

GOVERNMENT PUBLISHING OFFICE**Depository Library Council to the Director; Meeting**

The Depository Library Council (DLC) to the Director, Government Publishing Office (GPO) will meet on Monday, October 17, 2016 through Wednesday, October 19, 2016 in Arlington, Virginia. The sessions will take place from 8 a.m. to 5:30 p.m., Monday and Tuesday and 8:00 a.m. to 12:30 p.m., on Wednesday. The meeting will be held at the Doubletree Hotel, 300 Army Navy Drive, Arlington, Virginia. The purpose of this meeting is to discuss the Federal Depository Library Program. All sessions are open to the public. The United States Government Publishing Office is in compliance with the requirements of Title III of the Americans with Disabilities Act and meets all Fire Safety Act regulations.

Davita Vance-Cooks,

Director, Government Publishing Office.

BILLING CODE 1520-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES**Centers for Disease Control and Prevention****Statement of Organization, Functions, and Delegations of Authority**

Part C (Centers for Disease Control and Prevention) of the Statement of Organization, Functions, and Delegations of Authority of the Department of Health and Human Services (45 FR 67772-76, dated October 14, 1980, and corrected at 45 FR 69296, October 20, 1980, as amended most recently at 81 FR 54091-54094, dated August 15, 2016) is amended to reflect the reorganization of the Office of Safety, Security and Asset Management, Office of the Chief Operating Officer, Centers for Disease Control and Prevention.

Section C-B, Organization and Functions, is hereby amended as follows:

Delete and replace the title and the mission and function statements for the *Office of Safety, Security and Asset Management (CAJS)* and insert the following:

Office of Safety, Security and Asset Management (CAJS). The Office of Safety, Security and Asset Management (OSSAM) serves as the lead organizational entity for providing a safe, secure, functional, and healthy workplace environment for the Centers

for Disease Control and Prevention (CDC) and Agency for Toxic Substances and Disease Registry (ATSDR) staff while ensuring environmental stewardship and appropriate management of CDC assets.

Office of the Director (CAJS1). (1) Directs, manages, coordinates and evaluates the programs and activities of OSSAM service offices; (2) develops goals and objectives, and provides leadership, policy formulation, and guidance in program planning and development; and (3) provides advice and counsel to the CDC Director, the Chief Operating Officer, and other senior Office of the Director (OD) and Centers/Institute/Offices (CIO) officials on all OSSAM programs and activities.

Office of Operations (CAJS13). (1) Oversees technical programs to ensure a safe, secure, and healthy workplace while ensuring all worksite issues are properly addressed and brought to closure; (2) provides oversight and guidance to CIOs through OSSAM liaison officers who support programs as the key contact for matters related to safety, security, facilities, logistics, and sustainability, and (3) manages space requests and provides recommendations to the Chief Operating Officer for approval for all CDC CIOs.

Office of Financial, Administrative, and Information Services (CAJS13B). (1) Provides administrative guidance, advice, and support to OSSAM employees; (2) manages OSSAM information technology support, including system development, maintenance, design, and implementation; (3) provides direction, strategy, analysis, and operational support in all aspects of OSSAM's human capital management and administrative operations; (4) develops and implements internal policies and procedures, including developing related communications; (5) provides employee and labor relations support; (6) serves as the point of contact between OSSAM OD and each of the CDC Business Service Offices; (7) provides overall budgetary support and oversight for OSSAM, including budget planning, execution, monitoring, and reporting; (8) provides oversight, guidance and approval for the procurement process OSSAM-wide; (9) provides oversight of property accountability, including appointing an OSSAM property accountability officer; (10) provides guidance and oversight related to the records management requirements and process; and (11) establishes and enforces OSSAM-related travel policies.

