Endangered and Threatened Wildlife and Plants; 6-Month Extension of Final Determination for the Proposed Listing of the Headwater Chub and Distinct Population Segment of the Roundtail Chub as Threatened Species

AGENCY: Fish and Wildlife Service,
Interior.

ACTION: Proposed rule; reopening of the
comment period.

SUMMARY: We, the U.S. Fish and
Wildlife Service (Service), announce a
6-month extension of the determination
of whether the headwater chub (*Gila
nigra*) and a distinct population segment
of the roundtail chub (*Gila robusta*) are
threatened species, and we announce
the reopening of the comment period on
the proposed rules to add these species
to the List of Endangered and
Threatened Wildlife. We are taking this
action based on our finding that there is
substantial disagreement regarding the
sufficiency or accuracy of the available
data relevant to our proposed
regulations to add these species to the
List of Endangered and Threatened
Wildlife, making it necessary to solicit
additional information by reopening the
comment period for 30 days.

DATES: The comment period end date is
September 14, 2016. We request that
comments be submitted by 11:59 p.m.
Eastern Time on the closing date.

ADDRESSES: You may submit comments
by one of the following methods:

(1) *Electronically:* Go to the Federal

and the roundtail chub distinct
population segment. You may submit a

SUPPLEMENTARY INFORMATION:

Background

On October 7, 2015 (80 FR 60754), we
published a proposed rule to determine
that the headwater chub and the lower
Colorado River basin distinct
population segment (DPS) of the
roundtail chub are threatened species
under the Endangered Species Act of
1973, as amended (Act) (16 U.S.C. 1531
et seq.). For a description of previous
Federal actions concerning these
species, please refer to the proposed
listing rule (October 7, 2015; 80 FR
60754). We solicited and received
independent scientific review of the
information contained in the proposed
rule from peer reviewers with expertise
in these two chub species, in
accordance with our July 1, 1994, peer
review policy (59 FR 34270).

Section 4(b)(6) of the Act and its
implementing regulations in title 50 of
the Code of Federal Regulations at 50
CFR 424.17(a) require that we issue one
of four documents within 1 year of a
proposed determination: (1) A final rule
to implement such determination or
revision, (2) a finding that such revision
should not be made, (3) a withdrawal of
the proposed rule upon a finding that
available evidence does not justify the
proposed action, or (4) a document
extending such 1-year period by an
additional period of not more than 6
months because there is substantial
disagreement among scientists
knowledgeable about the species
regarding the sufficiency or accuracy of
the available data relevant to the
proposed determination or revision.

During the public comment period,
we received multiple comments on the
proposed listing determinations from
scientists with knowledge of the species
regarding the sufficiency or accuracy of
the available data used to support these
proposed regulations, as well as the
methodology used to develop the
proposed rule. We also received
