Title: Special Supplemental Nutrition Program for Women, Infants and Children (WIC) Loving Support Award of Excellence.

Form Number: Not applicable.

OMB Number: 0584-0591.

Expiration Date: 03/31/2017.

Type of Request: Revision of a Currently Approved Collection.

Abstract: This information collection is mandated by section 231 of the Healthy, Hunger-Free Kids Act of 2010 (HHFKA) (Pub. L. 111-296). Section 231 of the HHFKA requires USDA to implement a program to recognize exemplary breastfeeding support practices at WIC local agencies and clinics. The WIC Program provides breastfeeding promotion and support for pregnant and postpartum mothers as a part of its mission to improve the health of the approximately 8 million Americans it serves each month. Breastfeeding is a priority in WIC and WIC mothers are strongly encouraged to breastfeed their infants unless the mother or baby have a medical condition where breastfeeding is not advised.

In recognizing exemplary local agencies and clinics, the HHFKA requires that the Secretary consider the following criteria: (1) Performance measurements of breastfeeding; (2) the

effectiveness of a peer counselor program; (3) the extent to which the agency or clinic has partnered with other entities to build a supportive breastfeeding environment for women participating in WIC; and (4) other criteria the Secretary considers appropriate after consultation with State and local program agencies. The information will be submitted voluntarily by WIC local agencies who will be applying for an award. FNS will use the information collected to evaluate the components of existing breastfeeding programs and support in WIC local agencies and make decisions about awards. This program is expected to provide models and motivate other local agencies and clinics to strengthen their breastfeeding promotion and support activities. Applications will be submitted online.

Affected Public: State, Local, Territories and Tribal Government. Respondent groups identified include the WIC local agencies who are applying for the award and the WIC State agencies who evaluate the applications.

Estimated Number of Respondents: The total estimated number of participants is 453: 363 local WIC agencies and 90 State WIC agencies.

A recent FNS study on WIC Breastfeeding Peer Counseling found that approximately two thirds of the local WIC agencies operate a “Loving Support Program.” The Loving Support Program is an FNS initiative that equips WIC programs with an implementation and management model—the “Loving Support Model”—that serves as a

framework for designing, building, and sustaining peer counseling programs; a requirement for award eligibility. Based on the findings of the study, it is estimated that approximately 1,210 of the 1,834 WIC local agencies will be eligible to apply for an award. Although the number of local agencies operating a Loving Support Program has increased, an average of only 16.4% of eligible respondents have applied over the past two years. In Fiscal Year (FY) 2014, 77 out of 607 eligible local agencies applied for an award (12.7%) and in FY 2015, 123 out of 607 eligible local agencies applied for an award (20.3%). Therefore, unlike the previous information collection request, the estimated number of respondents for local agency applications will not assume all eligible local WIC agencies will apply for an award. To better reflect the estimated number of respondents for subsequent years, FNS estimates that 30% (363) of eligible local agencies will respond annually. This reduces the total number of burden hours for the local WIC agencies from 1,214 to 907.5 hours. The estimated number of respondents for the State agency application evaluation is derived from the total number of State WIC agencies.

Estimated Number of Responses per Respondent: The estimated number of responses per respondent for the WIC local agency is one, as each eligible WIC local agency will submit one application. The estimated number of responses per respondent for the WIC State agency is 4.03, as each WIC State agency will evaluate approximately four

applications annually. The estimated number of responses per respondent for the WIC State agency application evaluation was derived by dividing the total number of respondents for the WIC local agency applications, 363, by the total number of WIC State agencies, 90. FNS estimates that the overall responses per respondent for the entire collection is 1.60, which was derived by dividing the number of total annual responses 725.7, by the estimated number of respondents, 453.

Estimated Total Annual Responses: 725.7.

Estimated Time per Response: FNS estimates the WIC local agency application response is 2.5 hours, and the WIC State agency response is 1.5 hours. The overall response for the entire collection is 2.0 hours, which was derived by dividing the number of estimated total hours, 1,451.6, by the number of total annual responses by all respondents, 725.7.

Estimated Total Annual Burden on Respondents: 1,451.6 hours. The time for the WIC local agency is an estimated time for the agency to voluntarily review the instructions, fill out the “Loving Support Award of Excellence” application, and attach supportive documentation. The time for the State WIC agency is an estimated time for the agency to review the instructions, evaluate the components of the local WIC agencies applications, and make a recommendation for an award.

See the table below for estimated total annual burden for each type of respondent.

Respondent	Estimated number of respondent	Responses annually per respondent	Total annual responses (Col. B × C)	Estimated average number of hours per response*	Estimated total hours (Col. D × E)
Reporting Burden:					
WIC Local Agency Application	363.0	1.00	363.0	2.5	907.5
WIC State Agency Evaluation	90.0	4.03	362.7	1.5	544.1
Total Reporting Burden	453.0	1.60	725.7	2.0	1,451.6