Office of Policy, Performance, and Communications (CAJS13C). (1)

Provides technical and managerial direction for the development of organizational and CDC-wide policies as it relates to safety, security, and asset management to support CDC's public health science and programs; (2) participates with senior management in program planning, policy determinations, evaluations, and decisions concerning escalation points for safety, security, and asset management; (3) provides leadership, coordination, and collaboration on issues management and triaging, and ensures the process of ongoing issues identification, management, and resolution; (4) conducts policy analysis, tracking, review, and clearance as it relates to safety, security, and asset management to support CDC's public health science and programs; (5) coordinates with CDC-Washington on authorizations; (6) coordinates with the CDC Office of Financial Resources regarding budget justifications and appropriation matters; (7) manages and responds to Congressional inquiries and media requests as it relates to safety, security, and asset management to support CDC's public health science and programs; (8) serves as the point of contact for the policy analysis, technical review, and final clearance of executive correspondence and policy documents that require approval from the CDC Director, CDC Leadership Team, or officials; (9) leads OSSAM performance management, including the development of strategic plans, performance metrics, dashboards, Quarterly Program Review materials, and Office of the Chief Operating Officer performance management initiatives; (10) provides OSSAM-wide communications support which includes presentations, messages, clearances, emergency notifications, and meetings; (11) ensures accurate and consistent information dissemination, including Freedom Of Information Act requests and CDC's Division of Issues Management, Analysis, and Coordination controlled correspondence; (12) ensures consistent application of CDC correspondence standards and styles; and (13) provides leadership, technical assistance, and consultation in establishing best practices in internal and external business communication and implements external communication strategies to promote and protect CDC's brand (e.g., employee communications, intranet, internet and other communication platforms).

Public Health Intelligence Office (CAJS14). (1) Provides leadership and operational and technical support for

development, and implementation of intelligence activities; (2) analyzes and disseminates intelligence related to public health, medical and scientific intelligence, counterintelligence, insider threat, and global security; (3) researches, compiles, produces, and provides classified and unclassified briefings; (4) performs prepublication review of classified and sensitive information; (5) serves as the CDC liaison with U.S. intelligence community agencies; (6) provides global security oversight in coordination with U.S. government agencies, international organizations, and non-governmental organizations; (7) identifies training needs and recommends specific training objectives to be met and the methods to achieve them (*i.e.* Security Awareness, Counterintelligence Awareness, Foreign Travel Safety Brief); (8) develops, implements, and presents sound and well-grounded training programs to prepare CDC staff members pending deployments or travel abroad; (9) performs security assessments of and technical assistance to CDC international facilities; (10) supports CDC international operational goals through membership on the Department of State Overseas Security Policy Board; (11) provides oversight of the Defensive Counterintelligence and Insider Threat program; (12) processes non-United States citizen requests for physical or logical access; (13) provides guidance over all security issues related to foreign travel matters; (14) provides policy and implementation guidance on all standards and requirements related to the processing and storing of controlled unclassified information; (15) manages and operates CDC's Sensitive Compartmented Information Facility (SCIF) and its secure communications systems; (16) maintains accreditation of CDC's SCIF; (17) manages and operates collateral-level secure facilities nationally; (18) provides policy and implementation guidance on the standards for using classified document control for CDC; (19) provides policy and implementation guidance on all standards and requirements related to the processing and storing of classified information by CDC; (20) develops and administers a physical protection plan for all national security information and material held or processed by CDC in accordance with established laws, mandates, and government-wide policies; (21) acts as Communications Security Custodian for all classified matters involving the National Security Agency; (22) maintains CDC's emergency destruction plan for classified material and equipment; (23)

conducts preliminary investigations of security violations relative to the loss or compromise/suspected compromise of sensitive, classified, or crypto-logic materials or devices throughout CDC; (24) ensures proper destruction of classified documents that are no longer required; (25) conducts security inspections and audits of all national security information storage and processing areas; (26) responsible for implementing, maintaining, and updating of CDC's Continuity Of Operations (COOP) communication vehicles; and (27) provides deployable unclassified and classified communication platforms to support high-level deploying staff to natural or manmade disaster areas in support of COOP plans.

