Title: Transit Investments in Greenhouse Gas and Energy Reduction Program (OMB Number: 2132–0566).

Background: The American Recovery and Reinvestment Act of 2009 (ARRA) established the Transit Investments in Greenhouse Gas and Energy Reduction (TIGGER) Program with \$100 million in new discretionary grant program funding to support public transit agencies in making capital investments that would assist in the reduction of energy consumption or greenhouse gas emissions within their public transportation systems. In two subsequent years, The Transportation, Housing and Urban Development, Related Agencies Appropriations Act, The Department of Defense and Full-Year Continuing Appropriations Act appropriated an additional \$75 million and \$49.9 million, respectively, for FY 2010 and FY 2011. The TIGGER Program has awarded 87 competitively selected projects, implementing a wide variety of technologies to meet program goals. The awarded projects were geographically diverse, covering 35 states and 67 different transit agencies in both urban and rural settings.

The information that's currently being collected for this program is submitted as part of the Project Management reporting requirements for TIGGER. The collection of Project Management information provides documentation that the recipients of TIGGER funds are meeting program objectives and are complying with FTA Circular 5010.1D, "Grant Management Requirements" and other federal requirements. FTA has published a **Federal Register** notice for the Announcement of Project Selections for each NOFA in consecutive FY 2009, 2010, and 2011, identifying program recipients.

Respondents: State and local government agencies.

Estimated Annual Burden on Respondents: 196 hours for each of the respondents.

Estimated Total Annual Burden: 17,052 hours.

Frequency: Annual.
