This is a proposed extension of the ICR, which is currently approved through September 30, 2016. Public comments

were previously requested via the **Federal Register** (80 FR 32116) on June 5, 2015, during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

**SUPPLEMENTARY INFORMATION:** Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at [www.regulations.gov](http://www.regulations.gov) or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. **Abstract:** The affected entities are subject to the General Provisions of the NESHAP (40 CFR part 63, subpart A), and any changes, or additions to the Provisions, which are specified at 40 CFR part 63, subpart YYYYY. Owners or operators of the affected facilities must

submit an initial notification report, performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports, at a minimum, are required semi-annually.

**Form numbers:** None.

**Respondents/affected entities:**

Stationary combustion turbines constructed or reconstructed after January 14, 2003.

**Respondent's obligation to respond:** Mandatory (40 CFR part 63, subpart YYYYY).

**Estimated number of respondents:** 131 (total).

**Frequency of response:** Initially, semiannually and annually.

**Total estimated burden:** 2,220 hours (per year). Burden is defined at 5 CFR 1320.3(b).

**Total estimated cost:** \$239,000 (per year), which includes \$9,700 in either annualized capital/startup or operation & maintenance costs.

**Changes in the estimates:** There is an adjustment increase in respondent labor hours in this ICR from the most-recently approved ICR. This is due to a projected industry growth, which results in an increase in the estimated number of sources subject to these standards. Additionally, there is a small adjustment decrease in the capital/startup cost due to a correction. The previous ICR incorrectly calculated the labor cost for installing catalyst inlet temperature monitoring devices.

**Correction; Summitec Corporation, Versar, Inc., and CDM/CSS-Dynamac Joint Venture; Transfer of Data**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice; correction.

**SUMMARY:** This is a correction to the notice that published in the **Federal Register** of August 10, 2016, which announced that pesticide related information submitted to EPA's Office of Pesticide Programs (OPP) pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Federal Food, Drug, and Cosmetic Act (FFDCA), including information that may have been claimed as Confidential Business Information (CBI) by the submitter, will be transferred in accordance with the CBI regulations. That notice incorrectly identified the contractor as "Summitec Corporation and listed its subcontractors as Versar, Inc., and CDM/CSS-Dynamac Joint Venture. In this notice, EPA is correctly listing the main contractors as Summitec Corporation, Versar, Inc. and CDM/CSS-Dynamac Joint Venture; and is also providing their respective subcontractors. This document corrects the listings in the notice of August 10, 2016.

**FOR FURTHER INFORMATION CONTACT:** Mario Steadman, Information Technology and Resources Management Division (7502P), Office of Pesticide Programs, Environmental Protection

Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460-0001; telephone number: (703) 305-8338; email address: [steadman.mario@epa.gov](mailto:steadman.mario@epa.gov).

**SUPPLEMENTARY INFORMATION:**

**I. General Information**

This is a correction to the notice that published in the **Federal Register** of August 10, 2016 (81 FR 52852) (FRL-9950-09). In that notice, EPA incorrectly identified a single contract (Contract No. EP-W-16-019) as having been awarded to "Summitec Corporation and its subcontractors, Versar, Inc., and CDM/CSS-Dynamac Joint Venture." Instead, the notice should have identified the work as having been awarded under the following three contracts:

- Contract No. EP-W-16-018: CDM/CSS-Dynamac Joint Venture and its subcontractors (Stone Environmental Inc., WinTech, LLC, Gibb Epidemiology Consulting, LLC, Global VetPathology, Corona Environmental Consulting, LLC, and WorkSafe Resources, LLC);

- Contract No. EP-W-16-019: Summitec Corporation and its subcontractor (SRC); and

- Contract No. EP-W-16-020: Versar, Inc. and its subcontractors (Abt Associates, EnDyna, Exponent, Inc., Essential Software, Inc., BrownGlove Consulting Group and Information Impact).

**II. Contract Requirements**

The work to be performed by these contractors is described in the notice of August 10, 2016. OPP has determined that providing these companies with access to information on all pesticide chemicals is necessary for the performance of this contract. The information, some of which may be entitled to confidential treatment, has been submitted to EPA under FIFRA sections 3, 4, 6, and 7 and under FFDCA sections 408 and 409. In accordance with the requirements of 40 CFR 2.307(h)(2), the contract with each company prohibits use of the information for any purpose not specified in the contract; prohibits disclosure of the information to a third party without prior written approval from the Agency; and requires that each official and employee of the contractor sign an agreement to protect the information from unauthorized release and to handle it in accordance with the *FIFRA Information Security Manual*. In addition, these companies are required to submit for EPA approval a security plan under which any CBI will be secured and protected against unauthorized release or compromise. No information will be provided to any of
