

that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this rule does not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

F. Environment

We have analyzed this rule under Department of Homeland Security Management Directive 023-01 and Commandant Instruction M16475.ID, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321-4370f), and have determined that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule involves the establishment of temporary security zones for special events being held in conjunction with the 22nd International Seapower Symposium. Normally such actions are categorically excluded from further review under paragraph 34(g) of Figure 2-1 of Commandant Instruction M16475.ID. An environmental analysis checklist and Categorical Exclusion Determination are available in the docket where indicated under **ADDRESSES**. We seek any comments or information that may lead to the discovery of a significant environmental impact from this rule.

G. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

[EPA-R02-OAR-2016-0389; FRL-9952-41-Region 2]

Partial Approval and Partial Disapproval of Air Quality Implementation Plans; NJ; Infrastructure SIP Requirements for 2008 Lead, 2008 Ozone, 2010 Nitrogen Dioxide, 2010 Sulfur Dioxide, and 2012 PM_{2.5}, 2006 PM₁₀ and 2011 Carbon Monoxide NAAQS: Interstate Transport Provisions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is partially approving and partially disapproving elements of a New Jersey State Implementation Plan (SIP) submittal pertaining to the infrastructure requirements of section 110(a)(1) and (2) of the Clean Air Act (CAA) for the 2008 Lead, 2008 Ozone, 2010 Nitrogen Dioxide (NO₂), 2010 Sulfur Dioxide (SO₂), 2011 Carbon Monoxide (CO), 2006 Particulate Matter of ten microns or less (PM₁₀), and 2012 Particulate Matter of 2.5 microns or less (PM_{2.5}) National Ambient Air Quality Standards (NAAQS). The infrastructure requirements are designed to ensure that the structural components of each state's air quality management program are adequate to meet the state's responsibilities under the CAA. This action pertains specifically to infrastructure requirements relating to interstate transport provisions concerning the Prevention of Significant Deterioration of Air Quality (PSD) regulations, and visibility protection.

DATES: This rule is effective on October 19, 2016.

Throughout this document, “we”, “us”, and “our” means EPA.

- I. Background and Purpose
- II. What action is EPA taking?
- III. Statutory and Executive Order Reviews

I. Background and Purpose

This rulemaking addresses CAA section 110(a)(2)(D)(i) requirements in New Jersey’s infrastructure SIP submitted on October 17, 2014 to address applicable infrastructure requirements with respect to the 2008 Lead, 2008 Ozone, 2010 NO₂, 2010 SO₂, and 2012 PM_{2.5}, 2006 PM₁₀ and 2011 CO NAAQS.

The requirement for states to make a SIP submission of this type arises out of CAA section 110(a)(1). Pursuant to section 110(a)(1), states must make SIP submissions “within 3 years (or such shorter period as the Administrator may prescribe) after the promulgation of a national primary ambient air quality standard (or any revision thereof),” and these SIP submissions are to provide for the “implementation, maintenance, and enforcement” of such NAAQS. The statute directly imposes on states the duty to make these SIP submissions, and the requirement to make the submissions is not conditioned upon EPA’s taking any action other than promulgating a new or revised NAAQS. Section 110(a)(2) includes a list of specific elements that “[e]ach such plan” submission must address. EPA commonly refers to such state plans as “infrastructure SIPs.” In particular, section 110(a)(2)(D)(i)(I) requires SIPs to include provisions prohibiting any source or other type of emissions activity in one state from contributing significantly to nonattainment of the NAAQS (commonly referred to as prong 1), or interfering with maintenance of the NAAQS (prong 2), in any another state. Section 110(a)(2)(D)(i)(II) requires SIPs to include provisions prohibiting any source or other type of emissions activity in one state from interfering with measures required to prevent significant deterioration (PSD) of air quality (prong 3) and to protect visibility (prong 4) in another state.

This rulemaking pertains only to the portion of the SIP submittal addressing section 110(a)(2)(D)(i)(II)(prongs 3 and 4). On March 30, 2016, New Jersey withdrew the portion of the submittal addressing 110(a)(2)(D)(i)(I) (prongs 1 and 2) for the 2008 Ozone NAAQS. EPA subsequently issued a Finding of Failure

to Submit to New Jersey.¹ EPA will address the other portions of the October 17, 2014 infrastructure SIP submittal in a separate action.

