

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has recently submitted a request for renewal of an existing collection of information to the Office of Management and Budget (OMB) for review. The information collection is entitled, “NRC Forms 540 and 540A, ‘Uniform Low-Level Radioactive Waste Manifest (Shipping Paper) and Continuation Page.’”

DATES: Submit comments by December 12, 2016.

ADDRESSES: Submit comments directly to the OMB reviewer at: Vlad Dorjets, Desk Officer, Office of Information and Regulatory Affairs (3150–0164), NEOB-10202, Office of Management and Budget, Washington, DC 20503; telephone: 202–395–7315, email: oira_submission@omb.eop.gov.

FOR FURTHER INFORMATION CONTACT: David Cullison, NRC Clearance Officer, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001; telephone: 301–415–2084; email: INFOCOLLECTS.Resource@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC–2015–0281 when contacting the NRC about the availability of information for this action. You may obtain publicly-available information related to this action by any of the following methods:

- **Federal Rulemaking Web site:** Go to <http://www.regulations.gov> and search for Docket ID NRC–2015–0281. A copy of the collection of information and related instructions may be obtained without charge by accessing Docket ID NRC–2015–0281 on this Web site.

- **NRC’s Agencywide Documents Access and Management System (ADAMS):** You may obtain publicly-available documents online in the ADAMS Public Documents collection at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select “ADAMS Public Documents” and then select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to pdr.resource@nrc.gov. A copy of the collection of information and related instructions may be obtained without charge by accessing ADAMS Accession No. ML16243A190. The supporting statement is available in ADAMS under Accession No. ML16243A194.

- **NRC’s PDR:** You may examine and purchase copies of public documents at

the NRC’s PDR, Room O1–F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

- **NRC’s Clearance Officer:** A copy of the collection of information and related instructions may be obtained without charge by contacting the NRC’s Clearance Officer, David Cullison, Office of the Chief Information Officer, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001; telephone: 301–415–2084; email: INFOCOLLECTS.Resource@nrc.gov.

B. Submitting Comments

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at <http://www.regulations.gov> and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled: “NRC Forms 540 and 540A, ‘Uniform Low-Level Radioactive Waste Manifest (Shipping Paper) and Continuation Page.’” The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on June 22, 2016 (81 FR 40728).

1. **The title of the information collection:** “NRC Forms 540 and 540A, ‘Uniform Low-Level Radioactive Waste Manifest (Shipping Paper) and Continuation Page.’”

2. **OMB approval number:** 3150–0164.
3. **Type of submission:** Extension.
4. **The form number, if applicable:** NRC Forms 540 and 540A.

5. How often the collection is required or requested: Forms are used by shippers whenever radioactive waste is shipped. Quarterly or less frequent reporting is made to Agreement States depending on specific license conditions. No reporting is made to the NRC.

6. Who will be required or asked to respond: All NRC or Agreement State low-level waste facilities licensed pursuant to part 61 of title 10 of the *Code of Federal Regulations* (10 CFR) or equivalent Agreement State regulations. All generators, collectors, and processors of low-level waste intended for disposal at a low-level waste facility must complete the appropriate forms.

7. The estimated number of annual responses: 5,740.

8. The estimated number of annual respondents: 220.

9. The estimated number of hours needed annually to comply with the information collection requirement or request: 4,305.

10. Abstract: NRC Forms 540 and 540A provide a set of standardized forms to meet Department of Transportation (DOT), NRC, and State requirements. The forms were developed by NRC at the request of low-level waste industry groups. The forms provide uniformity and efficiency in the collection of information contained in manifests which are required to control transfers of low-level radioactive waste intended for disposal at a land disposal facility. The NRC Form 540 contains information needed to satisfy DOT shipping paper requirements in 49 CFR part 172, and the waste tracking requirements of the NRC in 10 CFR part 20.

Dated at Rockville, Maryland, this 2nd day of November, 2016.

For the Nuclear Regulatory Commission.

David Cullison,

NRC Clearance Officer, Office of the Chief Information Officer.

A copy of the collection of information and related instructions may be obtained without charge by accessing ADAMS Accession No. ML16245A843. The supporting statement is available in

ADAMS under Accession No. ML16245A851.

- *NRC's PDR:* You may examine and purchase copies of public documents at the NRC's PDR, Room O1–F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

- *NRC's Clearance Officer:* A copy of the collection of information and related instructions may be obtained without charge by contacting the NRC's Clearance Officer, David Cullison, Office of the Chief Information Officer, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001; telephone: 301–415–2084; email: INFOCOLLECTS.Resource@nrc.gov.

