**ENVIRONMENTAL PROTECTION AGENCY**

**40 CFR Parts 52 and 70**

[EPA-R07-OAR-2016-0555; FRL-9953-59-Region 7]

**Approval of Nebraska’s Air Quality Implementation Plans; Nebraska Air Quality Regulations and State Operating Permit Programs**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Direct final rule.

**SUMMARY:** The Environmental Protection Agency (EPA) is taking direct final action to approve revisions to the State Implementation Plan (SIP) for the State of Nebraska. This action will amend the SIP to include revisions to title 129 of the Nebraska Air Quality Regulations, chapter 5, “Operating Permits—When Required”; chapter 9, “General Operating Permits for Class I and Class II Sources”; chapter 22, “Incinerators;

Emission Standards”; chapter 30, “Open Fires”; and chapter 34 “Emission Sources; Testing; Monitoring. These revisions were requested by the Nebraska Department of Environmental Quality (NDEQ) in three submittals, submitted on May 1, 2003, November 8, 2011, and July 14, 2014. The May 1, 2003, submittal revised chapters 5 and 9, to address changes in regard to the permits-by-rule provisions of Title 129. The November 8, 2011, submittal allows for the issuance of multiple operating permits to major sources through revisions to chapter 5. In addition, revisions to chapters 22 and 30 encourage the use of air curtain incinerators over open burning; and changes to chapter 34 clarify the authority of NDEQ to order emission sources to do testing when NDEQ deems it necessary. The July 14, 2014, submittal further revises chapter 34, by updating the reference to allowable test methods for evaluating solid waste, changing the amount of time allowed to submit test results, and allowing the Department to approve a request for testing with less than 30 days notification.

**DATES:** This direct final rule will be effective December 6, 2016, without further notice, unless EPA receives adverse comment by November 7, 2016.

If EPA receives adverse comment, we will publish a timely withdrawal of the direct final rule in the **Federal Register** informing the public that the rule will not take effect.

**ADDRESSES:** Submit your comments, identified by Docket ID No. EPA-R07-OAR-2016-0555, to <http://www.regulations.gov>. Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from *Regulations.gov*. EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.* on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit

<http://www2.epa.gov/dockets/commenting-epa-dockets>.

**FOR FURTHER INFORMATION CONTACT:** Greg Crable, Environmental Protection Agency, Air Planning and Development Branch, 11201 Renner Boulevard, Lenexa, Kansas 66219 at 913-551-7391, or by email at [crable.gregory@epa.gov](mailto:crable.gregory@epa.gov).

**SUPPLEMENTARY INFORMATION:**

Throughout this document “we,” “us,” and “our” refer to EPA. This section provides additional information by addressing the following:

- I. What is being addressed in this document?
- II. Have the requirements for approval of a SIP revision been met?
- III. What action is EPA taking?

**I. What is being addressed in this document?**

EPA is approving revisions into the SIP to include amendments to title 129 of the Nebraska Air Quality Regulations, chapters 5, 22, 30 and 34, as submitted on November 8, 2011. The EPA is also approving additional revisions to chapter 34, as submitted on July 14, 2014, and to chapters 5 and 9, as submitted on May 1, 2003. Revisions to chapter 5 allows for the issuance of multiple operating permits to major sources. The revisions to chapters 22 and 30 encourage the use of air curtain incinerators over open burning and the revisions to chapter 34 as submitted on November 8, 2011, clarify NDEQ’s authority to require emission sources to test for contaminant emissions. The revisions to chapter 34 requested in the July 14, 2014, submittal updates the reference to allowable test methods for evaluating solid waste; makes changes to the amount of time allowed to submit test results; and allows NDEQ to approve a request to test with less than 30 days notification.

