

60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice.

Information Collection

1. *Type of Information Collection Request:* New collection of information (Request for new OMB control number); *Title of Information Collection:* Initial Request for State Implemented Moratorium Form; *Use:* CMS promulgated 42 CFR 424.570 in order to comply with that statute, which requires that prior to implementing state Medicaid moratoria the state Medicaid agency must notify the Secretary in writing, including all of the details of the moratoria, and obtain the Secretary's concurrence with the imposition of the moratoria. The above regulation is promulgated from 1866 (j)(7) of the Social Security Act, which allows for the imposition of temporary moratorium. The Initial Request for State Medicaid Implemented Moratorium, named the "Initial Request for State Medicaid Implemented Moratorium" was created to collect that data, in a uniform manner, which the states report to CMS when they request a moratorium. Currently, CMS is collecting this data on an ad-hoc basis, however this process needs to be standardized so that moratoria decisions are being made based on the same criteria each time.

The goal of the Initial Request for State Medicaid Implemented Moratorium form is to provide a uniform application process that all of the states may follow so that CMS is able to administer the Medicaid or Children's Health Insurance Program moratorium process in a standardized and repeatable manner. This form creates a standardized process so that moratoria decisions are being made with the same criteria each time. *Form Number:* CMS-10628 (OMB control number: 0938-NEW); *Frequency:* Occasionally; *Affected Public:* State, Local, or Tribal Governments; *Number of Respondents:* 15; *Total Annual Responses:* 15; *Total Annual Hours:* 75. (For policy questions regarding this collection contact Belinda Gravel at 410-786-8934).

2. *Type of Information Collection Request:* Extension of a currently approved collection; *Title of Information Collection:* Children's Health Insurance Program (CHIP) Report on Payables and Receivables; *Use:*

Collection of CHIP data and the calculation of the CHIP Incurred But Not Reported (IBNR) estimate are pertinent to CMS' financial audit. Section 2105 of the Social Security Act (Title XXI) requires the Secretary to estimate the amount each State should be paid at the beginning of each quarter. This amount is based on a report filed by the State. Section 2105 of the Social Security Act authorizes the Secretary to pay the amount estimated, reduced or increased to the extent of any overpayment or underpayment for any prior quarter. Section 3515 of the CFO Act requires government agencies to produce auditable financial statements in accordance with Office of Management and Budget guidelines on Form and Content. The Government Management and Reform Act of 1994 requires that all offices, bureaus and associated activities of the 24 CFO Act agencies must be covered in an agency-wide, audited financial statement. Collection of CHIP data and the calculation of the CHIP Incurred But Not Reported (IBNR) estimate are pertinent to CMS' financial audit. The CHIP Report on Payables and Receivables will provide the information needed to calculate the CHIP IBNR. Failure to collect this information could result in non-compliance with the law. Program expenditures for the CHIP have increased since its inception; as such, CHIP receivables and payables may materially impact the financial statements. The CHIP Report on Payables and Receivables will provide the information needed to calculate the CHIP IBNR.; *Form Number:* CMS-10180 (OMB control number: 0938-0988); *Frequency:* Reporting—Annually; *Affected Public:* State, Local or Tribal governments; *Number of Respondents:* 56; *Total Annual Responses:* 56; *Total Annual Hours:* 392.
