

(h) Compliance Times for the Requirements of Paragraph (g) of This AD

Do the actions required by paragraph (g) of this AD at the earliest of the times specified in paragraphs (h)(1), (h)(2), and (h)(3) of this AD, or within 30 days after the effective date of this AD, whichever occurs later.

(1) Before the accumulation of 5,000 total flight hours after the date of manufacture of the airplane.

(2) Before the accumulation of 7,500 total flight hours after the date of manufacture of the airplane.

(3) Within 30 months after the date of manufacture of the airplane.

(i) Exclusion From Actions Required by Paragraph (g) of This AD

An airplane that does not have a manufacturer serial number specified in figure 1 to paragraphs (g) and (i) of this AD is excluded from the requirements of paragraph (g) of this AD, provided that, a FVP having P/N 786073-1-0 with a serial number specified in figure 2 to paragraphs (g) and (i) of this AD has not been installed on that airplane after July 2012. If a FVP having P/N 786073-1-0 with a serial number specified in figure 2 to paragraphs (g) and (i) of this AD is installed, or the serial number cannot be identified: Within 12 months after the effective date of this AD, replace the FVP with a serviceable part, in accordance with the Accomplishment Instructions of Airbus Service Bulletin A320-28-1221, Revision 02, dated January 11, 2016. A review of airplane maintenance records is acceptable if it can be conclusively determined from that review that a FVP having a serial number specified in figure 2 to paragraphs (g) and (i) of this AD has not been installed on that airplane after July 2012.

(j) Parts Installation Limitation

As of the effective date of this AD, a FVP having P/N 786073-1-0 and a serial number listed in figure 2 to paragraphs (g) and (i) of this AD may be installed on any airplane, provided the FVP is marked with "Amdt B."

(k) Other FAA AD Provisions

The following provisions also apply to this AD:

(1) *Alternative Methods of Compliance (AMOCs)*: The Manager, International Branch, ANM-116, Transport Airplane Directorate, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. If sending information directly to the International Branch, send it to ATTN: Sanjay Ralhan, Aerospace Engineer, International Branch, ANM-116, Transport Airplane Directorate, FAA, 1601 Lind Avenue SW., Renton, WA 98057-3356; telephone 425-227-1405; fax 425-227-1149. Information may be emailed to: 9-ANM-116-AMOC-REQUESTS@faa.gov. Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the local flight standards district office/certificate holding district office.

(2) *Contacting the Manufacturer*: For any requirement in this AD to obtain corrective actions from a manufacturer, the action must be accomplished using a method approved by the Manager, International Branch, ANM-116, Transport Airplane Directorate, FAA; or the European Aviation Safety Agency (EASA); or Airbus's EASA Design Organization Approval (DOA). If approved by the DOA, the approval must include the DOA-authorized signature.

(3) *Required for Compliance (RC)*: If any service information contains procedures or tests that are identified as RC, those procedures and tests must be done to comply with this AD; any procedures or tests that are not identified as RC are recommended. Those procedures and tests that are not identified as RC may be deviated from using accepted methods in accordance with the operator's maintenance or inspection program without obtaining approval of an AMOC, provided the procedures and tests identified as RC can be done and the airplane can be put back in an airworthy condition. Any substitutions or changes to procedures or tests identified as RC require approval of an AMOC.

SUPPLEMENTARY INFORMATION:**Background**

The temporary regulations in the Rules and Regulations section of this issue of the **Federal Register** contain rules under sections 385 and 752 of the Internal Revenue Code (Code) that establish requirements that ordinarily must be satisfied in order for certain related-party interests in a corporation to be treated as indebtedness for federal tax purposes. The text of the temporary regulations also serves as the text of the proposed regulations herein. The preamble to the temporary regulations explains the temporary regulations and the corresponding proposed regulations.

Special Analyses

I. Regulatory Planning and Review

Executive Orders 13563 and 12866 direct agencies to assess costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). Executive Order 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. Related rules in the final and temporary regulations under section 385 in TD 9790, published in the Rules and Regulations section of this issue of the **Federal Register**, have been designated a “significant regulatory action” under section 3(f) of Executive Order 12866. For a discussion of the economic impact of those final and temporary regulations, as well as these proposed regulations, please see the Regulatory Assessment accompanying TD 9790, published in the Rules and Regulations section of this issue of the **Federal Register**.