Quality and Sustainability Office (CAJS15). (1) Provides quality assurance and continuous improvement by establishing a framework for process improvement associated with all OSSAM functions; (2) ensures accountability and environmental stewardship of CDC assets in order to protect CDC's ability to carry out its health mission today and in the future; (3) conducts quality improvement audits on all OSSAM program areas of responsibility; (4) assembles technical advisory teams, as needed, to conduct audits/reviews of OSSAM program areas; and (5) provides oversight of CDC's sustainability programs.

Asset Management Services Office (CAJSB). The Asset Management Services Office (AMSO) provides a safe, secure, healthy, and functional workplace environment for CDC staff by ensuring that assets are managed effectively while maintaining efficient operations and logistical support, customer satisfaction, and environmental stewardship.

Office of the Director (CAJSB1). (1) Plans, directs, and coordinates the functions and activities of AMSO; (2) provides management and administrative direction for budget planning and execution, property management, and personnel management within AMSO; (3) provides leadership and strategic support to senior managers in the determination of CDC's long-term facility needs; (4) coordinates the operations of AMSO staff involved in the planning, evaluation, design, construction, and management of facilities and acquisition of property; (5) provides centralized value engineering services, policy development and coordination, and global acquisition planning for AMSO; (6) assists and advises senior CDC officials in the development, coordination, direction, and assessment

of facilities and real property activities throughout CDC's facilities and operations, and assures consideration of facilities management implications in program decisions; (7) provides collaboration and centralized consolidation of division reporting requirements and other deliverables to the Department of Health and Human Services (HHS), the Office of Financial Resources (OFR), and other internal and external entities; and (8) oversees functions of the campus portfolio managers who prepare the capital and repair and improvements (R&I), CDC and HHS-level Facility Project Approval Agreements, asset business plans, campus master plans, and special studies, monitors performance indicators to identify/address portfolio deficiencies, serves on project core teams including, Historic Preservation, Green Building, International Facilities, Real Property Acquisition, Asset Management Team and Security Liaison Activities, and administers the National Environmental Policy Act.

Leased Property Management Services (CAJSB12). (1) Conducts real estate activities throughout CDC, including the acquisition of leased space, and the purchase and disposal of real property for CDC nationwide, with emphasis on current and long-range planning for the utilization of existing and future real property resources; (2) performs space management (assignment and utilization) of all CDC space, both owned and leased, nationwide; (3) provides technical assistance in space planning to meet programmatic needs; (4) executes all easements for owned property, in coordination with campus liaison officers; (5) administers day-to-day management of leased facilities and ensures contract compliance by lessors; (6) provides technical assistance and prepares contract specifications for all repair and improvement projects in leased space; (7) maintains liaison with the General Services Administration regional offices; (8) performs all functions relating to leasing and/or acquisition of real property under CDC's delegation of authority for leasing, including direct lease actions; and (9) coordinates the relocation of CDC personnel within owned and leased space.

Engineering, Maintenance, and Operations Services Office (CAJSBB). The Engineering, Maintenance, and Operations Services Office (EMOSO) manages facilities engineering, engineering controls, security systems engineering, fire alarm and life safety, and monitors, operates, and maintains owned buildings, central utility plants, systems, equipment, and performs

systems/building commissioning. Specifically, EMOSO: (1) Operates, maintains, repairs, and modifies CDC's Atlanta-area office buildings, laboratories, and plant facilities, and other designated CDC facilities throughout the U.S. and other geographic areas, and conducts a maintenance and repair program for CDC's program support equipment; (2) develops services for new, improved, and modified equipment to meet program needs; (3) provides technical assistance, reviews maintenance and operation programs, and recommends appropriate action for all Atlanta-area facilities and other designated CDC facilities throughout the U.S. and other geographic areas; (4) provides recommendations, priorities, and services for new, improved, or modified equipment to meet program needs; (5) provides maintenance and operation of the central energy plant including structures, utilities production and distribution systems, and equipment; (6) conducts a program of custodial services, waste disposal, incinerations, disposal of biological waste and chemical hazardous waste, and other building services at all CDC Atlanta-area facilities and other designated CDC facilities throughout the U.S. and other geographic areas; (7) provides landscape development, repair, and maintenance at all Atlanta-area facilities and other designated CDC facilities throughout the U.S. and other geographic areas; (8) provides hauling and moving services for CDC in the Atlanta-area; (9) provides an Integrated Pest Management Program to control insect and rodents for CDC in Atlanta-area facilities; (10) develops required contractual services and provides supervision for work performed; (11) establishes and maintains a computerized system for maintenance services, for stocking and ordering supplies, and replacement parts; (12) provides for pick-up and delivery of supplies and replacement parts to work sites; (13) maintains adequate stock levels of supplies and replacement parts; (14) prepares design and contract specifications, and coordinates completion of contract maintenance projects; (15) manages CDC's Energy Conservation Program for all CDC facilities; (16) reviews all construction documents for energy conservation goals and compliance with applicable CDC construction standards; (17) participates on all core teams and value engineering teams; (18) provides maintenance and inspection for fire extinguishers and fire sprinkler systems; (19) provides services for the procurement of natural gas; (20)

