SUPPLEMENTARY INFORMATION: The National Science Foundation, as directed by the Antarctic Conservation Act of 1978 (Pub. L. 95-541), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for various activities in Antarctica and designation of certain animals and certain geographic areas a requiring special protection. The regulations establish such a permit system to designate Antarctic Specially Protected Areas.

Description of Permit Modification Requested: The Foundation issued a permit (ACA 2015-010) to Lockheed Martin Corporation (Lockheed Martin) on October 31, 2014. Under the issued permit, Lockheed Martin, as the contractor providing operational support for the United States Antarctic Program (USAP), is responsible for waste management activities for the USAP. On August 16, 2016, the contract for USAP

operational support transferred from Lockheed Martin to Leidos Innovations Group (Leidos), 7400 South Tucson Way, Centennial, CO 80112. This permit modification proposes to transfer the waste management permit (ACA 2015-010) from Lockheed Martin to Leidos, at their request, such that Leidos would become the new permit holder. All activities regulated under the permit and all other permit conditions remain the same.
