 The filings are accessible in the Commission's eLibrary system by clicking on the links or querying the docket number.

Any person desiring to intervene or protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Regulations (18 CFR 385.211 and 385.214) on or before 5:00 p.m. Eastern time on the specified comment date. Protests may be considered, but intervention is necessary to become a party to the proceeding.

eFiling is encouraged. More detailed information relating to filing requirements, interventions, protests, service, and qualifying facilities filings can be found at: <http://www.ferc.gov/docs-filing/efiling/filing-req.pdf>. For other information, call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Dated: August 31, 2016.

Nathaniel J. Davis, Sr.,
 Deputy Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. EL16-109-000]

Virginia Electric and Power Company v. PJM Interconnection, L.L.C. PJM Settlement, Inc.; Notice of Complaint

Take notice that on August 29, 2016, pursuant to sections 206 and 306 of the Federal Power Act, 16 U.S.C. 824e and 825e (2012), and Rules 206 and 207(a)(5) of the Federal Energy Regulatory Commission's (Commission) Rules of Practice and Procedure, 18 CFR 385.206 and 207(a)(5) (2016), Dominion Resources Services, Inc. (Dominion) on behalf of Virginia Electric and Power Company (Complainant) filed a formal complaint against PJM Interconnection L.L.C. and PJM Settlement, Inc. (Respondents) alleging that Respondents violated its Open Access Transmission Tariff and Amended and Restated Operating Agreement by denying Dominion's request for a fuel cost adjustment resulting from the need to run Ladysmith Power Station Units 2-5 on back-up fuel oil rather than less expensive natural gas for reliability in real-time, all as more fully explained in the complaint.

Dominion certifies that copies of the complaint were served on the contacts for Respondent listed on the Commission's list of Corporate Officials.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and

385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. The Respondent's answer and all interventions, or protests must be filed on or before the comment date. The Respondent's answer, motions to intervene, and protests must be served on the Complainant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please email FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Comment Date: 5:00 p.m. Eastern Time on September 19, 2016.

Dated: August 30, 2016.

Kimberly D. Bose,
Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. PF15-25-000]

Freeport LNG Development, L.P.; Supplemental Notice of Intent To Prepare an Environmental Assessment for the Planned Freeport LNG Train 4 Project and Request for Comments on Environmental Issues

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the expanded Freeport LNG Train 4 Project (Project) involving construction and operation of facilities by Freeport LNG Development, L.P. (Freeport LNG)

in Brazoria County, Texas. The Commission will use this EA in its decision-making process to determine whether the planned project is in the public interest.

We¹ are issuing this supplemental notice to inform the public of changes to the originally proposed Project. Freeport LNG has modified the planned Project by deleting the non-jurisdictional feed-gas pipeline previously planned to provide gas to the Liquefaction Plant on Quintana Island. To replace the feed gas, Freeport LNG plans to construct a FERC-jurisdictional pipeline extending from the meter station at Stratton Ridge to the Pretreatment Plant on Levee Road/State Road 690 and then to the Liquefaction Plant on Quintana Island. The Pretreatment Plant would be expanded to handle the additional gas processing.

The comment period for the original scoping notice of the Project was from August 19, 2015 to September 18, 2015. This supplemental notice announces the opening of an additional scoping period the Commission will use to gather input from the new landowners potentially affected by changed to the planned Project, and inform interested agencies of the changes

As the modifications would affect new landowners; therefore, the Commission is issuing this supplemental notice to provide these new landowners an opportunity to comment on the Project. You can access detailed mapping of the modifications to the proposed pipeline route on the Commission's Web site (www.ferc.gov) using eLibrary. For instructions on connecting to eLibrary, refer to the last page of this notice.

Comments submitted during the original comment period have been made part of the docket and do not need to be resubmitted.

You can make a difference by providing us with your specific comments or concerns about the Project. Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. Your input will help the Commission staff determine what issues they need to evaluate in the EA. To ensure that your comments are timely and properly recorded, comments may be submitted in writing as described in the public participation section of this notice. Please note that comments on this supplemental notice should be filed

with the Commission by October 3, 2016.

This notice is being sent to the Commission's current environmental mailing list for this project. State and local government representatives should notify their constituents of this planned project and encourage them to comment on their areas of concern.

A fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?" is available for viewing on the FERC Web site (www.ferc.gov). This fact sheet addresses a number of typically asked questions and how to participate in the Commission's proceedings.

Public Participation

For your convenience, there are three methods you can use to submit your comments to the Commission. The Commission encourages electronic filing of comments and has expert staff available to assist you at (202) 502-8258 or efiling@ferc.gov. Please carefully follow these instructions so that your comments are properly recorded.

(1) You can file your comments electronically using the *eComment* feature on the Commission's Web site (www.ferc.gov) under the link to *Documents and Filings*. This is an easy method for submitting brief, text-only comments on a project;

(2) You can file your comments electronically by using the *eFiling* feature on the Commission's Web site (www.ferc.gov) under the link to *Documents and Filings*. With eFiling, you can provide comments in a variety of formats by attaching them as a file with your submission. New eFiling users must first create an account by clicking on "eRegister." If you are filing a comment on a particular project, please select "Comment on a Filing" as the filing type; or

(3) You can file a paper copy of your comments by mailing them to the following address. Be sure to reference the project docket number (PF15-25-000) with your submission: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Room 1A, Washington, DC 20426.

Summary of the Planned Project

Freeport LNG intends to add a fourth liquefaction unit (Train 4), a supply pipeline, and associated infrastructure and utilities to Freeport LNG's natural gas Liquefaction Plant on Quintana Island in Brazoria County, Texas (Appendix 1, Figure 1). The Project would be located adjacent to the facilities authorized and currently under construction for the Phase II