develops and maintains a standard equipment list for all CDC facilities; (21) assists the other AMSO offices with facility-related issues, as needed; (22) provides building coordinators to interface with program personnel to keep the building and equipment functioning; (23) functions as the CDC waste and recycling services manager and (24) coordinates the commissioning of new buildings, structures, systems and components, as necessary.

Projects and Construction Management Services Office (CAJSBC). The Projects and Construction Management Services Office (PCMSO) manages capital improvement projects, repair and improvement projects, and construction services. Specifically, PCMSO: (1) Provides professional architectural/engineering capabilities, and technical and administrative project support to CDC and CIOs for renovations and improvements to CDC-owned facilities and construction of new facilities; (2) develops project management requirements, including determination of methods, means of project completion, and selection of resources; (3) provides critical path method scheduling support for all large capital construction projects and all R&I projects; and (4) provides central cost estimating support for all large capital construction projects, all R&I projects, special projects, feasibility studies, as requested, and certain work orders, as requested.

Logistics Management Services Office (CAJSBD). (1) Develops and implements CDC-wide policies, procedures, and criteria necessary to comply with Federal and departmental regulations governing inventory management, property administration, property reutilization and disposal, supply management, and receiving and distribution; (2) determines, recommends, and implements procedural changes needed to maintain effective management of CDC property, including but not limited to inventory control, property records, and property reutilization and disposal; (3) provides audits, training and technical assistance to CDC CIOs on inventory management, property administration, property reutilization and disposal, supply management, and property receiving; (4) determines the requirement for and serves as the functional proponent for the design, test, and implementation of logistics management systems; (5) represents CDC on inter- and intra-departmental committees relevant to logistical functions; (6) serves as the CDC liaison to HHS and other Federal agencies on logistical matters such as inventory management, property

administration, property reutilization and disposal including chemical hazardous waste, supply management, and receiving and distribution; (8) provides medical maintenance management support for CDC's personal property; (9) provides logistics and movement planning support for CDC CIOs; and (10) establishes branch goals, objectives, priorities, and assures consistency and coordination with overall OSSAM logistical goals and objectives.

Design, Engineering and Management Services Office (CAJSBE). The Design, Engineering and Management Services Office (DEMSO) provides architectural, engineering design, project management services, and interior design services, and manages facility plans, drawings and technical documents, and ensures proper configuration control. Specifically, DEMSO: (1) Prepares architectural and engineering designs, and specifications for construction of modifications and renovations to CDC-owned facilities; (2) provides architectural and engineering technical expertise and is the technical authority on new facilities, and modifications and renovations on facility project designs; (3) provides furniture, fixture, and equipment designs, and project management services for all CDC facilities; (4) provides record and guideline document support services to all AMSO offices; and (5) maintains CDC Design Standards and Guidelines for use as basis of design for construction of new facilities, and modifications and renovations in CDC-owned facilities.

Occupational Health and Safety Office (CAJSC). The Occupational Health and Safety Office (OHSO) creates and maintains a safe environment for all CDC staff, contractors, and visitors; prepares CDC staff for working in hazardous conditions domestically and abroad; and maintains compliance with relevant health, safety and environmental laws and regulations.

