

TABLE 1 TO § 100.1102

20. IJSBA World Finals

Sponsor	International Jet Sporting Association (IJSBA).
Event Description	Personal Watercraft Race.
Date	October 1, 2016 through October 9, 2016.
Location	Lake Havasu City, AZ.
Regulated Area	The navigable waters of Lake Havasu, AZ in the area known as Crazy Horse Campgrounds.

Dated: September 6, 2016.
E.M. Cooper,
Commander, U.S. Coast Guard, Acting,
Captain of the Port San Diego.
 [FR Doc. 2016-22611 Filed 9-19-16; 8:45 am]
BILLING CODE 9110-04-P

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 117

[Docket No. USCG-2016-0877]

Drawbridge Operation Regulation; Willamette River, Portland, OR

AGENCY: Coast Guard, DHS.
ACTION: Notice of deviation from drawbridge regulation.

SUMMARY: The Coast Guard has issued a temporary deviation from the operating schedule that governs three Multnomah County, Oregon bridges: the Broadway Bridge; the Burnside Bridge; and the Hawthorne Bridge; all crossing the Willamette River at Portland, OR. The deviation is necessary to accommodate the Portland Marathon foot race event. This deviation allows the bridges to remain in the closed-to-navigation position to allow for the safe movement of event participants.

DATES: This deviation is effective from 5 a.m. to 3 p.m. on October 9, 2016.

ADDRESSES: The docket for this deviation, [USCG-2016-0877] is available at <http://www.regulations.gov>. Type the docket number in the "SEARCH" box and click "SEARCH." Click on Open Docket Folder on the line associated with this deviation.

FOR FURTHER INFORMATION CONTACT: If you have questions on this temporary deviation, call or email Mr. Steven Fischer, Bridge Administrator, Thirteenth Coast Guard District; Thirteenth Coast Guard District; telephone 206-220-7282, email d13-pf-d13bridges@uscg.mil.

SUPPLEMENTARY INFORMATION: Multnomah County, Oregon has requested a temporary deviation from

the operating schedule for the Broadway Bridge, mile 11.7; Burnside Bridge, mile 12.4; and Hawthorne Bridge, mile 13.1; all crossing the Willamette River at Portland, OR. The deviation is necessary to accommodate Portland Marathon participants' safe movement over the bridges. To facilitate this event, the draws of these bridges will be maintained as follows: The Broadway Bridge provides a vertical clearance of 90 feet in the closed-to-navigation position; the Burnside Bridge provides a vertical clearance of 64 feet in the closed-to-navigation position; and the Hawthorne Bridge provides a vertical clearance of 49 feet in the closed-to-navigation position; all clearances are referenced to the vertical clearance above Columbia River Datum 0.0. The normal operating schedule for all three bridges is in 33 CFR 117.897.

The deviation period is from 5 a.m. until 3 p.m. on October 9, 2016. Waterway usage on the Willamette River ranges from commercial tug and barge to small pleasure craft. Vessels able to pass through the Broadway Bridge, the Burnside Bridge, and the Hawthorne Bridge in the closed-to-navigation position may do so at anytime. These bridges will be able to open for emergency vessels in route to a call. The Willamette River has no immediate alternate route for vessels to pass. The Coast Guard will also inform the users of the waterways through our Local and Broadcast Notices to Mariners of the change in operating schedule for the bridge so that vessels can arrange their transits to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: September 9, 2016.
Steven M. Fischer,
Bridge Administrator, Thirteenth Coast Guard District.