B. Submitting Comments

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at <http://www.regulations.gov> and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled: “NRC Forms 542 and 542A, ‘Uniform Low-Level Radioactive Waste Manifest Index and Regional Compact Tabulation, and Continuation Page.’” The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on June 22, 2016 (81 FR 40725).

- 1. *The title of the information collection:* “NRC Forms 542 and 542A, ‘Uniform Low-Level Radioactive Waste Manifest, Index and Regional Compact Tabulation, and Continuation Page.’”

2. *OMB approval number:* 3150–0165.

3. *Type of submission:* Extension.

4. *The form number, if applicable:* NRC Forms 542 and 542A.

5. *How often the collection is required or requested:* Forms are used by shippers whenever radioactive waste is shipped. Quarterly or less frequent reporting is made to Agreement States depending on specific license conditions. No reporting is made to the NRC.

6. *Who will be required or asked to respond:* All NRC or Agreement State low-level waste facilities licensed pursuant to part 61 of title 10 of the *Code of Federal Regulations* (10 CFR) or equivalent Agreement State regulations. All generators, collectors, and processors of low-level waste intended for disposal at a low-level waste facility must complete the appropriate forms.

7. *The estimated number of annual responses:* 756.

8. *The estimated number of annual respondents:* 22.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 567.

10. *Abstract:* NRC Forms 542 and 542A, provide a set of standardized forms to meet Department of Transportation (DOT), NRC, and State requirements. The forms were developed by NRC at the request of low-level waste industry groups. The forms provide uniformity and efficiency in the collection of information contained in manifests which are required to control transfers of low-level radioactive waste intended for disposal at a land disposal facility. The NRC Form 542, completed by waste collectors or processors, contains information which facilitates tracking the identity of the waste generator. That tracking becomes more complicated when the waste forms, dimensions, or packaging are changed by the waste processor. Each container of waste shipped from a waste processor may contain waste from several different generators. The information provided on the NRC Form 542 permits the States and Compacts to know the original generators of low-level waste, as authorized by the Low-Level Radioactive Waste Policy Amendments Act of 1985, so they can ensure that waste is disposed of in the appropriate Compact.

Dated at Rockville, Maryland, this 2nd day of November, 2016.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-79244; File No. SR-CBOE-2016-053]

Self-Regulatory Organizations; Chicago Board Options Exchange, Incorporated; Notice of Filing of Amendment No. 1 and Order Granting Accelerated Approval of a Proposed Rule Change, as Modified by Amendment No. 1, Relating to Price Protection Mechanisms and Risk Controls

November 4, 2016.

I. Introduction

On September 1, 2016, Chicago Board Options Exchange, Incorporated (“CBOE” or “Exchange”) filed with the Securities and Exchange Commission (“Commission”), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)¹ and Rule 19b-4 thereunder,² a proposed rule change to amend current and adopt new price protection mechanisms and risk controls for orders and quotes. The Commission published the proposed rule change for comment in the **Federal Register** on September 20, 2016.³ On September 21, 2016, the Exchange filed Amendment No. 1 to the proposed rule change.⁴ The Commission received no

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

³ See Securities Exchange Act Release No. 78839 (September 14, 2016), 81 FR 64521 (September 20, 2016) (“Notice”).

⁴ In Amendment No. 1, the Exchange conformed the text of proposed Rule 6.13(b)(v)(B) to CBOE’s description in the Notice of the drill through price check parameter. Specifically, the amendment added detail into the rule to reflect that, pursuant to the drill through price check parameter, CBOE will expose the unexecuted portion of an order via HAL at the better of the NBBO and the drill through price. In addition, CBOE also proposed to amend its discussion of existing quote risk monitor functionality to accurately match the existing rule text (which involved background discussion of functionality that CBOE did not propose to amend in the current proposal). To promote transparency of its proposed amendment, when CBOE filed Amendment No. 1 with the Commission, it also submitted Amendment No. 1 as a comment letter to the file, which the Commission posted on its Web site and placed in the public comment file for SR-CBOE-2016-053 (available at <https://www.sec.gov/comments/sr-cboe-2016-053/cboe2016053-1.pdf>). The Exchange also posted a copy of its Amendment No. 1 on its Web site (<http://www.cboe.com/aboutcboe/legal/submittedsecfilings.aspx>) when it filed the amendment with the Commission.

comments on the proposal. This order provides notice of filing of Amendment No. 1 and approves the proposed rule change, as modified by Amendment No. 1, on an accelerated basis.