Office of the Director (CAJSC1). (1) Provides leadership and direction for OHSO to proactively ensure safe and healthy workplaces at CDC worksites for CDC employees, contractors, and visitors, including deployed personnel; (2) serves as the principal advisor to the Director, OSSAM, with responsibility for the CDC health and safety program; (3) plans, identifies and requests required resources for OHSO; (4) directs, manages and evaluates the operations and programs of OHSO; (5) assures compliance with applicable Federal, state, and local health, safety, and environmental laws and regulations; (6) provides the tools,

knowledge, and resources needed for workers to be safe and healthy and to protect the communities adjacent to CDC-owned and leased facilities; (7) promotes healthy and safe work practices to help prevent and mitigate the cause of injuries and illnesses within CDC workplaces; (8) provides advice and counsel to the CDC Director and CIO Leadership, CDC Safety Officers, and nationally and internationally assigned CDC staff on health, safety, and environment-related matters; (9) collaborates with domestic and global partners on CDC staff health and safety issues; (10) plans, organizes and directs OHSO health communication strategies and activities; (11) collaborates with CIOs to provide safety training; (12) provides leadership and oversight to the Quality and Compliance Branch; the Industrial Hygiene and Safety Branch, and the Clinic Branch; (13) supports management and operations by providing administrative and financial services; and (14) provides leadership and direction to ensure medical surveillance and response for CDC staff, contractor and visitor injury, illness, occupational exposure and for the preparation for temporary duty and deployment to hazardous locations.

Quality and Compliance Branch (CAJSCB). (1) Provides coordination and expertise in program planning, policy development, quality assurance, evaluation, data management, information technology, and risk management to assure compliance; (2) ensures accurate record keeping, reporting, data analysis, and trend identification to improve safety at CDC; (3) provides leadership to ensure completion, updates, and continuous improvement of all required manuals and standard operating procedures; (4) develops and maintains annual quality and safety improvement plans and assessments; (5) conducts continuous quality improvement of data collection through a data management plan which includes comprehensive systems review and improvement to support service enhancements; (6) identifies CDC and/or government policy priorities for implementation; (7) serves as a primary source of information and expertise regarding policies, activities, and issues related to safety and health; (8) develops quality improvement strategies for customer service and service enhancements that will be incorporated in OHSO program, strategic, and performance plans; and (9) provides ongoing assessments and analysis to identify continuous quality improvement to ensure all OHSO staff

provide consistent and accurate information to stakeholders and CDC.

Industrial Hygiene and Safety Branch (CAJSCC). (1) Identifies, assesses, mitigates, and monitors hazards in the workplace; (2) provides leadership, expertise, and training on safety/occupational health and industrial hygiene; (3) provides occupational health and safety technical and consultative services to all (owned and leased) CDC campuses to assure compliance with Federal Occupational Health and Safety Standards, and to provide a workplace free of recognized hazards; (4) supports safety activities of domestic and global staff through the establishment of a safety and occupational health plan, the development and implementation of the risk management policy, and coordination of standard operating procedures with the CIOs; (5) conducts comprehensive safety reviews through safety surveys and audits to ensure that CDC workplaces are free from potential and identified hazards; (6) provides coordinated responses to requests that reflect OHSO policy and compliance standards; and (7) conducts health and safety surveys, accident/illness investigations, safety help desk response/investigations, ergonomic evaluations and follow-ups, employee and workplace monitoring for chemical exposures, noise, indoor air quality and other chemical and physical hazards, job hazard/job safety assessments and use of personal protective equipment, lock-out tag-out procedures, environmental audits and compliance, contractor health and safety plan review, and requested safety support services.

