(f)3. How well the data sources specified in Table 4 of the application can be appropriately accessed and used to reliably measure the proposed outcome measures and interim indicators.	5
(g) Budget and Budget Narrative. In determining the adequacy of the resources that will be committed to support the project, we will consider the appropriateness of expenses within the budget with regards to cost and to implementing the pilot successfully. We will consider the entirety of funds the applicant will use to support its pilot including start-up grant funds, blended and braided funds included in Table 5, and non-Federal funds including in-kind contributions.	5

Competitive preference priorities for applications	Points
Competitive Preference Priority 1: Improving Outcomes for Youth Who Are Unemployed and Out of School. To meet this priority, an applicant must propose a pilot that— (1) will serve disconnected youth who are neither employed nor enrolled in education and who face significant barriers to accessing education and employment; and (2) is likely to result in significantly better educational or employment outcomes for such youth	5
Competitive Preference Priority 2: Work-Based Learning Opportunities. To meet this priority, an applicant must propose a pilot that will provide all of the disconnected youth it proposes to serve with paid work-based learning opportunities, such as opportunities during the summer, which are integrated with academic and technical instruction	3
Competitive Preference Priority 3: Promise Zones. This priority is for projects that are designed to serve and coordinate with a federally designated Promise Zone	2
Competitive Preference Priority 4: Site-Specific Evaluation. To meet this priority, an applicant must propose to conduct an independent evaluation of the impacts on disconnected youth of its overall program or specific components of its program that is a randomized controlled trial or a quasi-experimental design study. The extent to which an applicant meets this priority will be based on the clarity and feasibility of the applicant's proposed evaluation design, the appropriateness of the design to best capture key pilot outcomes, the prospective contribution of the evaluation to the knowledge base about serving disconnected youth (including the rigor of the design and the validity and generalizability of the findings), and the applicant's demonstrated expertise in planning and conducting a randomized controlled trial or quasi-experimental design study	10
