

DEPARTMENT OF THE TREASURY**Submission for OMB Review;
Comment Request**

October 24, 2016.

The Department of the Treasury will submit the following information collection request(s) to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, Public Law 104–13, on or after the date of publication of this notice.

DATES: Comments should be received on or before November 28, 2016 to be assured of consideration.

ADDRESSES: Send comments regarding the burden estimates, or any other aspect of the information collection(s), including suggestions for reducing the burden, to (1) Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for Treasury, New Executive Office Building, Room 10235, Washington, DC 20503, or email at OIRA_Submission@OMB.EOP.gov and (2) Treasury PRA Clearance Officer, 1750 Pennsylvania Ave. NW., Suite 8142, Washington, DC 20220, or email at PRA@treasury.gov.

FOR FURTHER INFORMATION CONTACT:

Copies of the submissions may be obtained by emailing PRA@treasury.gov, calling (202) 622–0934, or viewing the entire information collection request at www.reginfo.gov.

Alcohol and Tobacco Tax and Trade Bureau (TTB)

OMB Control Number: 1513–0124.

Type of Review: Revision of a currently approved collection.

Title: Customer Satisfaction Surveys for Permit Applications, Permits Online (PONL), Formulas Online (FONL), and COLAs Online.

Abstract: As part of our efforts to improve customer service, TTB surveys its customers who apply for original or amended permits, submit formula approval requests, and submit requests for certificates of label approval. These surveys assist TTB in identifying potential customer needs and problems, as well as opportunities for improvement in our applications processes, with particular focus on our customers' experiences with TTB's various electronic application systems.

Affected Public: Businesses or other for-profits.

Estimated Total Annual Burden Hours: 6,000.

Bob Faber,

Acting Treasury PRA Clearance Officer.

DEPARTMENT OF VETERANS AFFAIRS**Notice of Availability of a Draft Environmental Impact Statement (EIS) for a Replacement Veterans Affairs Medical Center, Louisville, Kentucky**

AGENCY: Department of Veterans Affairs (VA).

ACTION: Notice of availability.

SUMMARY: VA proposes to site, construct and operate a new campus to replace the existing Robley Rex VA Medical Center (VAMC), Veterans Benefits Administration (VBA) regional office, and three community-based outpatient clinics (CBOC) in Louisville, Kentucky. In accordance with the National Environmental Policy Act (NEPA), VA has prepared a Draft EIS that analyzes the potential impacts of three alternatives for the replacement VAMC. The Draft EIS is available for review on the agency Web site and at the St. Matthews and Westport Branches of the Louisville Free Public Library system.

DATES: Interested parties are invited to submit comments in writing on the Replacement Robley Rex VAMC Draft EIS by December 12, 2016.

ADDRESSES: Submit written comments on the Replacement Robley Rex VAMC online at www.Louisville-EIS.com; by email to LouisvilleReplacementHospitalComments@va.gov; or by regular mail to the Replacement VAMC Activation Team Office, 800 Zorn Avenue, Louisville, KY 40206. Please refer to “Replacement Robley Rex VA Medical Center” in any correspondence.

FOR FURTHER INFORMATION CONTACT:

Replacement VAMC Activation Team Office, 800 Zorn Avenue, Louisville, KY 40206 or by email to LouisvilleReplacementHospitalComments@va.gov.

SUPPLEMENTARY INFORMATION: VA proposes to site, construct, and operate a VAMC and VBA regional office to replace the existing Robley Rex VAMC located on Zorn Avenue in Louisville, KY. The existing 63-year-old VAMC facilities have reached the end of their serviceable lives and need to be replaced. The existing building conditions and site configuration are inadequate to effectively and efficiently

meet the expanding needs of VA's health care mission in the region. The replacement campus would include diagnostic and treatment facilities and required site amenities and improvements needed to provide sufficient capacity to meet the current and projected future health care needs of Veterans in the Louisville service area. This EIS analyzes the potential impacts of three alternatives for the replacement VAMC.

Alternative A proposes construction and operation of a replacement VAMC campus at the Brownsboro Site at 4906 Brownsboro Road, Louisville, KY. Alternative B would construct and operate a replacement VAMC campus at the St. Joseph site on a parcel located east of I–265 and south of Factory Lane in Louisville, KY. Alternative C is the No Action alternative, which is required by NEPA and its regulations and also provides a baseline for comparing potential impacts from the action alternatives.

VA's preferred alternative is Alternative A, the proposed construction and operation of a replacement VAMC campus at the Brownsboro Site at 4906 Brownsboro Road, in Louisville. VA would relocate medical facility operations to the Brownsboro Site from Zorn Avenue and a later process would evaluate the future use or disposition of the Zorn Avenue property.

Environmental topics that are addressed in the Draft EIS include aesthetics, air quality, cultural resources, geology and soils, hydrology and water quality, wildlife and habitat, noise, land use, floodplains and wetlands, socioeconomic, community services, solid waste and hazardous materials, transportation and parking, utilities, and environmental justice. Best management practices and mitigation measures that could alleviate environmental effects have been considered and are included where relevant within the Draft EIS.

The Draft EIS describes mitigation measures for the potential impacts to environmental resources that are identified in the impact analysis. Unavoidable adverse impacts include effects to air quality, aesthetics, noise, land use, solid waste and hazardous materials, utilities, and transportation and traffic. With the exception of aesthetics and land use, implementation of specified mitigation measures would substantially decrease the magnitude of these impacts.

The Replacement Robley Rex VAMC Draft EIS is available for viewing on the VA Web site at www.louisville.va.gov/newmedicalcenter/ and at the St.
