AGENCY: National Telecommunications and Information Administration, U.S. Department of Commerce.

ACTION: Notice of open meeting.

SUMMARY: The National Telecommunications and Information Administration (NTIA) will convene a meeting of a multistakeholder process concerning the collaboration between security researchers and software and system developers and owners to address security vulnerability disclosure on November 7, 2016.

DATES: The meeting will be held on November 7, 2016, from 12:00 p.m. to 4:00 p.m., Eastern Time. See **SUPPLEMENTARY INFORMATION** for details.

ADDRESSES: The meeting will be held at the American Institute of Architects, 1735 New York Ave. NW., Washington, DC 20006.

SUPPLEMENTARY INFORMATION:

Background: On March 19, 2015, the National Telecommunications and Information Administration, working with the Department of Commerce's Internet Policy Task Force (IPTF), issued a Request for Comment to "identify substantive cybersecurity

issues that affect the digital ecosystem and digital economic growth where broad consensus, coordinated action, and the development of best practices could substantially improve security for organizations and consumers."¹ This Request built on earlier work from the Department, including the 2011 Green Paper *Cybersecurity, Innovation, and the Internet Economy*,² as well as comments the Department had received on related issues.³ On July 9, 2015, after reviewing the comments, NTIA announced that the first issue to be addressed would be "collaboration on vulnerability research disclosure,"⁴ and subsequently announced that the first meeting of a multistakeholder process on this topic would be held on September 29, 2015, and subsequent meetings were convened on December 2, 2015, and April 8, 2016.⁵

Matters To Be Considered: The November 7, 2016 meeting is a continuation of a series of NTIA-convened multistakeholder discussions concerning collaboration on vulnerability disclosure. Stakeholders will engage in an open, transparent, consensus-driven process to develop voluntary principles guiding the collaboration between vendors and researchers about vulnerability information. Stakeholders will review the work of the ongoing working groups, and identify strategies for maximizing the impact of stakeholder outputs. More information about stakeholders' work is available at: <http://www.ntia.doc.gov/other-publication/2015/multistakeholder-process-cybersecurity-vulnerabilities>.

Time and Date: NTIA will convene a meeting of the multistakeholder process to promote collaboration on

vulnerability research disclosure on November 7, 2016, from 12:00 p.m. to 4:00 p.m., Eastern Time. The meeting date and time are subject to change. Please refer to NTIA's Web site, <http://www.ntia.doc.gov/other-publication/2015/multistakeholder-process-cybersecurity-vulnerabilities>, for the most current information.