BILLING CODE 9110-04-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R07-OAR-2016-0407; FRL-9952-55-Region 7]

Partial Approval and Partial Disapproval of Implementation Plans; State of Iowa; Infrastructure SIP Requirements for the 2008 Ozone National Ambient Air Quality Standard (NAAQS)

AGENCY: Environmental Protection Agency (EPA).
ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is taking final action to partially approve and partially disapprove elements of the State Implementation Plan (SIP) submission from the State of Iowa addressing the applicable requirements of the Clean Air Act (CAA) section 110 for the 2008 ozone NAAQS. Section 110 requires that each state adopt and submit a SIP to support the implementation, maintenance, and enforcement of each new or revised NAAQS promulgated by the EPA. These SIPs are commonly referred to as "infrastructure" SIPs. The infrastructure requirements are designed to ensure that the structural components of each state's air quality management program are adequate to meet the state's responsibilities under the CAA.

DATES: This final rule is effective on October 21, 2016.

ADDRESSES: EPA has established a docket for this action under Docket ID No. EPA-R07-OAR-2016-0407. All documents in the docket are listed on the www.regulations.gov Web site. Although listed in the index, some information is not publicly available, *i.e.*, CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available electronically at

www.regulations.gov and at EPA Region 7, 11201 Renner Boulevard, Lenexa, Kansas 66219. Please schedule an appointment during normal business hours with the contact listed in the **FOR FURTHER INFORMATION CONTACT** section.

FOR FURTHER INFORMATION CONTACT: Heather Hamilton, Environmental Protection Agency, Air Planning and Development Branch, 11201 Renner Boulevard, Lenexa, Kansas 66219 at (913) 551-7039, or by email at Hamilton.heather@epa.gov.

SUPPLEMENTARY INFORMATION:

Throughout this document “we,” “us,” and “our” refer to EPA. This section provides additional information by addressing the following:

- I. What is being addressed in this document?
- II. What action is EPA taking?
- III. Statutory and Executive Order Reviews

I. What is being addressed in this document?

EPA is taking final action to partially approve and partially disapprove the infrastructure SIP submission received from the State of Iowa on January 17, 2013. EPA is approving the following elements of section 110(a)(2): (A), (B), (C), (D)(i)(II)—prong 3 only, (E) through (H), and (J) through (M).

EPA is disapproving element 110(a)(2)(D)(i)(II)—prong 4. EPA did not act on sections 110(a)(2)(D)(i)(I)—prongs 1 and 2, and 110(a)(2)(I).

A Technical Support Document (TSD) is included as part of the docket to discuss the details of this rulemaking.

The proposal to approve the infrastructure SIP submission was published on Friday July 29, 2016, in the **Federal Register**. 81 FR 49911. The comment period ended August 29, 2016. There were no comments on the proposal.

II. What action is EPA taking?

The EPA is taking final action to partially approve and partially disapprove the January 17, 2013 submission from the State of Iowa which addresses the requirements of CAA sections 110(a)(1) and (2) as applicable to the 2008 ozone NAAQS.

Based on review of the state’s infrastructure SIP submissions and relevant statutory and regulatory authorities and provisions referenced in those submissions or referenced in Iowa’s SIP, EPA believes that Iowa’s SIP meets the elements of sections 110(a)(1) and (2) with respect to the 2008 ozone NAAQS. EPA is taking final action to partially approve and partially disapprove the infrastructure SIP submission received from the State of Iowa on January 17, 2013. EPA is

approving the following elements of section 110(a)(2): (A), (B), (C), (D)(i)(II)—prong 3 only, (E) through (H), and (J) through (M). EPA is disapproving element 110(a)(2)(D)(i)(II)—prong 4. The EPA is not required to take further action with respect to prong 4 because the CSAPR Federal Implementation Plan already in place achieves the necessary emission reductions. EPA did not act on sections 110(a)(2)(D)(i)(I)—prongs 1 and 2, and 110(a)(2)(I).

The EPA’s analysis of these submissions is addressed in a TSD as part of the docket.

III. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA’s role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Public Law 104-4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and

- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

The SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by November 21, 2016. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Intergovernmental relations, Ozone, Prevention of significant deterioration, Reporting and recordkeeping requirements.

Dated: September 8, 2016.

Mark Hague,

Regional Administrator, Region 7.

