Forest Service

Title: Forest Industries Data Collection System.

OMB Control Number: 0596–0010.

Summary of Collection: The Forest and Range Renewable Resources Planning Act of 1974 (Pub. L. 93–278), National Forest Management Act of 1976 (16 U.S.C. 1600), and the Forest and Rangeland Renewable Resources Research Act of 1978 (Pub. L. 95–307) amended by the Energy Security Act of 1980 (42 U.S.C. 8701) require the Forest Service (FS) to evaluate trends in the use of logs and wood chips, to forecast anticipated levels of logs and wood chips, and to analyze changes in the harvest of the resources. Forest product and other wood-using industries are important to state, regional, and national economies. In most southern states, the value of rounded timber products is ranked either first or second in relation to other major agricultural crops. The importance and value of the timber products industry is significant in other regions of the United States as well. The FS will collect information using questionnaires.

Need and Use of the Information: To monitor the types, species, volumes, sources, and prices of the timber products harvested throughout the Nation. Using the “Primary Mill Questionnaire” FS will collect industrial round wood information from the primary wood-using industries throughout the United States and from mills in Canada that directly receive wood from the United States. FS will also use the “Pulp & Board Forest Industries Questionnaire.” The data will be used to develop specific economic development plans for a new forest-related industry in a State and to assist existing industries in identifying raw material problems and opportunity. The “Loggers Survey” will track information pertaining to the logging company to determine changes in the logging contractor workforce as a whole, not by individual company. This type of data is important in understanding the logging industry and its response to

outside influences. If the information were not collected, data would not be available for sub-state, state, regional and national policy makers and program developers to make decisions related to the forestland on a scientific basis.

Description of Respondents: Business or other for-profit; Not-for-profit institutions.

Number of Respondents: 2,170.

Frequency of Responses: Reporting: On occasion; Annually.

Total Burden Hours: 1,131.

Departmental Information Collection Clearance Officer.

Notice of Proposed New Fee Sites; Federal Lands Recreation Enhancement Act (Title VIII, Pub. L. 108–447)

AGENCY: Ottawa National Forest, USDA Forest Service.

ACTION: Notice of proposed new fee sites.

SUMMARY: The Ottawa National Forest is proposing new recreation fee sites. The Ottawa's proposal includes: A \$100 day use fee for Clark Lake and Lake Ottawa group picnic buildings; a \$5 daily or \$30 annual fee for Black River picnic area and the Lake Ottawa day use area; and a \$400 day use option for group use of Camp Nesbit, an organizational camp.

Fees are assessed based on the level of amenities and services provided, cost of operations and maintenance, and market assessment. These fees are proposed and will be determined upon further analysis and public comment. Funds from fees would be used for the continued operation and maintenance and improvements to the facilities within the recreation areas.

An analysis of nearby recreation facilities with similar amenities shows that the proposed fees are reasonable and typical of similar sites in the area.

DATES: Comments will be accepted through November 30, 2016. New fees would begin May 2017.

ADDRESSES: Linda L. Jackson, Forest Supervisor, Ottawa National Forest,

E6248 Hwy. 2 East, Ironwood, MI 49938.

FOR FURTHER INFORMATION CONTACT: Lisa Klaus, Public Affairs Officer, 906-932-1330 extension 328. Information about these and other proposed fee changes can also be found on the Ottawa National Forest Web site: <http://www.fs.usda.gov/ottawa>.

SUPPLEMENTARY INFORMATION: The Federal Recreation Lands Enhancement Act (Title VII, Pub. L. 108-447) directed the Secretary of Agriculture to publish a six month advance notice in the **Federal Register** whenever new recreation fee areas are established.

Clark Lake and Lake Ottawa group picnic sites are fully enclosed buildings that each hold up to 75 people. Both have recently been renovated with Clark Lake receiving new bathrooms and showers, and Lake Ottawa receiving updates to the water and wastewater systems.

Black River picnic area is a public access point for boaters to Lake Superior and is one of the most highly visited sites on the Forest. It has received a renovation to its water and wastewater systems with a renovation of the pavilion to be completed in 2016.

The day use fee for Camp Nesbit would cover use of the dining hall, recreation hall, beach, restroom and shower facilities, and archery range. Season dates for Camp Nesbit vary annually based on use and weather conditions, but generally range from mid-April through mid-October. Once public involvement is complete, these new fees will be reviewed by a Recreation Resource Advisory Committee prior to a final decision and implementation.

Dated: September 21, 2016.

David M. Birdsall,

Acting Forest Supervisor.
