

about beneficiary work experiences (successful and unsuccessful); and identify factors that promote or restrict long-term work success. Information collected in the survey includes factors such as health; living arrangements; family structure; current occupation; use of non-SSA programs; knowledge of SSDI and SSI work incentive programs; obstacles to work; and beneficiary interest and motivation to return to work.

We conducted the first wave of the NBS-General Waves in 2015. We will further conduct subsequent rounds in

2017 (round 2) and 2019 (round 3). The information we will collect is not available from SSA administrative data or other sources. In the NBS-General Waves, the sample design is similar to what we used for the prior NBS collections. Enhancement of the prior questionnaire includes additional questions on the factors that promote or hinder employment success. In 2015, we conducted semi-structured qualitative interviews to provide SSA an in-depth understanding of factors that aid or inhibit individuals in their efforts

to obtain and retain employment and advance in the workplace. We use the qualitative data to add context and understanding when interpreting survey results, and to inform the sample and survey design of rounds 2 and 3.

Respondent participation in the NBS is voluntary and the decision to participate or not has no impact on current or future receipt of payments or benefits. Respondents are current SSDI beneficiaries and SSI recipients.

Type of Request: Revision of an OMB-approved information collection.

Abstract of proposed collection: The export, temporary import, and brokering of defense articles, defense services, and related technical data are licensed by the Directorate of Defense Trade Controls (DDTC) in accordance with the International Traffic in Arms Regulations ("ITAR," 22 CFR parts 120–130) and Section 38 of the Arms Export Control Act.

ITAR § 126.18 eliminates, subject to certain conditions, the requirement for an approval by DDTC for the reexport of unclassified defense articles, which includes technical data, to individuals who are dual or third-country national employees of a foreign business entity, foreign governmental entity, or international organization that is an authorized end-user, foreign signatory, or consignee (including transfers to approved sub-licensees) for defense articles, including the transfer to dual nationals or third-country nationals who are bona fide regular employees of the foreign business entity, foreign governmental entity, or international organization.

To use ITAR § 126.18, effective procedures must be in place to prevent diversion to any destination, entity, or for purposes other than those authorized by the applicable export license or other authorization. Those conditions can be

met under § 126.18(c)(1) by requiring a security clearance approved by the host nation government for its employees, or under § 126.18(c)(2) by the end-user or consignee having in place a process to screen its employees and to have executed a Non-Disclosure Agreement that provides assurances that the employee will not transfer any defense articles to persons or entities unless specifically authorized by the consignee or end-user. ITAR § 126.18(c)(2) also provides that the technology security/clearance plans and screening records shall be made available to DDTC or its agents for civil or criminal law enforcement purposes upon request.

Methodology: When information kept on file pursuant to this recordkeeping requirement is required to be sent to the Directorate of Defense Trade Controls, it may be sent electronically or by mail according to guidance given by DDTC.

Dated: August 22, 2016.

Lisa Aguirre,

Managing Director, Directorate of Defense Trade Controls, Department of State.
