SUPPLEMENTARY INFORMATION:

Background

A federally inspected meat or poultry establishment is required to use labels that are in compliance with the Federal Meat Inspection Act (FMIA; 21 U.S.C. 601 *et seq.*, 607), the Poultry Products Inspection Act (PPIA; 21 U.S.C. 451 *et seq.*, 457), and the implementing regulations. Requirements include all mandatory labeling requirements as prescribed in Title 9 of the Code of Federal Regulations section 317.2 and 381 Subpart N.

All labels with special claims, including animal-raising claims, need to be submitted to FSIS prior to being used on the product under 9 CFR 412.1(c)(3). As with all labels with special claims, labels with animal-raising claims must be submitted to the Labeling and Program Delivery Staff, Office of Policy and Program Development in FSIS with specific documentation to support all such claims that appear on that label. Examples of animal-raising claims include, but are not limited to: "Raised

Without Antibiotics," "Organic," "Grass-Fed," "Free-Range," and "Raised without the use of hormones." For most animal-raising claims, the documentation typically needed to support these claims includes:

1. A detailed written description explaining the controls used for ensuring that the raising claim is valid from birth to harvest or the period of raising being referenced by the claim;

2. A signed and dated document describing how the animals are raised (*e.g.*, vegetarian-fed, raised without antibiotics, grass-fed), to support that the specific claim made is truthful and not misleading;

3. A written description of the product-tracing and segregation mechanism from time of slaughter or further processing through packaging and wholesale or retail distribution;

4. A written description for the identification, control, and segregation of non-conforming animals or products; and

5. If a third party certifies a claim, a current copy of the certificate.

FSIS previously issued a compliance guideline on animal-raising claims in 2002. The changes included in this version of the guideline include definitions for frequently used animal-raising claims, the detailed supporting documentation required for each specific claim that appears on the label, additional information regarding the claim *grass fed*, information required for duplicating raising claims from purchased product, and examples of labels bearing claims.

This guideline represents FSIS's current position and procedures for approving animal-raising claims, and although FSIS is requesting comments on this guideline and may update it in response to comments, FSIS encourages establishments that wish to submit request for approvals of animal raising claims on product labels to begin using this guideline.
