

subsequent phases developed. EPA is considering utilizing pre-tests, pilots, or other techniques to obtain stakeholder input in the development of the subsequent phases of this study which may not need to be conducted using 308 authority.

The rationale for conducting this effort as a mandatory census is two-fold. Currently there exist multiple, disparate databases containing information concerning various subsets of treatment facilities; however, each of these databases is incomplete with respect to identifying all facilities. In addition, each database has missing or incomplete data fields. Second, historic precedent indicates that voluntary survey designs have extremely low response rates and issues with bias. Both of these facts make getting an accurate, national profile of POTWs infeasible without making it mandatory to respond. EPA also intends to conduct up to 40 POTW site visits and up to 100 state and small municipality association phone contacts to solicit information on industry terminology, typical treatment trains and modes of operation, and nutrient removal technologies and operating practices, and this ICR addresses these activities as well.

EPA is limiting the information requested by the census to that which is necessary to create a complete population of POTWs and to identify basic information about that population. Questions include those necessary to identify and stratify the universe of POTWs and, within that population, the secondary treatment POTWs not designed specifically to remove nitrogen and phosphorus. A draft of the screener is available at Docket ID No. EPA-HQ-OW-2016-0404 as part of today's request for comments (see *Instructions* section of this notice for further information).

The draft screener makes use of multiple choice and yes/no questions, with the intention to use drop down menus and checkboxes from which respondents will choose the best answer. EPA is not including open-ended questions in the screener questionnaire which would likely be unwieldy due to the number and expected variation of responses and the extensive follow-up needed when entering the responses into a database. EPA intends to design the screener questionnaire as a web-based survey that POTWs can fill out and submit online. EPA intends to require the submittal of a signed certification form that will either be uploaded with the screener, or may be mailed directly to the Agency. EPA will provide a mechanism for POTWs to respond with

a mailed response if they cannot access the internet. EPA is specifically soliciting comments on simplifying the census format. In addition, EPA is soliciting comments on EPA's approach to developing the mailing list, and has made a draft available in the Docket (see *Instructions* section of this notice for further information).

Burden statement: This information collection is a one-time event. The total respondent reporting and recordkeeping burden for this collection of information is estimated to average 3.5 hours per response for 90 percent of the respondents and 1.5 hours per response for 10 percent of the respondents. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. The burden estimate includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

Estimated total number of potential respondents: No more than 20,000 POTWs, 40 POTWs for site visits, 100 state or small municipal association contacts.

Frequency of response: One-time data collection.

Estimated total average burden for each respondent: POTW screener survey response—3.5 hours for 90 percent of the respondents (\$147) and 1.5 hours for 10 percent of the respondents (\$65); POTW site visit respondent—8 hours, \$224; State/Small Municipal Association contact—1 hour, \$55.

Estimated total respondent burden hours: 66,420.

Estimated total respondent costs: \$2,792,713. This estimate reflects unit costs for labor and operational and maintenance costs.

What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR, the screener questionnaire, and its approach as appropriate. During this public comment period, EPA will be working with stakeholders to refine the survey instrument and will revise the instrument as appropriate after

considering the comments expressed during those interactions and in response to this notice. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and a 30 day opportunity to submit comments to OMB on this ICR. If you have any questions about this ICR or the approval process, please contact the technical person listed above under **FOR FURTHER INFORMATION CONTACT.**

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-1021]

Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501-3520), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. No person shall be subject to

any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before November 18, 2016. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-1021.

Title: Section 25.139, NGSO FCC Coordination and Information Sharing Between MVDDS Licensees in the 12.2 GHz to 12.7 GHz Band.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 6 respondents; 6 responses.

Estimated Time per Response: 6 hours.

Frequency of Response: On occasion reporting requirement and third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this collections is contained in 47 U.S.C. 154(i), 157(a), 301, 303(c), 303(f), 303(g), 303(r), 308, and 309(j).

Total Annul Burden: 36 hours.

Total Annual Cost: None.

Privacy Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Needs and Uses: Section 25.139, which the Commission adopted in the 2002 Order in ET Docket No. 98-206, requires Non-Geostationary Satellite Orbit (NGSO) Fixed-Satellite Services (FSS) licensees to maintain a subscriber database in a format that can be readily shared to enable MVDDS licensees to determine whether a proposed Multichannel Video Distribution and Data Service (MVDDS) transmitting antenna meets the minimum spacing requirement relative to qualifying, existing NGSO FSS subscriber receivers (set forth in § 101.129, FCC Rules). The Commission will use Section 25.139 to ensure that NGSO FSS licensees provide MVDDS licensees with the data needed

to determine whether a proposed MVDDS transmitting site meets the minimum spacing requirement relative to certain NGSO FSS receivers.

Federal Communications Commission.
