RECORD SOURCE CATEGORIES:

Information in this system of records may be provided by the volunteer, his/her family, civic and service organization, "Patient Medical Records—VA" (24VA10P2) system of records, and Voluntary Service at the VA health care facility where the volunteer worked.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To the extent that records contained in the system include information protected by 45 CFR parts 160 and 164 (*i.e.*, individually identifiable health information), and 38 U.S.C. 7332 (*i.e.*, medical treatment information related to

drug abuse, alcoholism or alcohol abuse, sickle cell anemia or infection with the human immunodeficiency virus), that information cannot be disclosed under a routine use unless there is also specific statutory authority in 38 U.S.C. 7332 and regulatory authority in 45 CFR parts 160 and 164 permitting disclosure.

1. VA may disclose on its own initiative any information in this system, except the names and home addresses of Veterans and their family members or caregivers which is relevant to a suspected or reasonably imminent violation of law, whether civil, criminal or regulatory in nature, and whether arising by general or program statute or by regulation, rule or order issued pursuant thereto, to a Federal, State, local, Tribal, or foreign agency charged with the responsibility of investigating or prosecuting such violation, or charged with enforcing or implementing the statute, regulation, rule or order. On its own initiative, VA may also disclose the names and addresses of Veterans, their family members or caregivers to a Federal agency charged with the responsibility of investigating or prosecuting civil, criminal or regulatory violations of law, or charged with enforcing or implementing the statute, regulation, rule or order issued pursuant thereto.

2. 3. Volunteer records may be used to confirm volunteer service, duty schedule, and assignments to service organizations, Bureau of Unemployment, insurance firms, office of personnel of the individual's fulltime employment; to assist in the development of VA history of the volunteer and his/her assignments; and to confirm voluntary hours for on-the-job accidents, and for recognition awards.

4. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

5. Disclosure may be made to the National Archives and Records Administration and to General Services Administration in records management inspections conducted under authority of 44 U.S.C.

6. VA may disclose information from this system of records to the Department of Justice (DoJ), either on VA's initiative or in response to DoJ's request for the information, after either VA or DoJ determines that such information is relevant to DoJ's representation of the United States or any of its components in legal proceedings before a court or adjudicative body, provided that, in each case, the agency also determines prior to disclosure that release of the records to the DoJ is a use of the information contained in the records that is compatible with the purpose for which VA collected the records. VA, on its own initiative, may disclose records in this system of records in legal proceedings before a court or administrative body after determining that the disclosure of the records to the court or administrative body is a use of the information contained in the records that is compatible with the purpose for which VA collected the records.

7. Relevant information may be disclosed to individuals, organizations, private or public agencies, etc., with whom VA has a contract or agreement to perform such services as VA may deem practicable for the purposes of laws administered by VA, in order for the contractor or subcontractor to perform the services of the contract or agreement. VA occasionally contracts out certain of its functions when this would contribute to effective and efficient operations.

8. Disclosure to other Federal agencies may be made to assist such agencies in preventing and detecting possible fraud or abuse by individuals in their operations and programs.

9. VA may, on its own initiative, disclose any information or records to appropriate agencies, entities, and persons when (1) VA suspects or has confirmed that the integrity or confidentiality of information in the system of records has been compromised; (2) the Department has determined that as a result of the suspected or confirmed compromise, there is a risk of embarrassment or harm to the reputations of the record subjects, harm to economic or property interests, identity theft or fraud, or harm to the security, confidentiality, or integrity of this system or other systems or programs (whether maintained by the Department or another agency) that rely upon the compromised information; and (3) the disclosure is to agencies, entities,

or persons whom VA determines are reasonably necessary to assist or carry out the Department's efforts to respond to the suspected or confirmed compromise, and prevent, minimize, or remedy such harm. This routine use permits disclosures by the Department to respond to a suspected or confirmed data breach, including the conduct of any risk analysis or provision of credit protection services as provided in 38 U.S.C. 5724.

POLICIES AND PRACTICES FOR STORAGE OF RECORDS:

Digital information of all active volunteers is maintained in Martinsburg, West Virginia, on secured Webservers. Paper documents for all active volunteers are maintained in locked file cabinets at the individual VA facilities where the volunteer has donated time. Computer files containing basic information, such as name, address, date of birth, volunteer assignments, hours/years volunteered, and award information are retained for all volunteers, either active or inactive, at the VA facility where the volunteer worked.

POLICIES AND PRACTICES FOR RETRIEVABILITY OF RECORDS:

(a) All volunteer records are filed by name and unique identification numbers within the VA's VSS, and are cross-referenced under the organization(s) they represent.

(b) Health records are stored by name and Social Security number in the VISTA patient files, but are not retrievable through VSS.

POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS:

1. The individual volunteer's record of service is maintained by the VA health care facility, as long as he or she is living and actively participating in the VAVS program. VSS maintains minimum information on all volunteers indefinitely. These minimum records include the volunteer's name, address, date of birth, telephone number, next of kin information, assignments worked, hours and years of service, and last award received.

2. Depending on the record medium, records are destroyed by either shredding or degaussing. Summary

reports and other output reports are destroyed when no longer needed for current operation. Regardless of record medium, no records will be retired to a Federal records center.

PHYSICAL, PROCEDURAL, AND ADMINISTRATIVE SAFEGUARDS:

1. Access to VA working space and medical record storage areas and the Web-servers in Martinsburg, West Virginia, is restricted to VA employees on a "need to know" basis. Generally, VA file areas are locked after normal duty hours and are protected from outside access by the Federal Protective Service. Volunteer file records of sensitive medical record files are stored in separate locked files.

2. Strict control measures are enforced to ensure that access to and disclosure from all records including electronic files and volunteer specific data elements stored in the VSS are limited to VA Voluntary Service (VAVS) employees whose official duties warrant access to those files. The automated record system recognizes authorized users by keyboard entry of a series of unique passwords. Once the employee is logged onto the system, access to files is controlled by discreet menus, which are assigned by the VSS package local system administrator based upon the employee's demonstrated need to access the data to perform the employee's assigned duties. A number of other security measures are implemented to enhance security of electronic records (automatic timeout after short period of inactivity, device locking after pre-set number of invalid logon attempts, etc.). Employees are required to sign a user access agreement acknowledging their knowledge of confidentiality requirements, and all employees receive annual training on information security. Access is deactivated when no longer required for official duties. Recurring monitors are in place to ensure compliance with nationally and locally established security measures.

3. Online data resides on VSS Webservers in Martinsburg, West Virginia, that are highly secured.

4. Any sensitive information that may be downloaded or printed to hard copy format is provided the same level of security as the electronic records. All

paper documents and informal notations containing sensitive data are shredded prior to disposal.

5. All new VAVS employees receive initial information security training, and refresher training is provided to all employees on an annual basis.

Official maintaining the system: Technatomy Contractor, Jay Singh, VHA Oakland OIFO, 1301 Clay Street, Suite 1350N, Oakland, California 94612.

Inquiries should include the volunteer's name, organization represented, date of birth, and last address while serving as a volunteer to the VA.

EXEMPTIONS PROMULGATED FOR THE SYSTEM:
