SUPPLEMENTARY INFORMATION:

I. Background

MCSAC

Section 4144 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU, Pub. L. 109-59, 119 Stat. 1144, August 10, 2005) required the Secretary of Transportation to establish the MCSAC. The Moving Ahead for Progress in the 21st Century Act (MAP-21, Pub. L. 112-141) reauthorized the MCSAC through September 30, 2013, at which time its statutory authority expired, necessitating the establishment of MCSAC as a discretionary committee under FACA. Secretary Foxx established that effective September 30, 2013, through September 30, 2015. MCSAC provides advice and recommendations to the FMCSA Administrator on motor carrier safety programs and regulations, and operates in accordance with the Federal Advisory Committee Act (FACA, 5 U.S.C. App 2).

The MCSAC began considering Task 16-1, Review of Regulatory Guidance, at its June 2016 meeting to provide recommendations to the Agency concerning implementation of section 5203 of the FAST Act to: (1) Prioritize regulatory guidance that should be incorporated into the safety regulations to promote clear, consistent, and enforceable rules; (2) identify regulatory guidance that appears to be inconsistent with the intent of the safety regulations or makes enforcement of key safety requirements difficult; and (3) identify guidance that should remain in place.

Additionally, the MCSAC and MRB began considering Joint Task 15-3, on Driver Health and Wellness, at its joint meeting in September 2015. The task is to provide recommendations to the Agency on the structure, content, and methods for determining the effectiveness of a public-private partnership to promote commercial motor vehicle (CMV) driver wellness. To reach that goal, the MCSAC and MRB chairmen appointed a joint subcommittee that included members of both advisory committees and stakeholders.

MRB

Section 4116 of SAFETEA-LU requires the Secretary of Transportation, with the advice of the MRB and the chief medical examiner, to establish, review, and revise "medical standards for operators of commercial motor vehicles that will ensure that the physical condition of operators of commercial motor vehicles is adequate to enable them to operate the vehicles safely." The MRB operates in accordance with FACA under the terms of its charter, filed November 25, 2013.

At its meeting in August 2016, the MRB began consideration of Task 16-1, which is to provide recommendations to the Agency on the disposition of comments from medical professionals and associations to the Agency's and the Federal Railroad Administration's (FRA) Advance Notice of Proposed Rulemaking (ANPRM) on safety-sensitive rail and commercial motor vehicle (CMV) drivers with moderate to severe Obstructive Sleep Apnea (OSA).

II. Meeting Participation

Oral comments from the public will be heard throughout the meeting, at the discretion of the MCSAC and MRB chairmen. Members of the public may submit written comments on the topics to be considered during the meeting by Wednesday, October 19, to Federal Docket Management System (FDMC) Docket Number FMCSA-2008-0362 for the MRB and FMCSA-2006-26367 for the MCSAC using any of the following methods:

I. Background

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption for two years if it finds "such exemption would likely achieve a level of safety that is equivalent to or greater than the level that would be achieved absent such exemption." The statute also allows the Agency to renew exemptions at the end of the two-year period.

The physical qualification standard for drivers regarding epilepsy found in 49 CFR 391.41(b)(8) states that a person is physically qualified to drive a CMV if that person:

Has no established medical history or clinical diagnosis of epilepsy or any other condition which is likely to cause the loss of consciousness or any loss of ability to control a CMV.

In addition to the regulations, FMCSA has published advisory criteria to assist Medical Examiners in determining whether drivers with certain medical conditions are qualified to operate a CMV in interstate commerce. [49 CFR part 391, APPENDIX A TO PART 391—