EPA proposed action on the October 17, 2014 submittal on July 27, 2016 (81 FR 49205). In that action, EPA proposed to disapprove the portions of New Jersey’s October 17, 2014 SIP submission addressing prong 3 and proposed to approve the portions addressing prong 4 regarding CAA section 110(a)(2)(D)(i) requirements. No comments were received on the proposal. The reader is referred to the July 27, 2016 proposed rulemaking for a detailed discussion of New Jersey’s submittal and EPA’s review and proposed actions.

II. What action is EPA taking?

EPA is approving the portion of the October 17, 2014 SIP submittal from New Jersey pertaining to the requirements of CAA section 110(a)(2)(D)(i)(II) requirement for visibility (or prong 4) for the 2008 Lead, 2008 Ozone, 2010 NO₂, 2010 SO₂, and 2012 p.m.2.5, 2006 p.m.10 and 2011 CO NAAQS.

New Jersey has elected to comply with the Federal PSD requirements by accepting delegation of the Federal rules and has been successfully implementing this program for many years. However, EPA does not recognize a delegated PSD program as satisfying the Infrastructure SIP requirements. Therefore, EPA is disapproving New Jersey’s submittal pertaining to the requirements of CAA section 110(a)(2)(D)(i)(II) requirement for PSD (or prong 3) for the 2008 Lead, 2008 Ozone, 2010 NO₂, 2010 SO₂, and 2012 PM_{2.5}, 2006 p.m.10 and 2011 CO NAAQS. However, the disapprovals will not trigger any sanctions or additional Federal Implementation Plan obligation since a PSD Federal Implementation Plan is already in place.

III. Statutory and Executive Order Reviews**A. Executive Order 12866: Regulatory Planning and Review**

This final action is not a “significant regulatory action” under the terms of Executive Order (EO) 12866 (58 FR 51735, October 4, 1993) and was therefore not submitted to the Office of Management and Budget for review.

B. Paperwork Reduction Act (PRA)

This final action does not impose an information collection burden under the PRA because it does not contain any information collection activities.

C. Regulatory Flexibility Act (RFA)

I certify that this action will not have a significant economic impact on a substantial number of small entities under the RFA. This rule does not impose any requirements or create impacts on small entities. This partial SIP approval and partial SIP disapproval under CAA section 110 will not in-and-of itself create any new requirements but simply approves and disapproves certain state requirements for inclusion into the SIP.

D. Unfunded Mandates Reform Act (UMRA)

This action does not contain any unfunded mandate as described in UMRA, 2 U.S.C. 1531–1538, and does not significantly or uniquely affect small governments. The action imposes no enforceable duty on any state, local or tribal governments or the private sector.

E. Executive Order 13132: Federalism

This action does not have federalism implications. It will not have substantial direct effects on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government.

F. Executive Order 13175: Consultation and Coordination With Indian Tribal Governments

This action does not have tribal implications as specified in Executive Order 13175. This action does not apply on any Indian reservation land, any other area where the EPA or an Indian tribe has demonstrated that a tribe has jurisdiction, or non-reservation areas of Indian country. Thus, Executive Order 13175 does not apply to this action.

G. Executive Order 13045: Protection of Children From Environmental Health Risks and Safety Risks

The EPA interprets Executive Order 13045 as applying only to those regulatory actions that concern environmental health or safety risks that the EPA has reason to believe may disproportionately affect children, per the definition of “covered regulatory action” in section 2–202 of the Executive Order. This action is not subject to Executive Order 13045 because it merely partially approves and partially disapproves a SIP submittal from the State of New Jersey.

H. Executive Order 13211: Actions That Significantly Affect Energy Supply, Distribution or Use

This action is not subject to Executive Order 13211, because it is not a

¹81 FR 38963 (June 15, 2016).

significant regulatory action under Executive Order 12866.

I. National Technology Transfer and Advancement Act

This rulemaking does not involve technical standards.

J. Executive Order 12898: Federal Actions To Address Environmental Justice in Minority Populations and Low-Income Populations

EPA believes the human health or environmental risk addressed by this action will not have potential disproportionately high and adverse human health or environmental effects on minority, low-income or indigenous populations because it does not affect the level of protection provided to human health or the environment. This action merely partially approves and partially disapproves a SIP submittal from the State of New Jersey.

K. Congressional Review Act (CRA)

This action is subject to the CRA, and EPA will submit a rule report to each House of the Congress and to the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

L. Judicial Review

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by November 18, 2016. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See CAA section 307(b)(2)).