II. Regulatory Flexibility Act

Pursuant to the Regulatory Flexibility Act (5 U.S.C. Chapter 6), it is hereby certified that the final and temporary regulations in TD 9790, published in the Rules and Regulations section of this issue of the **Federal Register**, and accordingly, these proposed regulations proposed by cross-reference to the temporary regulations, will not have a significant economic impact on a substantial number of small entities. Accordingly, a regulatory flexibility analysis is not required.

To facilitate the federal tax analysis of an interest in a corporation, taxpayers are required under existing law to substantiate their classification of an interest as stock or indebtedness for federal tax purposes. Section 1.385-3 provides that certain interests in a corporation that are held by a member of the corporation’s expanded group and that otherwise would be treated as indebtedness for federal tax purposes are treated as stock. Section 1.385-3T provides that for certain debt instruments issued by a controlled partnership, the holder is deemed to transfer all or a portion of the debt instrument to the partner or partners in the partnership in exchange for stock in the partner or partners. Section 1.385-4T provides rules regarding the application of §§ 1.385-3 and 1.385-3T to members of a consolidated group. Sections 1.385-3 and 1.385-3T include

multiple exceptions that limit their application. In particular, the threshold exception provides that the first \$50 million of expanded group debt instruments that otherwise would be reclassified as stock or deemed to be transferred to a partner in a controlled partnership under § 1.385-3 or § 1.385-3T will not be reclassified or deemed transferred under § 1.385-3 or § 1.385-3T. Although it is possible that the classification rules in §§ 1.385-3, 1.385-3T, and 1.385-4T could have an effect on small entities, the threshold exception of the first \$50 million of debt instruments otherwise subject to recharacterization or deemed transfer under §§ 1.385-3, 1.385-3T, and 1.385-4T makes it unlikely that a substantial number of small entities will be affected by §§ 1.385-3T or 1.385-4T.

Pursuant to section 7805(f) of the Code, the final regulations in TD 9790, published in the Rules and Regulations section of this issue of the **Federal Register**, have been submitted to the Chief Counsel for Advocacy of the Small Business Administration for comment on their impact on small business. Comments were received requesting that the monetary thresholds contained in proposed §§ 1.385-2, 1.385-3, and 1.385-4 be increased in order to mitigate the impact on small businesses. These comments are addressed in Parts IV.B.1.d and V.E.4 of the Summary of Comments and Explanation of Revisions in the preamble of TD 9790, published in the Rules and Regulations section of this issue of the **Federal Register**. No comments were received concerning the economic impact on small entities from the Small Business Administration.

Comments and Requests for Public Hearing

Before these proposed regulations are adopted as final regulations, consideration will be given to any comments that are submitted timely to the IRS as prescribed in this preamble under the “Addresses” heading. Treasury and the IRS request comments on all aspects of the proposed rules. All comments will be available at www.regulations.gov or upon request. A public hearing will be scheduled if requested in writing by any person that timely submits electronic or written comments. If a public hearing is scheduled, notice of the date, time, and place for the public hearing will be published in the **Federal Register**.

Drafting Information

The principal authors of these regulations are Austin M. Diamond-Jones of the Office of Associate Chief Counsel (Corporate) and Joshua G.

Rabon of the Office of Associate Chief Counsel (International). However, other personnel from the Treasury Department and the IRS participated in their development.

II. Background, Purpose, and Legal Basis

On September 22, 2016, Western Display Fireworks, Ltd., notified the Coast Guard that it will be conducting a fireworks display from 7 p.m. to 7:30 p.m. on November 13, 2016, for a celebration of life of recently deceased Donald W. Gardner. The fireworks are to be launched from a barge in the Willamette River between the Burnside and Steel Bridges. Hazards from firework displays include accidental discharge of fireworks, dangerous projectiles, and falling hot embers or other debris. The Captain of the Port Sector Columbia River (COTP) has determined that potential hazards associated with the fireworks to be used in this display would be a safety concern for anyone within a 450-yard radius of the barge.
