SUPPLEMENTARY INFORMATION: The City of Phoenix (applicant) has applied to the U.S. Fish and Wildlife Service (Service) for an amendment to their enhancement of survival permit pursuant to section 10(a)(1)(A) of the Endangered Species Act (Act; 16 U.S.C. 1531 *et seq.*), as amended. The requested amendment, which will expire on June 8, 2061, to coincide with the expiration date of the original permit (50 years from the issuance date of June 8, 2011), would authorize incidental take of the yellow-billed cuckoo (*Coccyzus americanus*) as a result of operation and maintenance activities associated with the Rio Salado Project. We invite the public to review and comment on the permit application and the associated draft safe harbor agreement amendment (amendment).

The applicant plans to continue to conduct operation and maintenance activities associated with the Rio Salado Project, including maintenance of vegetation, roads, trails, water delivery

system, flood control capacity, and storm water facilities. The Rio Salado Project, Phoenix Reach, is a cooperative project between the applicant and the U.S. Army Corps of Engineers to restore, enhance, and maintain 595 acres of native riparian and wetland vegetation along the Salt River from 24th Street to 19th Avenue.

Section 9 of the Act prohibits the “taking” of threatened or endangered species. However, the Service, under limited circumstances, may issue permits to take threatened and endangered wildlife species when such taking is incidental to, and not the purpose of, otherwise lawful activities.

The Service has made a preliminary determination that the approval of the draft amendment and permit amendment application qualify for categorical exclusion under the National Environmental Policy Act (NEPA; 42 U.S.C. 4321 *et seq.*), as provided by the Department of the Interior implementing regulations at 43 CFR 46.205, 46.210, and 46.215.
