E. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such expenditure, we do discuss the effects of this rule elsewhere in this preamble.

F. Environment

We have analyzed this rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.ID, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321–4370f), and have determined that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule involves a month-long safety zone limiting vessel speed and intermittently prohibiting entry into a one-mile area of the Arkansas River adjacent to the Broadway Bridge during demolition operations. It is categorically excluded from further review under paragraph 34(g) of Figure 2–1 of the Commandant Instruction. An environmental analysis checklist supporting this determination and a Categorical Exclusion Determination are available in the docket where indicated under **ADDRESSES**. We seek any comments or information that may lead to the discovery of a significant environmental impact from this rule.

G. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

National Oceanic and Atmospheric Administration

50 CFR Part 648

[Docket No. 160126052-6974-02]

RIN 0648-BF72

Fisheries of the Northeastern United States; Atlantic Sea Scallop Fishery; Amendment 19

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: This final rule implements Amendment 19 to the Atlantic Sea Scallop Fishery Management Plan, which the New England Fishery Management Council adopted and submitted to NMFS for approval. Amendment 19 establishes a

specifications process outside of the current framework adjustment process and adjusts the start of the scallop fishing year from March 1 to April 1. These changes will help reduce potential economic and biological consequences from late implementation of specifications and reduce the overall administrative burden associated with late implementation. As a result of these changes, NMFS will be able to implement simple specifications actions at the start of the fishing year on a more consistent basis.

DATES: Effective December 5, 2016.

ADDRESSES: The Council developed an environmental assessment (EA) for this action that describes these measures and other considered alternatives and provides a thorough analysis of the impacts of the measures and alternatives. Copies of the Amendment, the EA, and the Regulatory Flexibility Analysis (RFA), are available upon request from Thomas A. Nies, Executive Director, New England Fishery Management Council, 50 Water Street, Newburyport, MA 01950.

SUPPLEMENTARY INFORMATION:

Background

The Council adopted Amendment 19 to the Atlantic Sea Scallop Fishery Management Plan (FMP) at its December 3, 2015, meeting and submitted the amendment to NMFS on June 16, 2016. NMFS published a notice of availability on July 20, 2016 (81 FR 47152), and a proposed rule, including a reference on how to obtain the amendment and the draft final EA, for approving and implementing Amendment 19 on August 16, 2016 (81 FR 54533). The NOA included a 60-day public comment period that closed on September 19, 2016, and the proposed rule included a 30-day public comment period that closed on September 15, 2016. NMFS reviewed and finalized the amendment document to ensure consistency with the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), the Scallop FMP, and other applicable laws. NMFS approved Amendment 19 in its entirety.
