DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Submission for OMB Review; Comment Request

Title: Responding to Intimate Violence in Relationship Programs (RIViR).

OMB No.: New Collection.

Description: The Administration for Children and Families (ACF), U.S. Department of Health and Human Services (HHS) is proposing a data collection as part of the “Responding to Intimate Violence in Relationship Programs” (RIViR) study. This notice addresses testing of intimate partner violence (IPV) and teen dating violence (TDV) screener/protocols, to be conducted with approximately 1,200 participants from approximately six Healthy Marriage and Relationship Education (HMRE) grantees funded by the Office of Family Assistance (OFA).

There is little consensus on how HMRE programs should address IPV or TDV in their programs. To date, no IPV or TDV screening tools have been empirically tested among HMRE

program participants. The objective of the proposed data collection is to test and validate IPV and TDV screening instruments among HMRE program participants. Findings from this data collection will be used to develop practical, responsive guidance on IPV and TDV screening and surrounding protocols for HMRE programs.

Data collection will entail testing eight screening instruments: Six closed-ended screening instruments (three for IPV, three for TDV), and two open-ended instruments (one for IPV, one for TDV). Trained HMRE grantee staff at approximately 6 grant programs will implement the four IPV screening tools among approximately 600 adult participants and the four TDV screening tools among approximately 600 youth participants. It is anticipated that each participant will engage in four rounds of data collection, one round for each IPV or TDV instrument, at least two weeks apart. Data collection is expected to occur through Spring 2019.

Respondents: HMRE grantee program participants: 600 youth (approximately ages 14–18) will participate in the TDV screener testing and 600 adults (ages 18 and older) will participate in the IPV screener testing.
