ACTION: Notice of intent to prepare an Environmental Impact Statement; request for comments.

SUMMARY: Pursuant to the National Environmental Policy Act (NEPA), this notice announces that NMFS intends to obtain information necessary to prepare an Environmental Impact Statement (EIS) for eight Hatchery and Genetic Management Plans (HGMP) for ongoing salmon and steelhead hatchery programs jointly submitted by the Washington Department of Fish and Wildlife (WDFW), the Puyallup Tribe of Indians, and the Muckleshoot Indian Tribe (referred to as the co-managers), for NMFS' evaluation and determination under Limit 6 of the Endangered Species Act (ESA) 4(d) Rule for threatened salmon and steelhead. The HGMPs specify the propagation of salmon and steelhead in the Puyallup-White River Basin in Washington State. NMFS provides this notice to advise other agencies and the public of its plans to analyze effects related to the action, and obtain suggestions and information that may be useful to the scope of issues and alternatives to include in the EIS.

SUPPLEMENTARY INFORMATION:

ESA-Listed Species Covered in This Notice

Steelhead (*Oncorhynchus mykiss*): Threatened, naturally and artificially produced in Puget Sound.

Chinook salmon (*O. tshawytscha*): Threatened, naturally and artificially produced in Puget Sound.

Chum salmon (*O. keta*): Threatened, naturally and artificially produced Hood Canal summer-run.

Bull trout (*Salvelinus confluentus*): Threatened Coastal Recovery Unit.

Background

The WDFW, the Puyallup Tribe of Indians, and the Muckleshoot Indian Tribe have jointly submitted to NMFS plans for eight ongoing hatchery programs in the Puyallup-White River Basin. The plans were submitted to NMFS from 2012 to 2016, pursuant to Limit 6 of the ESA 4(d) Rule for salmon and steelhead. The hatchery programs include releases of ESA-listed Chinook salmon and winter-run steelhead, and non-listed coho and fall-run chum salmon into the Puyallup-White River Basin.

NEPA requires Federal agencies to conduct environmental analyses of their proposed major actions to determine if the actions may affect the human environment. NMFS' action of determining that the co-managers' HGMPs meet criteria under Limit 6 of the 4(d) Rule for salmon and steelhead promulgated under the ESA is a major Federal action subject to environmental review under NEPA. Therefore, NMFS is seeking public input on the scope of the required NEPA analysis, including the range of reasonable alternatives, recommendations for relevant analysis methods, and information associated with impacts of the alternatives to the resources listed below or other relevant resources.

NMFS will perform an environmental review of the HGMPs and prepare an EIS that will identify potentially significant direct, indirect, and cumulative impacts on the following resources that may be affected by the Proposed Action or its alternatives:

- Listed and Non-listed Species and their habitats;
- Water Quantity;
- Socioeconomics;
