[Docket No. ER17–184–000]

SociVolta Inc.; Supplemental Notice That Initial Market-Based Rate Filing Includes Request for Blanket Section 204 Authorization

This is a supplemental notice in the above-referenced proceeding of SociVolta Inc.'s application for market-based rate authority, with an accompanying rate tariff, noting that such application includes a request for blanket authorization, under 18 CFR part 34, of future issuances of securities and assumptions of liability.

Any person desiring to intervene or to protest should file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant.

Notice is hereby given that the deadline for filing protests with regard to the applicant's request for blanket authorization, under 18 CFR part 34, of future issuances of securities and assumptions of liability is November 15, 2016.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 5 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

The filings in the above-referenced proceeding are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for electronic review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please email

FERCOnlineSupport@ferc.gov or call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

Dated: October 26, 2016.

Nathaniel J. Davis, Sr.,

Deputy Secretary.

[Docket No. CP16–473–000]

Texas Eastern Transmission, LP; Notice of Schedule for Environmental Review of the Bayway Lateral Project

On June 29, 2016, Texas Eastern Transmission, LP (Texas Eastern) filed an application in Docket No. CP16–473–000 requesting a Certificate of Public Convenience and Necessity pursuant to Section 7(c) of the Natural Gas Act to construct and operate certain natural gas pipeline facilities. The proposed project is known as the Bayway Lateral Project (Project). The Project would transport an incremental volume of approximately 300,000 dekatherms per day from Texas Eastern's existing Line 38 to serve new commercial customers (the Linden Cogen Power Plant and the Phillips 66 Bayway Refinery).

On July 14, 2016, the Federal Energy Regulatory Commission (Commission or FERC) issued its Notice of Application for the Project. Among other things, that notice alerted agencies issuing federal authorizations of the requirement to complete all necessary reviews and to reach a final decision on a request for a federal authorization within 90 days of the date of issuance of the Commission staff's Environmental Assessment (EA) for the Project. This instant notice identifies the FERC staff's planned schedule for the completion of the EA for the Project.

Schedule for Environmental Review*Issuance of EA:* November 23, 2016.*90-day Federal Authorization**Decision Deadline:* February 21, 2017.

If a schedule change becomes necessary, additional notice will be provided so that the relevant agencies are kept informed of the Project's progress.

Project Description

Texas Eastern proposes to construct, operate, and maintain new pipeline and aboveground facilities in the City of Linden, Union County, New Jersey. The Project would consist of the installation of approximately 2,300 linear feet of 24-

inch-diameter pipeline connecting Texas Eastern's existing Line 38 to the Linden Cogen Power Plant and Phillips 66 Bayway Refinery. The Project also includes construction of one new fenced metering and regulating station on the Phillips 66-owned property adjacent to the Linden Cogen Power Plant.

Background

On August 5, 2016, the Commission issued a *Notice of Intent to Prepare an Environmental Assessment for the Proposed Bayway Lateral Project and Request for Comments on Environmental Issues* (NOI). The NOI was sent to affected landowners; federal, state, and local government agencies; elected officials; environmental and public interest groups; Native American tribes; other interested parties; and local libraries and newspapers. We received one comment in response to our NOI from the U.S. Environmental Protection Agency (EPA). The EPA suggested several additional environmental issues be addressed in the EA, including an analysis of air quality impacts; an evaluation of alternatives, including those outside FERC's jurisdiction; a comprehensive evaluation of cumulative, indirect, and secondary impacts; climate change adaptation; and environmental justice. Consolidated Rail Corporation also filed comments in response to the Notice of Application regarding railroad safety.

Additional Information

In order to receive notification of the issuance of the EA and to keep track of all formal issuances and submittals in specific dockets, the Commission offers a free service called eSubscription. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to www.ferc.gov/docs-filing/esubscription.asp.

Additional information about the Project is available from the Commission's Office of External Affairs at (866) 208–FERC or on the FERC Web site (www.ferc.gov). Using the "eLibrary" link, select "General Search" from the eLibrary menu, enter the selected date range and "Docket Number" excluding the last three digits (*i.e.*, CP16–473), and follow the instructions. For assistance with access to eLibrary, the helpline can be reached at (866) 208–3676, TTY (202) 502–8659, or at FERCOnlineSupport@ferc.gov. The eLibrary link on the FERC Web site also provides access to the texts of formal documents issued by the Commission,
