

requiring re-training every year created a greater burden on contractors.

Response: In response to the concerns expressed by these respondents, it is noted that this information collection requirement does not address the burden associated with conducting the initial or subsequent annual privacy training. Rather, it focuses solely on the obligation of Federal contractors' to maintain documentation showing that the required privacy training was completed by the employee and, upon request, provide completion documentation to the contracting officer. However, since the analysis used in the proposed rule did not encompass contracts involving the acquisition of commercial items, the methodology used to derive the estimated hourly and cost burden described in the proposed rule has been revised in the final rule.

CMS–10526—Cost-Sharing Reduction Reconciliation Information Collection

Under the PRA (44 U.S.C. 3501–3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term “collection of information” is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA requires federal agencies to publish a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice.

Information Collection

1. *Type of Information Collection Request:* Revision of a currently approved information collection; *Title of Information Collection:* Cost-Sharing Reduction Reconciliation Information Collection; *Use:* Under established Department of Health and Human Services (HHS) regulations, qualified health plan (QHP) issuers will receive estimated advance payments of cost-sharing reductions throughout the year. Each issuer will then be subject to a reconciliation process at the end of the benefit year to ensure that HHS reimburses each issuer only for actual cost sharing. This revised collection adds three data elements, a Policy Identification number, Policy Start Date, and Policy End Date, and proposes to eliminate most summary plan level reporting. *Form Number:* CMS–10526 (OMB Control Number 0938–1266). *Frequency:* Once, Yearly; *Affected Public:* Private Sector—Not-for-profit institutions; *Number of Respondents:* 295; *Number of Responses:* 4,000,000; *Total Annual Hours:* 6,939. (For policy questions regarding this collection, contact Pat Meisol at 410–786–1917)
