AGENCY: Rural Utilities Service, USDA.

ACTION: Final rule.

SUMMARY: The Rural Utilities Service (RUS), an agency of the United States Department of Agriculture (USDA), hereinafter referred to as RUS or the Agency, is issuing a final rule to streamline the contractual process for equipment procurement by replacing type-specific equipment contracts, RUS Forms 397, 398, 525, 545, and associated documents (Forms 231, 396, 396a, 517, 525a, 744, 752a, 754, and addenda) with a new, unified Equipment Contract, RUS Contract Form 395 and associated close-out documents (Forms 395a, 395b, 395c and 395d) and by removing construction standards RUS Forms 397b, 397c, 397d, 397f, 397g, 397h. On October 1, 2015, RUS published a Request for Comments in the **Federal Register**, to establish a new equipment contract and associated policies for Telecommunications and Broadband Borrowers, Equipment Contract, RUS Contract Form 395 (RUS Contract Form 395).

DATES: This final rule is effective October 18, 2016.

This final rule has been determined to be not significant for the purposes of Executive Order 12866, Regulatory Planning and Review, and therefore has not been reviewed by the Office of Management and Budget (OMB).

Executive Order 12988

This final rule has been reviewed under Executive Order 12988, Civil Justice Reform. The Agency has determined that this rule meets the applicable standards provided in section 3 of the Executive Order. In addition, all state and local laws and regulations that are in conflict with this rule will be preempted. No retroactive effect will be given to this rule and, in accordance with section 212(e) of the Department of Agriculture Reorganization Act of 1994 (7 U.S.C. 6912(e)), administrative appeal procedures must be exhausted before an action against the Department or its agencies may be initiated.

Executive Order 12372

This final rule is not subject to the requirements of Executive Order 12372, "Intergovernmental Review", as implemented under USDA's regulations at 7 CFR part 3015.

Regulatory Flexibility Act Certification

RUS has determined that this final rule will not have a significant economic impact on a substantial number of small entities, as defined in the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). RUS provides loans to borrowers at interest rates and on terms that are more favorable than those generally available from the private sector. RUS borrowers, as a result of obtaining federal financing, receive economic benefits that exceed any direct economic costs associated with complying with RUS regulations and requirements.

Environmental Impact Statement

This final rule has been examined under Agency environmental regulations at 7 CFR part 1794. The Administrator has determined that this is not a major Federal action significantly affecting the environment. Therefore, in accordance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an

Environmental Impact Statement or Assessment is not required.

Catalog of Federal Domestic Assistance

The Catalog of Federal Domestic Assistance (CFDA) number assigned to this program is 10.851. The Catalog is available on the Internet at <http://www.cfda.gov>.

Unfunded Mandates

This final rule contains no Federal mandates (under the regulatory provisions of Title II of the Unfunded Mandates Reform Act of 1995) for State, local, and tribal governments or the private sector. Therefore, this rule is not subject to the requirements of sections 202 and 205 of the Unfunded Mandates Reform Act of 1995.

E-Government Act Compliance

RUS is committed to the E-Government Act, which requires Government agencies in general to provide the public the option of submitting information or transacting business electronically to the maximum extent possible.

Executive Order 13132, Federalism

The policies contained in this final rule do not have any substantial direct effect on states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government. Nor does this final rule impose substantial direct compliance costs on state and local governments. Therefore, consultation with the states is not required.

Executive Order 13175, Consultation and Coordination With Indian Tribal Governments

Executive Order 13175 imposes requirements on RUS in the development of regulatory policies that have tribal implications or preempt tribal laws. RUS has determined that this rule does not have a substantial direct effect on one or more Indian tribes(s) or on either the relationship or the distribution of powers and responsibilities between the Federal Government and Indian tribes. Thus, this final rule is not subject to the requirements of Executive Order 13175. If a tribe determines that this final rule has implications of which RUS is not aware and would like to engage in consultation with RUS on this rule,

Background

Rural Development is a mission area within the U.S. Department of Agriculture comprising the Rural Utilities Service, Rural Housing Service and Rural Business/Cooperative Service. Rural Development's mission is to increase economic opportunity and improve the quality of life for all rural Americans. Rural Development meets its mission by providing loans, loan guarantees, grants and technical assistance through more than 40 programs aimed at creating and improving housing, businesses and infrastructure throughout rural America.

The Rural Utilities Service (RUS) loan, loan guarantee and grant programs act as a catalyst for economic and community development. By financing improvements to rural electric, water and waste, and telecom and broadband infrastructure, RUS also plays a significant role in improving other measures of quality of life in rural America, including public health and safety, environmental protection, conservation and cultural and historic preservation.

