

MMPA for the construction and operation of the Neptune LNG Port facility. For the subject IHA, NMFS reviewed the FEIS to ensure that the analysis contained in that document accurately describes and analyzes the impacts to the human environment of NMFS' action of issuing an MMPA authorization for the maintenance, repair, and decommissioning of the Neptune Port. NMFS has determined that the FEIS sufficiently covers the activities considered in the subject IHA. NMFS issued an amended Record of Decision for issuance of authorizations pursuant to sections 101(a)(5)(D) of the MMPA specific to maintenance, repair, and decommissioning.

Authorization

NMFS has issued an IHA to Neptune for the potential harassment of small numbers of 14 marine mammal species incidental to maintenance, repair, and decommissioning of their Port in [Massachusetts Bay], which includes required mitigation, monitoring and reporting measures.