Occupational Health Clinic (CAJSCD). (1) Provides occupational health services to maintain a healthy domestic and global CDC workforce through occupational health clinics and contracted health services; (2) manages CDC occupational health services to ensure CDC compliance with Occupational Health and Safety Standards and to support the occupational requirements of CDC; (3) serves as the CDC resource for routine and emergency response occupational health services; (4) prepares CDC staff to work in hazardous conditions in response to domestic and international public health threats or concerns; (5) provides medical evaluations and consultation for personal protective equipment; (6) assures the safety and health of the CDC workforce for during deployments; (7) supports deployment processes through health screenings and physical examinations, administration of vaccinations and medications, and

respiratory clearance; (8) conducts and documents ongoing medical surveillance, as needed, for post-exposures or deployed staff; (9) ensures a prepared and resilient workforce; and (10) develops and maintains procedures that support the occupational health of the CDC workforce.

Worklife Wellness Office (CAJSD). The Worklife Wellness Office (WWO) provides an environment that promotes a culture that improves the health and well-being of workers by integrating effective policies, programs, and processes accessible to all staff to sustain and improve performance, increase readiness, and support healthy choices and behaviors. Specifically, WWO: (1) Provides a core set of services and resources related to health and wellness including preventive screenings, health education and campaigns, health consults, personalized evaluation, counseling, and follow-up care/referrals; (2) engages in holistic organizational wellness efforts such as benchmarking best practices, implementing or maintaining proper policy, systems, linkages, physical environment, social environment, and external partners/coalitions outreach; (3) oversees the lifestyle fitness centers; (4) directs the employee assistance program; and (5) manages the vending and food services for Atlanta campuses.

Security Services Office (CAJSE). The Security Services Office (SSO) serves as the lead organizational entity for providing the overall framework, direction, coordination, implementation, oversight and accountability for CDC's infrastructure protection, and personnel security program. Specifically, SSO: (1) Serves as the primary liaison for homeland security activities; (2) provides a secure work environment for CDC/ATSDR personnel, visitors and contractors; and (3) plans and implements CDC's crisis management activities which ensure a continued public health response to the nation.

Office of the Director (CAJSE1). (1) Directs, manages, coordinates and evaluates the programs and activities of SSO; (2) develops goals and objectives, and provides leadership, policy formulation and guidance in program planning and development; (3) prepares, reviews, and coordinates budgetary, informational, and programmatic documents; (4) provides oversight and comprehensive security services to CDC's Strategic National Stockpile program; and (5) serves as a liaison to local, state, and Federal law enforcement entities and security

personnel within other HHS Operating Divisions.

Physical Security Laboratory and Technical Branch (CAJSEB). (1) Provides coordination, guidance, and security operations to all facilities CDC, including all owned and leased sites; (2) provides campus-wide access control for all the Atlanta leased sites, the Chamblee and Lawrenceville campuses, Anchorage, Alaska, and Fort Collins, Colorado, and all other CDC laboratories; (3) provides management and oversight of contract guard force and local police; (4) responsible for physical security during emergency operations; (5) promotes theft prevention, provides training and conducts investigations; (6) conducts site surveys to assess all physical security activities and correct deficiencies and implement improvement as necessary; (7) manages and maintains the emergency alert system; (8) maintains 24-hour emergency notification procedures for Fort Collins, Colorado, San Juan, Puerto Rico, and Anchorage, Alaska; (9) manages and operates CDC's Security Operations Centers (SOC) 24 hours a day, seven days a week at Roybal, Ft. Collins, and other sites as constructed; (10) manages the Locksmith Office; (11) maintains inventory controls and measures, and implements, installs, repairs, and re-keys all locks with emphasis on the overall physical security of CDC and its owned and leased facilities; (12) provides security recommendations to CDC programs regarding capabilities and limitations of locking devices; (13) provides combination change services to organizations equipped with cipher locking devices; (14) coordinates with engineers and architects on CDC lock and keying requirements for new construction; (15) improves and expands video monitoring to ensure the security of all employees, visitors, contractors and the general public while at the CDC; (16) manages and coordinates Select Agent security and the CDC Safety and Security Plan; (17) manages and maintains the Intrusion Detection Automated system, including P2000; and (18) provides coordination, guidance, and security operations for all CDC laboratories nationwide.

