Title: Export Fruit Regulations—Export Apple Act (7 CFR part 33) and Export Grape and Plum Act (7 CFR part 35).

OMB Control Number: 0581–0143.

Summary of Collection: Fresh apples and grapes grown in the United States and shipped to any foreign destination must meet minimum quality and other requirements established by regulations issued under the Export Apple Act (7 CFR part 33) and the Export Grape and Plum Act (7 CFR part 35). These Acts were designed to promote the foreign trade of the United States in apples and grapes; to protect the reputation of these American-grown commodities; and to prevent deception or misrepresentation of the quality of such products moving in foreign commerce. Plum provisions in the marketing order were terminated in 1991. The regulation issued under the Export Grape and Plum Act (7 CFR part 35) cover fresh grapes grown in the United States and shipped to foreign destinations, except Canada and Mexico.

Need and Use of the Information: Each shipment must be inspected by Federal or Federal-State Inspection Program (FSIP) to determine if a lot of apples or grapes intended for export meet the applicable quality requirements. FSIP inspectors use the Export Form Certificate to certify inspection of the shipment for exports bound for non-Canadian destinations. The USDA's Agricultural Marketing Services uses the certificates for compliance purposes. The inspector records specific information on the certificate relating to the quality of the fruit, the quantity shipped, the date shipped, vessel identification, and the intended foreign destination of the fruit. Export carriers are required to keep on file for three years copies of inspection certificates for apples and grapes.

Description of Respondents: Business or other for-profit; Farms.

Number of Respondents: 94.

Frequency of Responses: Recordkeeping; Reporting; On occasion, Monthly, Annually.

Total Burden Hours: 4,381.

Title: National Sheep Industry Improvement Center.

OMB Control Number: 0581–0263.

Summary of Collection: The National Sheep Industry Improvement Center (NSIIC) was initially authorized under the Consolidated Farm and Rural Development Act (Act) (Pub. L. 104–127). The initial legislation included a provision that privatized the NSIIC 10 years after its ratification. Subsequently, the NSIIC was privatized on September 30, 1996. In 2008, the NSIIC was re-established under Title XI of the Food, Conservation, and Energy Act of 2008 also known as the 2008 Farm Bill. Section 11009 of the 2008 Farm Bill repealed the requirement in section 375(e)(6) of the Act to privatize the NSIIC.

The management of the NSIIC is vested in a Board of Directors (Board) that is appointed by the Secretary of Agriculture. The primary objective of the NSIIC is to assist U.S. sheep and goat industries by strengthening and enhancing the production and marketing of sheep, goats, and their products in the United States.

Need and Use of the Information: Information is collected using the forms “Nominations for Appointments;” “Background Information, AD–755;” and “Nominee's Agreement to Serve.” AMS accepts nominations for membership on the Board from national organizations that (1) consist primarily of active sheep or goat producers in the United States and (2) have the primary interest of sheep or goat production in the United States. The information collection requirements in the request are essential to carry out the intent of the enabling legislation.

Description of Respondents: National Organizations consisting primarily of active sheep or goat producers in the U.S.

Number of Respondents: 10.
