SUPPLEMENTARY INFORMATION:

Background: On March 19, 2015, the National Telecommunications and Information Administration, working with the Department of Commerce’s Internet Policy Task Force (IPTF), issued a Request for Comment to “identify substantive cybersecurity issues that affect the digital ecosystem and digital economic growth where broad consensus, coordinated action, and the development of best practices could substantially improve security for organizations and consumers.” ¹ This Request built on earlier work from the Department, including the 2011 Green Paper Cybersecurity, Innovation, and the Internet Economy,² as well as comments the Department had received on related issues.³ On July 9, 2015, after reviewing the comments, NTIA announced that the first issue to be addressed would be “collaboration on vulnerability research disclosure,” ⁴ and subsequently announced that the first meeting of a multistakeholder process on this topic would be held on September 29, 2015, and subsequent meetings were convened on December 2, 2015, and April 8, 2016.⁵ Matters To Be Considered: The November 7, 2016 meeting is a continuation of a series of NTIA-convened multistakeholder discussions concerning collaboration on vulnerability disclosure. Stakeholders will engage in an open, transparent, consensus-driven process to develop voluntary principles guiding the collaboration between vendors and researchers about vulnerability information. Stakeholders will review the work of the ongoing working groups, and identify strategies for maximizing the impact of stakeholder outputs. More information about stakeholders’ work is available at: http://www.ntia.doc.gov/other-publication/2015/multistakeholder-process-cybersecurity-vulnerabilities.

Time and Date: NTIA will convene a meeting of the multistakeholder process to promote collaboration on vulnerability research disclosure on November 7, 2016, from 12:00 p.m. to 4:00 p.m., Eastern Time. The meeting date and time are subject to change. Submission for OMB Review; Comment Request; Post Allowance and Refiling

The United States Patent and Trademark Office (USPTO) will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).
Title: Post Allotment and Relining
OMB Control Number: 0651–0033.
Form Number(s): PTO/SB/44/50/51/515/52/53/56/141, PTO/AIA/05/06/07, and PTO–85B.
Type of Request: Regular.
Number of Respondents: 379,600

Estimated Average Hours per Response: The USPTO estimates that it will take the public from 12 minutes (0.20 hours) to 5 hours to gather the necessary information, prepare the appropriate form or document, and submit the information to the USPTO.

Burden Hours: 207,065 burden hours.

Cost Burden: $35,734,150.00.

Needs and Uses: This collection of information encompasses the action an applicant must take to submit an issue fee payment to the USPTO. The USPTO is required by 35 U.S.C. 131 and 151 to examine applications and, when appropriate, allow applications and issue them as patents. When an application for a patent is allowed by the USPTO, the USPTO issues a notice of allowance and the applicant must pay the specified issue fee (including the publication fee, if applicable) within three months to avoid abandonment of the application. If the appropriate fees are paid within the proper time period, the USPTO can then issue the patent. If the fees are not paid within the designated time period, the application is abandoned. The rules outlining the procedures for payment of the issue fee and issuance of a patent are found at 37 CFR 1.18 and 1.311–1.317.

This collection of information also encompasses several actions that may be taken after issuance of a patent. A certificate of correction may be requested to correct an error or errors in the patent. If the USPTO determines that the request should be approved, the USPTO will issue a certificate of correction. For an original patent that is believed to be wholly or partly inoperative or invalid, the assignee(s) or inventor(s) may apply for reissue of the patent, which entails several formal requirements, including provision of an oath or declaration specifically identifying at least one error being relied upon as the basis for reissue and stating the reason for the belief that the original patent is wholly or partially inoperative or invalid. The rules outlining these procedures are found at 37 CFR 1.171–1.178 and 1.322–1.325.

Frequency: On occasion.
Respondent’s Obligation: Required to Obtain or Retain Benefits.