For the reasons stated in the preamble, EPA amends 40 CFR part 52 as set forth below:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Authority: 42 U.S.C. 7401 *et seq.*

§ 52.820 Identification of plan.

Subpart Q—Iowa

* * * * *
(e) * * *

■ 1. The authority citation for part 52 continues to read as follows:

■ 2. In section 52.820(e), the table is amended by adding entry (43) in numerical order to read as follows:

EPA-APPROVED IOWA NONREGULATORY SIP PROVISIONS

Name of non-regulatory SIP revision	Applicable geographic or nonattainment area	State submittal date	EPA Approval date	Explanation
(43) Sections 110(a)(1) and (2) Infrastructure Requirements 2008 Ozone NAAQS.	Statewide	1/17/13	9/20/16 and [Insert Federal Register citation].	This action approves the following CAA elements: 110(a)(2)(A), (B), (C), (D)(i)(II)—prong 3 only, (E), (F), (G), (H), (J), (K), (L), and (M). 110(a)(2)(D)(i)(II)—prong 4 is disapproved. 110(a)(2)(I) is not applicable. [EPA-R07-OAR-2016-0407; FRL-9952-55-Region 7].

[FR Doc. 2016-22503 Filed 9-19-16; 8:45 am]
BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R07-OAR-2016-0501; FRL-9952-44-Region 7]

Approval of Iowa’s Air Quality Implementation Plans; Correction

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule; correcting amendment.

SUMMARY: The Environmental Protection Agency (EPA) inadvertently approved and codified incorrect entries for final rule actions published in the **Federal Register**. This technical amendment corrects the entries.

DATES: This rule is effective on September 20, 2016.

FOR FURTHER INFORMATION CONTACT: Jan Simpson at (913) 551-7089, or by email at *simpson.jan@epa.gov*.

SUPPLEMENTARY INFORMATION: EPA inadvertently approved and codified incorrect entries in paragraph (c) to 40 CFR 52.820 for three separate final rule actions published in the **Federal Register**. The first published on June 11, 2015, the second published on August

14, 2015, and the third published on June 17, 2016.

The June 11, 2015 (80 FR 33192), **Federal Register** direct final action approving revisions to chapter 22 rule 567-22.3 “*Issuing Permits*” omitted the following sentence in the explanation column on page 33194 “Subrule 22.3(6) has not been approved as part of the SIP. Subrule 22.3(6), Limits on Hazardous Air Pollutants, has been approved under Title V and section 112(l). The remainder of the rule has not been approved pursuant to Title V and section 112(l)”. Therefore we are correcting page 33194 of the June 11, 2015, **Federal Register** direct final rule to add the missing language to the explanation column in table section 52.820 (c). The August 14, 2015 (80 FR 48718), **Federal Register** final rule codification of this same rule, chapter 22 rule 567-22.3 “*Issuing Permits*”, state effective date and the citation information in the EPA approval date column is incorrect. Therefore, we are correcting page 48720 of the August 14, 2015, **Federal Register** final rule to reflect the most current Federally-approved information by changing the state effective date and the EPA approval date column information.

The June 17, 2016 (81 FR 39585), **Federal Register** direct final action approving revisions to chapter 20 rule 567.20.2 “*Definitions*” state effective

date of May 7, 2008, on page 39587 is correct, however the state effective date April 22, 2015, published on June 11, 2015 (80 FR 33192) is the most current chronological effective date of this rule. By using the most current chronological effective date, we provide the reader a clear understanding of the Federally-approved state effective date of this rule. Therefore, we are correcting page 39587 of the June 17, 2016, **Federal Register** direct final action to reflect the information of the most chronological effective and EPA approval dates.

Dated: September 6, 2016.

Mark Hague,

Regional Administrator, Region 7.

Chapter I, title 40 of the Code of Federal Regulations is amended as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

■ 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart Q—Iowa

■ 2. Amend § 52.820(c) by revising the entries for 567-20.2 and 567-22.3 to read as follows:

* * * * *
(c) * * *