The revisions to chapter 5 submitted on May 1, 2003, allows a source otherwise subject to the Class II operating permit program to be covered instead by the permits-by-rule provisions, provided the source qualifies. The May 1, 2003 submittal, also revised chapter 9 to allow a source covered for some activities under a general permit be covered for other facilities or activities by a permits-by-rule. Revisions to chapter 5 “Operating Permits—When Required”, submitted on November 8, 2011, clarifies the process for issuing operating permits to major sources comprised of different regulated entities or “persons”. The changes allow each regulated entity more options in applying for operating permits and NDEQ more flexibility in issuing the permits. The revisions to chapter 5 are worded such that sources

permitted under the changed language will not avoid other major source obligations. The revisions to chapter 22, “Incinerators; Emission Standards”, establish requirements regarding opacity for air curtain incinerators while revisions to chapter 30, “Open Fires”, allow burning in an air curtain incinerator with a general or community open fire permit issued by NDEQ. Title 129, chapter 34, “Emission Sources; Testing; Monitoring”, as submitted on November 8, 2011, is being revised to clarify NDEQ’s authority to order emission sources to make or have tests made to determine the rate of contaminant emissions from the source. The July 14, 2014, submittal further revises chapter 34, by updating the reference to allowable test methods for evaluating solid waste, changes the amount of time allowed to submit test results, and allows NDEQ to approve a request for testing with less than 30 days notification. For additional information on the revisions to chapter 5, 9, 22, 30 and 34 see the detail discussion table in the docket.

**II. Have the requirements for approval of a SIP revision been met?**

The state submittals have met the public notice requirements for SIP submissions in accordance with 40 CFR 51.102. The submittals also satisfied the completeness criteria of 40 CFR part 51, appendix V. In addition, the revision meets the substantive SIP requirements of the CAA, including section 110 and implementing regulations.

**III. What action is EPA taking?**

EPA is approving the state’s request to revise the SIP to include amendments to title 129, of the Nebraska Air Quality Regulations, chapter 5, “Operating Permits—When Required”; chapter 22, “Incinerators; Emission Standards”; chapter 30, “Open Fires”; and chapter 34, “Emission Sources; Testing; Monitoring”, as submitted by NDEQ on November 8, 2011. Also, EPA is approving NDEQ’s July 14, 2014, submittal involving additional revisions to chapter 34 and revisions to chapters 5 and 9, “General Operating Permits for Class I and II Sources”, as submitted on May 1, 2003.

We are publishing this direct final rule without a prior proposed rule because we view this as a noncontroversial action and anticipate no adverse comment. EPA does not anticipate adverse comment because the revisions to the existing rules are routine and consistent with the Federal regulations, thereby, strengthening the SIP. However, in the “Proposed Rules” section of this **Federal Register**, we are

publishing a separate document that will serve as the proposed rule to revise title 129 of the Nebraska Air Quality Regulations, chapter 5, “Operating Permits—When Required”; chapter 9, “General Operating Permits for Class I and II Sources”; chapter 22, “Incinerators; Emission Standards”; chapter 30, “Open Fires”; and chapter 34, “Emission Sources; Testing; Monitoring” if adverse comments are received on this direct final rule. We will not institute a second comment period on this action. Any parties interested in commenting must do so at this time. For further information about commenting on this rule, see the **ADDRESSES** section of this document. If EPA receives adverse comment, we will publish a timely withdrawal in the **Federal Register** informing the public that this direct final rule will not take effect. We will address all public comments in any subsequent final rule based on the proposed rule.

**Incorporation by Reference**

In this rule, EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, EPA is finalizing the incorporation by reference of the Nebraska regulations described in the direct final amendments to 40 CFR part 52 set forth below. Therefore, these materials have been approved by EPA for inclusion in the State implementation plan, have been incorporated by reference by EPA into that plan, are fully Federally enforceable under sections 110 and 113 of the CAA as of the effective date of the final rulemaking of EPA’s approval, and will be incorporated by reference by the Director of the Federal Register in the next update to the SIP compilation.<sup>1</sup> EPA has made, and will continue to make, these documents generally available electronically through [www.regulations.gov](http://www.regulations.gov) and at the appropriate EPA office (see the **ADDRESSES** section of this preamble for more information).

**Statutory and Executive Order Reviews**

Under the Clean Air Act (CAA), the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA’s role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements

<sup>1</sup> 62 FR 27968 (May 22, 1997).

beyond those imposed by state law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

The SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by December 6, 2016. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to

enforce its requirements. (See section 307(b)(2).)

