Approval and Promulgation of Air Quality Implementation Plans; West Virginia; Prevention of Significant Deterioration and Approval of Infrastructure State Implementation Plans for Specific National Ambient Air Quality Standards

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving a State Implementation Plan (SIP) revision submitted by the West Virginia Department of Environmental Protection (WVDEP) for the State of West Virginia on June 3, 2015. This revision pertains to West Virginia's Prevention of

Significant Deterioration (PSD) permit program regulations for preconstruction permitting requirements for major sources. The revision includes a change in West Virginia's PSD regulations related to emissions of fine particulate matter (PM_{2.5}). The State's June 3, 2015 submittal satisfies its obligations pursuant to an earlier rulemaking in which EPA granted final conditional approval of West Virginia's PSD implementing regulations. This action also addresses specific infrastructure program elements specified in Clean Air Act (CAA) section 110(a)(2) necessary to implement, maintain, and enforce several national ambient air quality standards (NAAQS). This action is being taken under the CAA.

DATES: This final rule is effective on September 12, 2016.

ADDRESSES: EPA has established a docket for this action under Docket ID Number EPA-R03-OAR-2015-0539. All documents in the docket are listed in the www.regulations.gov Web site. Although listed in the electronic docket, some information is not publicly available, *i.e.*, confidential business information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available through www.regulations.gov or may be viewed during normal business hours at the Air Protection Division, U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103. Copies of the State submittal are available at the West Virginia Department of Environmental Protection, Division of Air Quality, 601 57th Street SE., Charleston, West Virginia 25304.

SUPPLEMENTARY INFORMATION:

I. Background

On January 11, 2016 (81 FR 1133), EPA published a notice of proposed rulemaking (NPR) for the State of West Virginia. In the NPR, EPA proposed approval of a revision to West Virginia's PSD permit program regulations for preconstruction permitting requirements for major sources. The revision includes revised West Virginia PSD regulations related to emissions of PM_{2.5}. The formal SIP revision was submitted by the State of West Virginia on June 3, 2015.

II. Summary of SIP Revision

The SIP revision submitted by WVDEP on June 3, 2015 pertains to revisions to its PSD permit program regulations at 45CSR14-16.7.c that establish a significant monitoring concentration (SMC) value of zero micrograms per cubic meter for PM_{2.5}. The submission of this revision allows EPA to change its conditional approval of 45CSR14 to a full approval. Because this submission fulfills the commitment made by West Virginia in the final conditional approval of West Virginia's earlier submittals of revisions to 45CSR14 as discussed in the NPR, EPA is now fully approving West Virginia's PSD regulations at 45CSR14 in its entirety as 45CSR14 meets requirements in the CAA and its implementing regulations and removing the prior conditional approval. *See* 80 FR 36483 (final conditional approval of prior SIP submissions of revisions to 45CSR14).

With its submittal, West Virginia has made all of the changes to its PSD implementing regulations necessary to address PM_{2.5} as prescribed by the CAA, 40 CFR 51.166, and the May 16, 2008 new source review implementation rule for PM_{2.5} at 73 FR 28321. Because West Virginia's regulations at 45CSR14 fully meet the federal requirements for PSD in the CAA, EPA also found that West Virginia's PSD program now addresses specific PSD-related portions of the infrastructure program elements in section 110(a)(2) of the CAA for the 1997 ozone and PM_{2.5} NAAQS, the 2006 PM_{2.5} NAAQS, the 2008 lead and ozone NAAQS, and the 2010 nitrogen dioxide (NO₂) and sulfur dioxide (SO₂) NAAQS. Other specific requirements of and the rationale for EPA's approval action of West Virginia's revised PSD regulations and relevant infrastructure SIP revisions for several NAAQS are explained in the NPR and will not be restated here. No public comments were received on the NPR.

III. Final Action

EPA is approving this SIP revision submitted by WVDEP as a revision to the West Virginia SIP for its PSD program and removing a prior conditional approval on the PSD program. In this action, EPA is also approving several of West Virginia's infrastructure SIP revisions as meeting the PSD elements of section 110(a)(2) of the CAA for the 1997 ozone and PM_{2.5} NAAQS, the 2006 PM_{2.5} NAAQS, the 2008 lead and ozone NAAQS, and the 2010 NO₂ and SO₂ NAAQS.

IV. Incorporation by Reference

In this rule the EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, the EPA is finalizing the incorporation by reference of 45CSR14–16.7.c, described in the amendments to 40 CFR part 52 set forth below. The EPA has made, and will continue to make, these documents generally available electronically through www.regulations.gov and/or may be viewed at the appropriate EPA office (see the **ADDRESSES** section of this preamble for more information).

V. Statutory and Executive Order Reviews

A. General Requirements

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a “significant regulatory action” subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);

- is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);

- is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
- does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

B. Submission to Congress and the Comptroller General

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

C. Petitions for Judicial Review

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by October 11, 2016. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action which revises West Virginia's PSD regulations related to emissions of PM_{2.5} and which

approves portions of several infrastructure SIPs as addressing PSD elements in CAA section 110(a)(2) may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

Aminocyclopyrachlor; Pesticide Tolerances

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This regulation establishes tolerances for residues of aminocyclopyrachlor in or on milk and livestock commodities imported into the United States, which are identified and discussed later in this document. E.I. du Pont de Nemours and Company requested these tolerances under the
