### SUPPLEMENTARY INFORMATION:

#### Agenda

The NTAP is a joint advisory panel of the Mid-Atlantic and New England Fishery Management Councils composed of Council members, fishing industry, academic, and government and non-government fisheries experts. The NTAP was established to bring commercial fishing, fisheries science, and fishery management professionals in the northeastern U.S. together to identify concerns about regional research survey performance and data, to identify methods to address or mitigate these concerns, and to promote mutual understanding and acceptance of the results of this work among their peers and in the broader community. Topics to be discussed at the meeting include membership changes; report of the NTAP Working Group meeting (August 2, 2016); results of witch flounder gear efficiency study and next steps for stock assessment; results of research on increasing the number of survey stations; group discussion on
