required but a specific due date was not stated.

(2) Any Appendix submitted for Step 1 of the Challenge competition must be limited to 5 pages or less in length. If a longer Appendix is submitted, only the first 5 pages will be considered by the Technical Evaluation Panel and the Judging Panel. The September 8, 2016, announcement incorrectly stated that there was no page length for the Appendix material.

(3) Submissions for Step 1 of the Challenge competition received after the deadline of January 9, 2017, at 11:59 p.m. ET will be disqualified and not evaluated by the Technical Evaluation Panel or Judging Panel.

(4) Solvers may submit corrections or additional materials in support of their Step 1 submissions so long as the NIH receives the materials by the deadline of January 9, 2017, at 11:59 p.m. ET. Corrections or additional materials for Step 1 will not be accepted or evaluated by the Technical Evaluation Panel or Judging Panel if they are received after January 9, 2017 at 11:59 p.m. ET.

(5) The NIH will perform an initial review of all submissions to ensure they are complete and within the scope of the Challenge competition. Submissions that are incomplete will be administratively disqualified and will not be evaluated by the Technical Evaluation Panel or the Judging Panel.

(6) The NIH and Assistant Secretary for Preparedness and Response/ Biomedical Advanced Research and Development Authority may determine that based on the number of submissions received for Step 1 that less competitive submissions will not be discussed by the Technical Evaluation Panel during the panel’s meeting.

(7) The “Solver” needs to address the NIH Human Subjects Protections and Inclusion of Women, Children, and Minorities policies in their submissions for Step 1 of this competition.

(8) Members of the Technical Evaluation Panel are not eligible to participate in or contribute to any proposal for Step 2 and Step 3 of the Challenge competition.

(9) Any Solver is eligible for Step 2 of this Challenge competition. For example, if a Step 1 “Solver” is not identified as a semifinalist, he/she may still submit for Step 2 of this competition and those who did not submit a Step 1 proposal may still submit a proposal for Step 2.

(10) All submissions for Step 1, 2, and 3 must be in English.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Current List of HHS-Certified Laboratories and Instrumented Initial Testing Facilities Which Meet Minimum Standards To Engage in Urine Drug Testing for Federal Agencies

AGENCY: Substance Abuse and Mental Health Services Administration, HHS

ACTION: Notice.

SUMMARY: The Department of Health and Human Services (HHS) notifies federal agencies of the laboratories and Instrumented Initial Testing Facilities (IITF) currently certified to meet the standards of the Mandatory Guidelines for Federal Workplace Drug Testing Programs (Mandatory Guidelines). The Mandatory Guidelines were first published in the Federal Register on April 11, 1988 (53 FR 11970), and subsequently revised in the Federal Register on June 9, 1994 (59 FR 29908); September 30, 1997 (62 FR 51118); April 13, 2004 (69 FR 19644); November 25, 2008 (73 FR 71858); December 10, 2008 (73 FR 75122); and on April 30, 2010 (75 FR 22809).

A notice listing all currently HHS-certified laboratories and IITFs is published in the Federal Register during the first week of each month. If any laboratory or IITF certification is suspended or revoked, the laboratory or IITF will be omitted from subsequent lists until such time as it is restored to full certification under the Mandatory Guidelines.

If any laboratory or IITF has withdrawn from the HHS National Laboratory Certification Program (NLCP) during the past month, it will be listed at the end and will be omitted from the monthly listing thereafter.

This notice is also available on the Internet at http://www.samhsa.gov/workplace.

FOR FURTHER INFORMATION CONTACT:
Giselle Hersh, Division of Workplace Programs, SAMHSA/CSAP, 5600 Fishers Lane, Room 16N03A, Rockville, Maryland 20857; 240–276–2600 (voice).

SUPPLEMENTARY INFORMATION: The Mandatory Guidelines were initially developed in accordance with Executive Order 12564 and section 503 of Public Law 100–71. The “Mandatory Guidelines for Federal Workplace Drug Testing Programs,” as amended in the revisions listed above, requires strict standards that laboratories and IITFs must meet in order to conduct drug and
specimen validity tests on urine specimens for federal agencies.

To become certified, an applicant laboratory or IITF must undergo three rounds of performance testing plus an on-site inspection. To maintain that certification, a laboratory or IITF must participate in a quarterly performance testing program plus undergo periodic, on-site inspections.

Laboratories and IITFs in the applicant stage of certification are not to be considered as meeting the minimum requirements described in the HHS Mandatory Guidelines. A HHS-certified laboratory or IITF must have its letter of certification from HHS/SAMHSA (formerly: HHS/NIDA), which attests that it has met minimum standards.

In accordance with the Mandatory Guidelines dated November 25, 2008 (73 FR 71858), the following HHS-certified laboratories and IITFs meet the minimum standards to conduct drug and specimen validity tests on urine specimens:

* The Standards Council of Canada (SCC) voted to end its Laboratory Accreditation Program for Substance Abuse (LAPSA) effective May 12, 1998. Laboratories certified through that program were accredited to conduct forensic urine drug testing as required by U.S. Department of Transportation (DOT) regulations. As of that date, the certification of those accredited Canadian laboratories will continue under DOT authority. The responsibility for conducting quarterly performance testing plus periodic on-site inspections of those LAPSA-accredited laboratories was transferred to the U.S. HHS, with the HHS’ NLCP contractor continuing to have an active role in the performance testing and laboratory inspection processes. Other Canadian laboratories wishing to be considered for the NLCP may apply directly to the NLCP contractor just as U.S. laboratories do. Upon finding a Canadian laboratory to be qualified, HHS will recommend that DOT certify the laboratory (Federal Register, July 16, 1996) as meeting the minimum standards of the Mandatory Guidelines published in the Federal Register on April 30, 2010 (75 FR
22809). After receiving DOT certification, the laboratory will be included in the monthly list of HHS-certified laboratories and participate in the NLCP certification maintenance program.

U.S. Customs and Border Protection

Delay of Effective Date for the Automated Commercial Environment (ACE) Becoming the Sole CBP-Authorized Electronic Data Interchange (EDI) System for Processing Electronic Drawback and Duty Deferral Entry and Entry Summary Filings

ACTION: Delay of effective date.

SUMMARY: On August 30, 2016, U.S. Customs and Border Protection (CBP) published a notice in the Federal Register announcing plans to make the Automated Commercial Environment (ACE) the sole electronic data interchange (EDI) system authorized by the Commissioner of U.S. Customs and Border Protection (CBP) for processing electronic drawback and duty deferral entry and entry summary filings. The document also announced that, on October 1, 2016, the Automated Commercial System (ACS) would no longer be a CBP-authorized EDI system for purposes of processing these electronic filings. Finally, the notice announced a name change for the ACE filing code for duty deferral and the conversion from an ACS electronic drawback code to an ACE code for electronic drawback filings, replacing the six distinct drawback codes previously filed in ACS.

CBP has been assessing stakeholder readiness for the mandatory transition of post-release capabilities in ACE, including the transition of electronic drawback and duty deferral entry and entry summary filings from ACS to ACE. CBP has determined that industry partners need additional time to prepare for the transition to electronic post-release capabilities in ACE.

Accordingly, the effective date for all that was announced in the August 30, 2016 Federal Register notice, including the transition to ACE as the sole CBP-authorized EDI system for electronic drawback and duty deferral entry and entry summary filings, is delayed until further notice. CBP will publish a subsequent notice announcing the effective date.

Dated: September 28, 2016.

Kevin K. McAleenan, Deputy Commissioner, U.S. Customs and Border Protection.