In order to continue to facilitate the programmatic interest of the Rural Electrification Act of 1936 (the "RE Act"), as amended (7 U.S.C. 901 *et seq.*), that loans and loans guaranteed by RUS are adequately secured, RUS has established the use of certain standardized forms for materials, equipment, and construction of electric and telecommunications systems. The use of standard forms, construction contracts, and procurement procedures help to assure that appropriate standards and specifications are maintained by the borrower in order to not adversely affect RUS's loan security, and ensure that loan and loan guarantee funds are effectively used for the intended purpose(s).

RUS may, from time to time, promulgate new contract forms or revise or eliminate existing contract forms. In so doing, RUS is required by 7 CFR 1755.29, to publish a notice of rulemaking in the **Federal Register** announcing, as appropriate, a revision in, or a proposal to amend § 1755.30(c), *List of telecommunications standard contract forms*. On February 12, 2014, RUS published a proposed rule in the **Federal Register** (79 FR 8327) to establish a new equipment contract and associated policies for Telecommunications and Broadband Borrowers, Equipment Contract, RUS Contract Form 395 (RUS Contract Form 395) under 7 CFR parts 1753 and 1755. RUS Contract Form 395 reflects present business and RUS practices, as well as

changes in technology, services and equipment. The Agency also issued a Request for Comments notice which published in the **Federal Register** on Thursday, October 1, 2015 at 80 FR 59080, providing the public with an additional opportunity for public comment. Comments were received by the Agency which are summarized and addressed in the Comments Section of this final rule.

In response to changes in competition, legislation, technologies, and regulation which have resulted in changes to business practices in the telecommunications industry, RUS has undertaken a comprehensive review of its Telecommunications and Broadband Programs' contracts and contracting procedures. The purpose of this undertaking is to streamline the contractual process for equipment procurement and improve the customer service provided to the RUS rural telecommunications and broadband borrowers.

Under this rulemaking, the new equipment contract RUS Contract Form 395 and the associated close-out documents (Forms 395a, 395b, 395c and 395d) *replace* the current equipment specific contracts, RUS Forms 397, 398, 525, 545, and the associated close-out documents (Forms 231, 396, 396a, 517, 744, 752, 752a, and 754). Furthermore, along with the elimination of the RUS Form 397, the associated construction standards RUS Forms 397b, 397c, 397d, 397f, 397g, 397h have also been eliminated. The contract terms and obligations included in the new RUS Contract Form 395 reflect current RUS and private sector industry practices, as well as changes in technology, services and equipment. This final rule also removes references to Informational Publication (I.P.) 344-2, "List of Material Acceptable for Use on Telecommunications Systems of RUS Borrowers" (List of Materials) from the Telecommunications Program regulations. The maintenance and use of this list was discontinued by memorandum from the Agency Administrator dated May 23, 2011. Instead, in order to protect RUS's loan security and compliance with continuing Buy America statutory mandates, the Agency has incorporated an approach into the review of individual projects and the approval of loan advances for this purpose. Traditional telecommunications borrowers and broadband borrowers will both benefit from use of the new RUS Contract Form 395 contract as it reflects many of the changes the telecommunications industry has experienced as it has technologically

transitioned from narrowband to broadband. The new RUS Contract Form 395 can assist RUS borrowers with the purchase of equipment specifically designed to meet or exceed the requirements of either narrowband or broadband systems.

Comments

On February 12, 2014, RUS published a proposed rule in the **Federal Register** (79 FR 8327) to establish a new equipment contract and associated policies for Telecommunications and Broadband Borrowers, Equipment Contract, RUS Contract Form 395 (RUS Contract Form 395) under 7 CFR parts 1753 and 1755. The Agency also issued a Request for Comments notice in the **Federal Register** on Thursday, October 1, 2015 at 80 FR 59080, providing the public with an additional opportunity for public comment. Comments were received by the Agency which are summarized and addressed in this section of the final rule.

Comments specifically concerning the new contract were submitted by Osmose Communications Services, LLC and by ACE, The Association of Communications Engineers. Two (2) comments were submitted on behalf of Osmose Communications Services, LLC and twenty-four (24) comments on behalf of ACE. Additionally, the Bloom Corporation submitted general comments non-related to the RUS Contract Form 395.

Osmose Communications Services, LLC

Issue 1: The two (2) comments submitted on behalf of Osmose Communications Services, LLC concerned the provisions of the contract form to accommodate a buyer's request for partial or staged delivery of equipment covered under the contract.

RUS Response: As written, the RUS Contract Form 395 already supports agreements for staged delivery by appropriately filling in the agreed to information in the table that comprises Schedule 1. Due to the fact that Schedule 1 is part of the contract, the delivery schedule is acknowledged by both parties of the contract by the signatures of offer and acceptance.

