IV. OCPM Releases for March Through June 2016

The OCPM is used by OMHA adjudicators and staff to administer the OMHA program. It offers day-to-day operating instructions, policies, and procedures based on statutes and regulations, and OMHA directives.

The following is a list and description of new OCPM provisions and the subject matter. For future quarterly notices, we will list only the specific updates to the list of manual provisions that have occurred in the covered 3-month period. This information is available on our Web site at http://www.hhs.gov/omha/OMHA_Case_Processing_Manual/index.html.

OCPM Division II: Part A/B Claim Determinations

Chapter 6, Pre-Hearing Case Development. This new chapter describes the pre-hearing case development process for requests for hearing on Medicare Part A and Part B reconsiderations issued by Qualified Independent Contractors (QICs) and Quality Improvement Organizations (QIOs), and escalations of requests for reconsideration by a QIC. The pre-hearing case development process helps identify and address evidentiary issues prior to the hearing to avoid delays and helps to ensure legal requirements related to new evidence are observed. The process also assists staff in determining whether a hearing is necessary for a given case. In addition, the process guides OMHA staff on processes available to facilitate the hearing process, such as identifying special needs for hearing participants, discovery, using experts, and conducting pre-hearing conferences.