Physical Security Operations Branch (CAJSEC). The Physical Security Operations Branch (PSOB) coordinates and implements security operations, including access control and crisis management, for the CDC Headquarters campus and directs and oversees the security guard contract for Atlanta facilities. Specifically, PSOB: (1) Provides coordination, guidance, and

security operations; (2) provides campus-wide access control; (3) provides management and oversight of contract guard force and local police; (4) conducts physical security during emergency operations; (5) promotes theft prevention, provides training and conducts investigations; (6) conducts site surveys to assess all physical security activities and correct deficiencies, and implement improvements as necessary; (7) manages and operates CDC's SOC 24 hours a day, seven days a week at the Roybal campus, and other sites as constructed; (8) coordinates nationwide security operations through the Roybal campus SOC; (9) maintains 24-hour emergency notification procedures; (10) manages and maintains the emergency alert system; (11) improves and expands video monitoring to ensure the security of all employees, visitors, contractors and the general public while at the CDC; (12) provides coordination, guidance, and security operations for all Global Communication Center events and visits; and (13) manages and coordinates the security of all visitors and guests to all Atlanta-area CDC campuses.

Personnel Security Branch (CAJSED). (1) Conducts background investigations and personnel suitability adjudications for employment with CDC in accordance with 5 CFR 731, Executive Order 12968 and Executive Order 10450; (2) submits documentation for security clearances, and maintains an access roster in a security clearance database; (3) implements high risk investigations such as Public Trust Investigations for employees GS-13s and above who meet HHS criteria standards for employees working in Public Trust positions; (4) conducts adjudications for National Agency Check with Inquiries cases and assists HHS in adjudicating security clearance cases; (5) provides personnel security services for full time employees, guest researchers, visiting scientists, students, contract employees, fellows, and the commissioned corps; (6) conducts initial "Security Education Briefing" and annual Operational Security Training; (7) coordinates employee drug testing; (8) provides identification badges and cardkey access for personnel within all CDC metro Atlanta area facilities as well as some out-of-state CDC campuses; (9) enrolls individuals with a security clearance or approval in the biometric encoding system; (10) maintains hard copy records of all individuals' requests and authorizations for access control readers; and (11) manages and operates cardkey systems.

Internal Emergency Management Branch (CAJSEE). (1) Leads a

comprehensive internal emergency management program that efficiently coordinates CDC resources to, first and foremost, protect lives, then to safeguard the environment and property through mitigation, preparedness training, response, continuity and recovery from all natural, man-made and technological hazards that may impact CDC facilities; (2) Implements, maintains, and updates CDC's Occupant Emergency Plan/Program; (3) conducts and evaluates annual tabletop, functional, and full-scale exercises for all CDC facilities with Designated Officials and Occupant Emergency Organizations; (4) recommends future emergency management and emergency response-related programs, policies, and/or procedures; (5) provides leadership and coordination in planning and implementation for internal emergencies; and (6) provides leadership and coordination in planning and implementation for internal emergency incidents affecting the CDC facilities, including incident response and support.

Transportation Services Office (CAJSG). The Transportation Services Office (TSO) develops and provides CDC-wide transportation policies, procedures and services ensuring a safe, secure and healthy workplace is established and maintained in accordance with federal and departmental regulations. Specifically, TSO: (1) Provides oversight, expertise, guidance, and program support for transportation related activities; (2) provides subject matter expertise on transit initiatives, facility master planning, and liaise with the community regarding transportation planning; (3) provides fleet management and shipping operations; (4) performs parking administration, commuter assistance, manages the Transportation Choices Program, employee housing and relocation services, and coordinates transportation services; (5) develops and implements CDC-wide policies, procedures, and criteria necessary to comply with Federal and departmental regulations governing transportation and fleet management; (6) determines, recommends, and implements procedural changes needed to maintain effective management of CDC transportation services, including but not limited to, shipping and return of CDC materiel, transportation of freight, and CDC's vehicle fleet; (7) represents CDC on inter- and intra-departmental committees relevant to transportation and traffic management; and (8) establishes branch goals, objectives, and priorities, and assures consistency and

coordination with overall OSSAM goals and objectives.

Sherri Berger,

Chief Operating Officer, Centers for Disease Control and Prevention.

