[Docket No. CP15-138-000]

**Transcontinental Gas Pipe Line Company, LLC; Notice of Revised Schedule for Environmental Review of the Atlantic Sunrise Project**

This notice identifies the Federal Energy Regulatory Commission (FERC or Commission) staff's revised schedule for the completion of the environmental impact statement (EIS) for Transcontinental Gas Pipe Line Company, LLC's (Transco) Atlantic Sunrise Project. The first notice of schedule, issued on March 9, 2016, identified October 21, 2016 as the EIS issuance date. Based on additional information filed by Transco, however, we intend to issue a draft General Conformity Determination for the Atlantic Sunrise Project with a 30-day comment period. Commission staff has therefore revised the schedule for issuance of the final EIS.

**Schedule for Environmental Review**

Issuance of Notice of Availability of the final EIS—December 30, 2016.

90-day Federal Authorization Decision Deadline—March 30, 2017.

If a schedule change becomes necessary, an additional notice will be provided so that the relevant agencies are kept informed of the project's progress.

**Additional Information**

In order to receive notification of the issuance of the EIS and to keep track of all formal issuances and submittals in specific dockets, the Commission offers

a free service called eSubscription (<https://www.ferc.gov/docs-filing/esubscription.asp>).

<sup>4</sup> For purposes of these charts, generation owner is abbreviated to GO, transmission owner is abbreviated to TO, reliability coordinator is abbreviated to RC, and planning coordinator is abbreviated to PC.

<sup>5</sup> We estimate that an entity will experience a unit failure greater than 90 days once every five years. Therefore, 20 percent of NPCC's 169 generator owners and transmission owners will experience a unit failure of this duration each year.
