Burden Hours: 207,065 burden hours.

Cost Burden: $35,734,150.00.

Needs and Uses: This collection of information encompasses the action an applicant must take to submit an issue fee payment to the USPTO. The USPTO is required by 35 U.S.C. 131 and 151 to examine applications and, when appropriate, allow applications and issue them as patents. When an application for a patent is allowed by the USPTO, the USPTO issues a notice of allowance and the applicant must pay the specified issue fee (including the publication fee, if applicable) within three months to avoid abandonment of the application. If the appropriate fees are paid within the proper time period, the USPTO can then issue the patent. If the fees are not paid within the designated time period, the application is abandoned. The rules outlining the procedures for payment of the issue fee and issuance of a patent are found at 37 CFR 1.18 and 1.311–1.317.

This collection of information also encompasses several actions that may be taken after issuance of a patent. A certificate of correction may be requested to correct an error or errors in the patent. If the USPTO determines that the request should be approved, the USPTO will issue a certificate of correction. For an original patent that is believed to be wholly or partly inoperative or invalid, the assignee(s) or inventor(s) may apply for reissue of the patent, which entails several formal requirements, including provision of an oath or declaration specifically identifying at least one error being relied upon as the basis for reissue and stating the reason for the belief that the original patent is wholly or partially inoperative or invalid. The rules outlining these procedures are found at 37 CFR 1.171–1.178 and 1.322–1.325.

Frequency: On occasion.

Respondent’s Obligation: Required to Obtain or Retain Benefits.
