SUPPLEMENTARY INFORMATION: This ICR seeks approval under the PRA for revisions to the Claim for Compensation by a Dependent Information Reports information collection. This ICR covers forms a dependent of a deceased Federal employee, whose death is work-related, uses to prove continued eligibility for benefits, to show entitlement to remaining compensation payments of the deceased employee, and to show dependency. Specifically, this ICR covers Forms CA-5 (Claim for Compensation by Widow, Widower, and/or Children), CA-5b (Claim for Compensation by Parents, Brothers, Sisters, Grandparents, or Grandchildren), CA-1031 (Claimant Support of Dependent), and CA-1074

(Request for Clarification of CA-5b), as well as related form letters used to obtain follow-up information commonly needed to clarify an initial benefit claim. This information collection is considered a revision, because several clarifying changes were made to the forms and letters; however, the changes do not affect the estimated burden. Federal Employee Compensation Act as amended sections 28 and 32 authorize this information collection. See 5 U.S.C. 8145 and 8149.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1240-0013. The current approval is scheduled to expire on August 31, 2016; however, the DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. New requirements would only take effect upon OMB approval. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on March 8, 2016 (81 FR 12129).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1240-0013. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and

- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

SUPPLEMENTARY INFORMATION: This ICR seeks approval under the PRA for revisions to the Weekly Claims and Extended Benefits Data and Weekly Initial and Continued Weeks Claimed information collection requirements. This data collection is necessary for the determination of the beginning, continuance, or termination of an Extended Benefit (EB) period in any State that determines the EB trigger rate. In addition, data on initial and continued claims are used to help determine economic indicators. The revisions are related to the Final Rule titled, "Federal-State Unemployment Compensation Program; Implementing the Total Unemployment Rate as an Extended Benefits Indicator and Amending for Technical Corrections," that appears elsewhere today in the **Federal Register**. The Final Rule deletes regulations 20 CFR 615.15 paragraphs (c) and (d) that pertain to records and reports a State agency must submit. The reporting instructions for the proper and timely submission of data are provided in *ET Handbook No. 401* that governs Unemployment Compensation required reporting. Social Security Act section 303(a)(6) and Federal-State Extended Unemployment Compensation Act of 1970 section 203, as amended authorize this information collection. See 42

U.S.C. 303(a)(6) and Public Law 91-373, section 203.

This information collection is subject to the PRA. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1250-0028. The current approval is scheduled to expire on October 31, 2018; however, the DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. New requirements would only take effect upon OMB approval. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on July 7, 2015 (80 FR 38747) and the Final Rule published today under RIN 1205-AB62.

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. The DOL notes that the request for public comments is limited to the information collection requirements; the ETA provided an opportunity for public comment on the underlying regulatory provisions when it published a Proposed Rule in the **Federal Register** on October 24, 2014 (79 FR 63589). In order to help ensure appropriate consideration, comments on the ICR should mention OMB Control Number 1205-0028. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