II. Description of the Proposed Rule Change⁵

The Exchange currently has in place various price check mechanisms and risk controls that are designed to prevent incoming orders and quotes from automatically executing at potentially erroneous prices or to assist TPHs with managing their risk.⁶ The Exchange proposed to amend CBOE Rules 6.12(a)(3), 6.13(b)(v), 6.14 and 8.18 to add new, as well as amend current, price protection mechanisms and risk controls to further assist brokers in their efforts to prevent errors and avoid trading activity that could potentially be unwanted or even disruptive to the market.⁷

A. Limit Order Price Parameter for Simple Orders

The Exchange proposed to amend the limit order price parameter for simple orders in Rule 6.12(a)(3). Currently, a simple limit order is routed directly from an order entry firm to an order management terminal (“OMT”) designated by the order entry firm if a limit order to buy (sell) is more than an acceptable tick distance (“ATD”)⁸ above (below): (i) The Exchange’s previous day’s closing price prior to the opening of a series, or (ii) the disseminated Exchange offer (bid) once a series has opened.⁹

The Exchange has now proposed to amend CBOE Rule 6.12(a)(3) to reject a simple limit order to buy (sell) generally when it is more than an ATD above (below) the last disseminated national best offer (“NBO”) (national best bid

⁵ A more detailed description of the proposed rule change appears in the Notice. See *supra* note 3.

⁶ See, e.g., CBOE Rules 6.12(a)(3) through (5) (limit order price parameters), 6.13(b)(v) (market-width and drill through price check parameters), 6.14 (price protections), 6.53C, Interpretation and Policy .08 (price check parameters for complex orders), and 8.18 (QRM Mechanism).

⁷ The proposed rule change also made conforming changes to CBOE Rules 6.2B, 6.13A, and 6.14A. A full discussion of those changes may be found in the Notice. See *supra* note 3.

⁸ Currently, the Exchange determines the ATD, which may be no less than 5 minimum increment ticks, on a series-by-series and premium basis. Under the proposed rule change, the ATD, which may be no less than two minimum increment ticks, will be determined on a class-by-class and premium basis. In addition, different ATDs may be applied to orders entered during the pre-opening, a trading rotation, a trading halt, or Extended Trading Hours. See proposed CBOE Rule 6.12(a)(3) and Notice, *supra* note 3, at 64523 n. 8.

⁹ See CBOE Rule 6.12(a)(3).

(“NBB”)).¹⁰ According to the Exchange, using the NBBO or NBO (NBB), if available, will more accurately reflect the then current market, rather than the previous day’s closing price or Exchange BBO.¹¹ The Exchange, however, will continue to use the previous day’s closing price or Exchange BBO in certain instances, such as when the NBBO is locked or crossed, or when there is no NBO (NBB) and the closing price does not cross the disseminated NBB (NBO).¹²

CBOE also proposed to apply the limit order price parameter to immediate-or-cancel orders. According to the Exchange, such orders also are at risk of execution at extreme and potentially erroneous prices and thus will benefit from applicability of these checks.¹³ However, the limit order price parameter will not apply to orders routed from a PAR workstation or OMT. According to the Exchange, orders routed from a PAR workstation or OMT are subject to manual handling, and therefore, the Exchange believes the PAR or OMT operator will have evaluated the price of an order based on then-existing market conditions prior to submitting the order for electronic execution.¹⁴ Thus, there is minimal risk of execution at an erroneous price. The limit order price parameter also will not apply to orders with a stop contingency.¹⁵ According to the Exchange, buy orders with a stop contingency are generally submitted at a triggering price that is above the NBO, and sell orders with a stop contingency are generally submitted at a triggering price that is below the NBB.¹⁶ As a result, the Exchange believes these orders are expected to be priced outside the NBBO.¹⁷

¹⁰ Specifically, CBOE will reject the order if it is more than the ATD above (below): (i) prior to the opening of a series, (A) the last disseminated national best offer (“NBO”) (national best bid (“NBB”)), if a series is open on another exchange, or (B) the Exchange’s previous day’s closing price, if a series is not yet open on any other exchange; if the NBBO is locked, crossed, or unavailable; or if there is no NBO (NBB) and the previous day’s closing price is greater (less) than or equal to the NBB (NBO); (ii) intraday, the last disseminated NBO (NBB), or the Exchange’s best offer (bid) if the NBBO is locked, crossed or unavailable; or (iii) during a trading halt, the last disseminated NBO (NBB).

¹¹ See Notice, *supra* note 3 at 64522.

¹² See *id.*

¹³ See *id.* at 64523.

¹⁴ See *id.*

¹⁵ See CBOE Rule 6.53. A stop contingency is triggered for a buy order if there is a last sale or bid at or above the stop price and for a sell order if there is a last sale or offer at or below the stop price.

¹⁶ See Notice, *supra* note 3 at 64523.