BILLING CODE 4160-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

Statement of Organization, Functions, and Delegations of Authority

Part C (Centers for Disease Control and Prevention) of the Statement of Organization, Functions, and Delegations of Authority of the Department of Health and Human Services (45 FR 67772-76, dated October 14, 1980, and corrected at 45 FR 69296, October 20, 1980, as amended most recently at 81 FR 54091-54094, dated August 15, 2016) is amended to reflect the reorganization of the Division of Healthcare Quality and Promotion, National Center for Emerging and Zoonotic Infectious Diseases, Office of Infectious Diseases, Centers for Disease Control and Prevention.

Section C-B, Organization and Functions, is hereby amended as follows:

Delete and replace the title and the mission and function statements for the *Division of Healthcare Quality and Promotion (CVLD)* and insert the following:

Division of Healthcare Quality Promotion (CVLD). Protects patients and healthcare personnel, and promotes safety, quality, and value in both national and international healthcare delivery systems. In carrying out its mission, Division of Healthcare Quality Promotion (DHQP): (1) Measures, validates, interprets, and responds to data relevant to healthcare-associated infections (HAI); antimicrobial use and resistant infections, sepsis, adverse drug events, blood, organ and tissue safety, immunization safety, and other related adverse events or medical errors in healthcare affecting patients and healthcare personnel; (2) investigates and responds to emerging infections, antimicrobial resistance, and related adverse events among patients and healthcare personnel; (3) develops and maintains the National Healthcare Safety Network (NHSN), a tool for monitoring healthcare-associated infections, antimicrobial use and resistance, measuring healthcare outcomes and processes, and

monitoring healthcare worker vaccination and selected health measures in healthcare facilities; (4) assesses local, regional, national scope and burden of infections caused by resistant-bacteria in the U.S. through surveillance and special studies, review of national healthcare data sets, and laboratory surveillance programs; (5) conducts epidemiologic, and basic and applied laboratory research to identify new strategies to monitor and prevent infections/antimicrobial resistance, and related adverse events or medical errors, especially those associated with medical or surgical procedures, indwelling medical devices, contaminated products, dialysis, healthcare environment, and water; (6) collaborates with academic and public health partners to design, develop, and evaluate new approaches to monitoring infections and the efficacy of interventions for preventing infections, improving antibiotic use, and reducing antimicrobial resistance, and related adverse events or medical errors; (7) develops and disseminates evidence-based guidelines and recommendations to prevent and control HAI, antimicrobial resistance (AR), and related adverse events or medical errors; (8) collaborates with Federal, state, and local public health and private partners to promote nationwide implementation of CDC guidelines and other evidence-based interventions to prevent HAI, antimicrobial resistance, and related adverse events or medical errors among patients and healthcare personnel; (9) evaluates the impact of evidence-based recommendations and interventions across the spectrum of healthcare delivery sites; (10) serves as the Designated Federal Official for the Healthcare Infection Control Practices Advisory Committee (HICPAC); (11) serves as the National Reference Laboratory for the identification and antimicrobial susceptibility testing of staphylococci, anaerobic bacteria, non-tuberculous mycobacterial, and those gram-negative bacilli causing healthcare-associated infections; (12) serves as the technical reference laboratory for detection and characterization of other pathogens related to healthcare, and for characterizing the contribution of the healthcare environment to HAI and antimicrobial resistant infections; (13) serves as a global resource for HAI, antimicrobial resistance, and device-associated HAI; (14) coordinates guidance and research related to infection control across CDC and with national and international partners; (15) monitors vaccine safety and conducts

research to evaluate the safety of available and new vaccines; (16) trains EIS Officers and other trainees; (17) coordinates antimicrobial resistance activities at CDC; (18) works in a national leadership capacity with public and private organizations to enhance antimicrobial resistance prevention and control, surveillance and response, and applied research; (19) coordinates blood, organ, and other tissue safety at CDC; and (20) provides expertise and assistance to HHS, other Federal agencies, and global partners on efforts and activities related to safe healthcare.

Office of the Director (CVLD1).