**List of Subjects**

*40 CFR Part 52*

Environmental protection, Air pollution control, Carbon monoxide, Incorporation by reference, Intergovernmental relations, Lead, Nitrogen dioxide, Ozone, Particulate matter, Reporting and recordkeeping requirements, Sulfur dioxide, Volatile organic compounds.

*40 CFR Part 70*

Environmental protection, Administrative practice and procedure, Air pollution control, Intergovernmental relations, Operating permits, Reporting and recordkeeping requirements.

Dated: September 27, 2016.

**Mike Brincks,**

*Acting Regional Administrator, Region 7.*

For the reasons stated in the preamble, EPA amends 40 CFR parts 52 and 70 as set forth below:

**PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS**

- 1. The authority citation for part 52 continues to read as follows:

*Authority:* 42 U.S.C. 7401 *et seq.*

**Subpart CC—Nebraska**

- 2. Section 52.1420(c) is amended by revising the entries for 129–5, 129–9, 129–22, 129–30, and 129–34 to read as follows:

**§ 52.1420 Identification of Plan.**

\* \* \* \* \*  
(c) \* \* \*

**EPA-APPROVED NEBRASKA REGULATIONS**

**Connect America Fund, Connect America Fund—Alaska Plan, Universal Service Reform—Mobility Fund**

**AGENCY:** Federal Communications Commission.

**ACTION:** Final rule.

**SUMMARY:** In this document, the Federal Communications Commission (Commission) adopts an integrated plan to address both fixed and mobile voice and broadband service in high-cost areas of the state of Alaska, building on a proposal submitted by the Alaska Telephone Association.

**DATES:** Effective November 7, 2016, except for §§ 54.313(f)(1)(i), 54.313(f)(3), 54.313(l), 54.316(a)(1), 54.316(a)(5) and (6), 54.316(b)(6), 54.320(d), and 54.321 which contain new or modified information collection requirements that will not be effective until approved by the Office of Management and Budget. The Federal Communications Commission will publish a document in the **Federal Register** announcing the effective date for those sections.

**FOR FURTHER INFORMATION CONTACT:** Alexander Minard, Wireline Competition Bureau, (202) 418-7400 or TTY: (202) 418-0484, Matthew Warner of the Wireless Telecommunications Bureau, (202) 418-2419, or Audra Hale-Maddox of the Wireless Telecommunications Bureau, (202) 418-0794.

**SUPPLEMENTARY INFORMATION:** This is a summary of the Commission’s Report and Order in WC Docket Nos. 10-90, 16-271, WT Docket No. 10-208; FCC 16-115, adopted on August 23, 2016 and released on August 31, 2016. The full text of this document is available for public inspection during regular

business hours in the FCC Reference Center, Room CY-A257, 445 12th Street SW., Washington, DC 20554, or at the following Internet address: [https://apps.fcc.gov/edocs\\_public/attachmatch/FCC-16-115A1.docx](https://apps.fcc.gov/edocs_public/attachmatch/FCC-16-115A1.docx).

The Further Notice of Proposed Rulemaking (FNPRM) that was adopted concurrently with the Report and Order is published elsewhere in this issue of the **Federal Register**.

**I. Introduction**

1. In this Order, the Commission adopts an integrated plan to address both fixed and mobile voice and broadband service in high-cost areas of the state of Alaska, building on a proposal submitted by the Alaska Telephone Association. In February 2015, the Alaska Telephone Association (ATA) proposed a consensus plan designed to maintain, extend, and upgrade broadband service across all areas of Alaska served by rate-of-return carriers and their wireless affiliates. Given the unique climate and geographic conditions of Alaska, the Commission finds that it is in the public interest to provide Alaskan carriers with the option of receiving fixed amounts of support over the next ten years to deploy and maintain their fixed and mobile networks. If each of the Alaska carriers elects this option, the Commission expects this plan to bring broadband to as many as 111,302 fixed locations and 133,788 mobile consumers at the end of this 10-year term.

**II. Alaska Plan for Rate-of-Return Carriers**

2. Today the Commission adopts ATA’s proposed consensus plan for rate-of-return carriers serving Alaska, subject to the minor modifications described herein. Alaskan rate-of-return carriers face unique circumstances including Alaska’s large size, varied terrain, harsh climate, isolated populations, shortened construction