Association of Communications Engineers (ACE)

Issue 1: Twenty-two (22) comments submitted on behalf of ACE were editorial in nature, providing typographical correction, consistency with other RUS contracts, and/or section clarity.

RUS Response: RUS accepts these suggestions and has incorporated those suggestions into the document.

Issue 2: ACE referenced the notice published in the **Federal Register** on October 1, 2015, that RUS technical specifications 397b, 397c, 397d, 397g, and 397h are not being replaced as stated in the notice.

RUS Response: RUS agrees. The Final Rule will state that these documents are being eliminated rather than replaced.

Issue 3: ACE commented that they support RUS' inclusion of sales and use tax in Schedule 2 of RUS Contract Form 395.

RUS Response: RUS acknowledges the comment.

Bloom Corporation

Comments *not* specifically related to the new Equipment Contract, Form 395 were submitted on behalf of the Bloom Corporation, Bellevue, WA. In summary, the comment stated that as presently written, the revised regulations do not adequately ensure equipment purchased using program funds are in compliance with the "Buy American" Requirement of the Rural Electrification Act of 1936, as amended. The comments are summarized below with the Agency's responses as follows:

Issue 1: Commenter states that only a manufacturer can certify Buy American compliance. Proposed regulations allow RUS Form No. 213 (Buy American) to be signed by a "Contractor", "Subcontractor", "Seller" or "Material Supplier".

RUS Response: The RUS Contract Form 395 does not include changes to Form 213 or its associated policy. The purpose of this rulemaking is to streamline the contractual process for the RUS Borrower and expedite the approval process of equipment during the duration of the project. Addressing changes to Buy American regulations or the procedure for certification is not within the scope of this rulemaking.

Issue 2: Commenter states that only RUS can confirm that a Buy American Certification is adequate and in line with statutory requirements. Proposed regulations abdicate this oversight function to a "Contractor", "Subcontractor", "Seller" or "Material Supplier". RUS can rely on borrowers and their engineers to ascertain conformance with relevant standards but not the Buy American Act requirement.

RUS Response: The RUS Contract Form 395 does not include changes to Form 213 or its associated policy. The purpose of this rulemaking is to streamline the contractual process for the RUS Borrower and expedite the approval process of equipment during the duration of the project. Changes to Buy American regulations or the

procedure for certification is not within the scope of this rulemaking.

Issue 3: Commenter states that if RUS never possesses the signed Buy American Certification, their role is not one of oversight, but is reduced to one of administration only. The proposed regulations do not require borrowers to submit the Buy American Certification paperwork they assembled to RUS. Without that paperwork, RUS is entrusting borrowers to enforce the statutory Buy American requirement in a way the Commenter believes they are not permitted.

RUS Response: The procedure specifies the requirement that the certification be maintained and presented to RUS if and when requested.

Issue 4: Commenter states that retiring the Information Publication (I.P.) 344-2, "List of Material acceptable for Use on Telecommunications Systems of RUS Borrowers" reference tool, while still requiring that equipment be in compliance with the Buy American Act, will create an exponential increase in work for borrowers and engineers as they are left to their own devices to determine Buy American compliance, a function the RUS List of Materials once performed. The proposed regulations intentionally or not will require every borrower, for every project, for every component to ascertain Buy American compliance by their own means. And in turn every manufacturer will have to address every inquiry, for every component, from every borrower on a case-by-case basis. The RUS List of Materials was created to avoid this exact scenario.

RUS Response: In an open letter from the Rural Utilities Service (RUS) Administrator on May 23, 2011, it was announced that RUS would no longer accept applications for equipment to be added to the List of Materials for Telecommunications and immediately ceased publication of the List of Materials for Telecommunications. To protect the Agency's loan security and compliance with continuing Buy America statutory mandates, RUS transitioned from a listing process to an approach which ensures that construction financed by RUS meets applicable industry standards. This approach has been incorporated into the Agency's review of individual projects and the approval of loan advances. The purpose of this rulemaking is to streamline the contractual process for the RUS Borrower and expedite the approval process of equipment during the duration of the project and not to reinstate the listing process.

Issue 5: Commenter states that RUS should create and maintain a Buy American Registry listing of all the equipment for which RUS themselves have collected documented proof are compliant with the Buy American Act. Such a list will resolve most if not all of the issues I raise.

RUS Response: The discontinuance of the RUS List of Material, under which the Buy American registry would be maintained, was announced by the RUS Administrator in an open letter on May 23, 2011. The purpose of this rulemaking is to streamline the contractual process for the RUS Borrower and expedite the approval process of equipment during the duration of the project and not to reinstate a listing process.
