

includes offenses previously proscribed by “Indecent acts with another,” which was deleted pursuant to Executive Order 13447 of 1 October 2007, except that the presence of another person is not required. (m) Paragraph 97, Article 134 (Pandering and prostitution) is amended by adding the following language:

“2016 Amendment: Paragraph 97 was amended to broaden the definition of prostitution and pandering to include all sexual acts, not just sexual intercourse. This amendment included the removal of the language in paragraph 97.c suggesting that engaging in sodomy for money or compensation could be charged under paragraph 51 (Article 125—Sodomy). Pursuant to section 1707 of the National Defense Authorization Act for Fiscal Year 2014, P.L. 113–66, 26 December 2013, consensual sodomy is no longer a crime under the UCMJ and Article 125 is not an appropriate charge for the consensual exchange of money for sodomy. The definition of prostitution for this offense differs from the definition of prostitution in Article 120c. Congress provided a broader definition of prostitution when criminalizing forcible pandering.

Title of Collection: Implementation of Title I/II–A Program Initiatives.

OMB Control Number: 1850–0902.

Type of Review: A reinstatement of a previously approved information collection.

Respondents/Affected Public: State, Local, or Tribal Governments.

Total Estimated Number of Annual Responses: 621.

Total Estimated Number of Annual Burden Hours: 672.

Abstract: The second round of data collection for the Implementation of Title I/II–A Program Initiatives study will continue to examine the implementation of policies promoted through the Elementary and Secondary Education Act (ESEA) at the state and district levels, in four core areas: School accountability and support for low-performing schools, teacher and principal evaluation, state content standards, and assessments. The first round of data collection for this study was conducted in Spring and Summer 2014.

The purpose of this follow-up data collection is to provide policy makers with detailed information on the core policies promoted by Title I and Title II–A being implemented at the state and district levels, and the resources and supports they provide to schools and teachers. The timing of the data collection is critical to provide information prior to the full implementation of the Every Student Succeeds Act (ESSA) in the 2017–18 school year. Although other research studies cover similar topics on recent federal education policy, the breadth of research questions and the depth of responses from all states and a nationally representative sample of 570 school districts sets the Title I/II study apart from other studies.

This study will rely on information collected from existing sources, for which there are no respondents or burden, and on a set of revised state and district surveys, based on the 2014 data collection, in order to address the study’s research questions. Extant data sources include (a) the National Assessment of Educational Progress (NAEP) and (b) EDFacts data.

The revised surveys of states and school districts will begin in April 2017. All respondents will have the opportunity to complete an electronic (e.g., web-based) survey (or paper survey, if preferred). The survey respondents are described briefly below:

State Surveys: The state survey will be sent to the chief state school officer in each of the 50 states and the District of Columbia. The state surveys will be administered using an electronic instrument divided into modules corresponding to the four core areas.

School District Surveys: The school district survey will be sent to school superintendents from the same nationally representative sample of 570 school districts that participated in the 2014 survey. The district survey will be web-based and modularized, corresponding to the four core areas, to allow for completion by one or multiple respondents.
