Virginia in the lawsuit entitled *United States, et al. v. Southern Coal Corporation, et al.*, Civil Action No. 7:16-cv-00462-GEC.

The United States' Complaint (which was joined by Alabama, Kentucky, Tennessee, and Virginia) alleges, *inter alia*, that Southern Coal Corporation and twenty-six other related companies violated the Clean Water Act by failing to comply with effluent limitations in their permits, failing to report results for all the required sampling data, failing to submit complete data in quarterly discharge monitoring reports, and failing to submit quarterly discharge monitoring reports.

The principal elements of the injunctive relief in the decree include an Environmental Management System; audits of mining operations, outfalls and treatment systems; a violation response procedure; a new compliance tracking database; training for its employees and contractors; and the establishment and maintenance of a publicly available Web site or portal that provides permit and violation information to the general public. Defendants must also establish a \$4.5 million letter of credit and a standby trust that will guarantee funding for, and a mechanism to accomplish, compliance with the Clean Water Act and the work required by the settlement, should the companies fail to do so. Finally, Defendants must pay a civil penalty of \$900,000.
