Draft Supplemental Environmental Impact Statement for the Dam Safety Modification Report, Bluestone Dam, Hinton, Summers County, WV

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Supplemental Draft Environmental Impact Statement—public and agency comment period.

SUMMARY: Pursuant to the National Environmental Policy Act (NEPA), the U.S. Army Corps of Engineers (Corps), Huntington District prepared a Supplemental Draft Environmental Impact Statement (SDEIS) to disclose potential impacts to the natural, physical, and human environment resulting from modifications to Bluestone Dam. The original EIS was published in 1998 and a Record of Decision (ROD) was signed in 1999 concluding the NEPA process allowing the Corps to initiate implementation of the Bluestone Dam Safety Assurance (DSA) Project. When completed, the current modifications under construction will strengthen the dam's stability and allow for increased discharge capacity through the use of hydropower penstocks substantially reducing risk. However, physical modeling and expert analysis conducted during project construction indicated the downstream bedrock is vulnerable to an unacceptable degree of erosion during high flow events. The Corps has also recognized potential for unacceptable erosion associated with overtopping of areas of the dam not designed to be overtopped. After a full consideration of alternatives to achieve acceptable risk levels, this SDEIS recommends implementing modifications to the existing stilling basin to prevent scour that could result in spillway instability and thus dam failure. Modification may include alteration to the existing stilling basin to include installation of a concrete apron, larger baffles, and would also include non-structural risk management measures. This SDEIS also addresses the prolonged construction duration of modification features described in the original EIS and ROD.

DATES: The review period will be open from September 1, 2016 to October 17, 2016.

ADDRESSES: Send written comments and suggestions concerning this proposed project to Rebecca Rutherford, Chief, Environmental Analysis Section, Planning Branch, U.S. Army Corps of Engineers, Huntington District, 502 Eighth Street, Huntington, WV 25701–2070. Telephone: 304–399–5924. Electronic mail: BluestoneDamDSA@usace.army.mil. Requests to be placed on the mailing list should also be sent to this address.
