:* (a) If you apply for a grant under this competition, you must ensure that you have in place the necessary processes and systems to comply with the reporting requirements in 2 CFR part 170 should you receive funding under the competition. This does not apply if you have an exception under 2 CFR 170.110(b).

(b) At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multiyear award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to www.ed.gov/fund/grant/apply/appforms/appforms.html.

(c) Under 34 CFR 75.250(b), the Secretary may provide a grantee with additional funding for data collection analysis and reporting. In this case the Secretary establishes a data collection period.

4. *Performance Measures:* Under the Government Performance and Results Act of 1993, the Department has developed four measures to evaluate the overall effectiveness of the EAG program: (1) The number of States that participate in EAG projects funded by this competition; (2) the percentage of grantees that, at least twice during the period of their grants, make available to SEA staff in non-participating States and to assessment researchers information on findings resulting from the EAG through presentations at national conferences, publications in refereed journals, or other products disseminated to the assessment community; (3) for each grant cycle and as determined by an expert panel, the percentage of EAG that yield significant research, methodologies, products, or tools regarding assessment systems or assessments; and (4) for each grant cycle and as determined by an expert panel, the percentage of EAG that yield significant research, methodologies, products, or tools specifically regarding accommodations and alternate assessments for students with disabilities and limited English proficient students. Grantees will be expected to include in their interim and final performance reports information about the accomplishments of their

projects because the Department will need data on these measures.

5. *Continuation Awards:* In making a continuation award under 34 CFR 75.253, the Secretary considers, among other things: Whether a grantee has made substantial progress in achieving the goals and objectives of the project; whether the grantee has expended funds in a manner that is consistent with its approved application and budget; and, if the Secretary has established performance measurement requirements, the performance targets in the grantee's approved application.

In making a continuation award, the Secretary also considers whether the grantee is operating in compliance with the assurances in its approved application, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).
