TENNESSEE VALLEY AUTHORITY

Environmental Impact Statement for Shawnee Fossil Plant Coal Combustion Residual Management

AGENCY: Tennessee Valley Authority.

ACTION: Notice of intent.

SUMMARY: The Tennessee Valley Authority (TVA) intends to prepare an environmental impact statement (EIS) to address the potential environmental effects associated with ceasing operations at the special waste landfill and Ash Pond 2 and constructing, operating, and maintaining a new dry coal combustion residual (CCR) landfill at the Shawnee Fossil Plant (SHF) located near Paducah, Kentucky in McCracken County. The purpose of the proposed project is to foster TVA’s compliance with present and future regulatory requirements related to CCR production and management, including the requirements of EPA’s CCR Rule and Effluent Limitations Guidelines Rule.

In the environmental review, TVA will evaluate the potential environmental impacts of closure of the special waste landfill and Ash Pond 2 as well as the construction, operation, and maintenance of an onsite dry CCR landfill or disposal of CCR in an existing offsite permitted landfill. TVA will develop and evaluate various alternatives, including the No Action Alternative, in the EIS. Public comments are invited concerning both the scope of the review and environmental issues that should be addressed.

DATES: To ensure consideration, comments on the scope and environmental issues must be postmarked, emailed or submitted online no later than December 1, 2016.

ADDRESSES: Written comments should be sent to Ashley Pilakowski, NEPA Compliance Specialist, 400 West Summit Hill Dr., WT 11D, Knoxville, TN 37902–1499. Comments may also be submitted online at: www.tva.gov/nepa.

FOR FURTHER INFORMATION CONTACT: Ashley Pilakowski, 865–632–2256.

SUPPLEMENTARY INFORMATION: This notice of intent is provided in accordance with the Council on Environmental Quality’s regulations (40 CFR parts 1500–1508) and TVA’s procedures implementing the National Environmental Policy Act (NEPA).

TVA Power System and CCR Management

TVA is a corporate agency of the United States that provides electricity for business customers and local power distributors serving more than 9 million people in parts of seven southeastern states. TVA receives no taxpayer funding, deriving virtually all of its revenues from sales of electricity. In addition to operating and investing its revenues in its electric system, TVA provides flood control, navigation and land management for the Tennessee River system and assists local power companies and state and local governments with economic development and job creation.

Historically, TVA has managed its CCRs in wet impoundments or dry landfills. Currently, SHF consumes an
