**Certain Carbon and Alloy Steel Cut-to-Length Plate From Taiwan: Preliminary Determination of Sales at Less Than Fair Value**

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**SUMMARY:** The Department of Commerce (the Department) preliminarily determines that certain carbon and alloy steel cut-to-length plate (CTL plate) from Taiwan is being, or is likely to be, sold in the United States at less than fair value (LTFV). The period of investigation (POI) is April 1, 2015, through March 31, 2016. The estimated weighted-average dumping margins of sales at LTFV are shown in the “Preliminary Determination” section of this notice. Interested parties are invited to comment on this preliminary determination.

**DATES:** Effective November 14, 2016.

**Scope of the Investigation**

The product covered by this investigation is CTL plate from Taiwan. For a full description of the scope of this investigation, see the “Scope of the Investigation,” in Appendix I of this notice.

**Scope Comments**

In accordance with the *Preamble* to the Department’s regulations,<sup>3</sup> the *Initiation Notice* set aside a period of time for parties to raise issues regarding product coverage, *i.e.*, scope.<sup>4</sup> Certain interested parties commented on the scope of the concurrent CTL plate investigations as it appeared in the *Initiation Notice*. For a summary of the product coverage comments and rebuttal responses submitted to the records of this and the concurrent CTL plate investigations, and a discussion and analysis of all comments timely received, see the Department’s Preliminary Scope Decision Memorandum and the Department’s Additional Preliminary Scope Decision Memorandum.<sup>5</sup> The Department has

**Methodology**

The Department is conducting this investigation in accordance with section 731 of the Act. Export price is calculated in accordance with section 772 of the Tariff Act of 1930, as amended (the Act). Normal value (NV) is calculated in accordance with section 773 of the Act.<sup>7</sup> For a full description of the methodology underlying our preliminary conclusions, see the Preliminary Decision Memorandum.

**Adverse Facts Available**

Because mandatory respondent China Steel failed to cooperate to the best of its ability in responding to the Department’s questionnaires, we preliminarily determine to use adverse facts available (AFA) with respect to this respondent, in accordance with sections 776(a) and (b) of the Act and 19 CFR 351.308. For further discussion, see the Preliminary Decision Memorandum.

**All-Others Rate**

Consistent with sections 733(d)(1)(A)(ii) and 735(c)(5) of the Act, the Department also calculated an estimated all-others rate. Section 735(c)(5)(A) of the Act provides that the estimated all-others rate shall be an amount equal to the weighted average of the estimated weighted-average dumping margins established for exporters and producers individually investigated, excluding any zero and *de minimis* margins, and any margins determined entirely under section 776 of the Act.

In this investigation, because the margin for China Steel was determined entirely under section 776 of the Act, and hence, because Shang Chen was the only respondent for which we calculated a weighted-average dumping margin, we based our determination of the all-others rate on the estimated

weighted-average dumping margin calculated for Shang Chen.<sup>8</sup>

### Preliminary Determination

The Department preliminarily determines that CTL plate from Taiwan is being, or is likely to be, sold in the United States at LTFV, pursuant to section 733 of the Act, and that the following estimated weighted-average dumping margins exist:

Exporter/manufacturer	Weighted-average dumping margin (percent)
China Steel Corporation	28.00
Shang Chen Steel Co., Ltd .....	3.51
All Others .....	3.51

### Suspension of Liquidation

In accordance with section 733(d)(2) of the Act, we will direct U.S. Customs and Border Protection (CBP) to suspend liquidation of all entries of CTL plate from Taiwan, as described in the Scope of the Investigation in Appendix I, from Shang Chen that are entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice in the **Federal Register**.

Section 733(e)(2) of the Act provides that, given an affirmative preliminary determination of critical circumstances, any suspension of liquidation shall apply to unliquidated entries of merchandise entered, or withdrawn from warehouse, for consumption on or after the later of (a) the date which is 90 days before the date on which the suspension of liquidation was first ordered, or (b) the date on which notice of initiation of the investigation was published.

Because we have preliminarily found that critical circumstances exist with regard to imports produced and exported by China Steel and “all other” companies,<sup>9</sup> we will instruct CBP to suspend liquidation of all entries of CTL plate from Taiwan, as described in the scope of the investigation, from China Steel and the “all other” companies that are entered, or withdrawn from warehouse, for consumption on or after the date that is 90 days prior to the date on which suspension of liquidation is

first ordered (e.g., the date of publication of this notice).

Pursuant to section 733(d) of the Act and 19 CFR 351.205(d), we will instruct CBP to require cash deposits<sup>10</sup> equal to the weighted-average amount by which the NV exceeds U.S. price, as indicated in the chart above, as follows: (1) The rate for the mandatory respondents listed above will be the respondent-specific rates we determined in this preliminary determination; (2) if the exporter is not a mandatory respondent identified above, but the producer is, the rate will be the specific rate established for the producer of the subject merchandise; and (3) the rate for all other producers or exporters will be the all-others rate. The suspension of liquidation instructions will remain in effect until further notice.

### Disclosure

We intend to disclose the calculations performed to interested parties in this proceeding within five days of the date of publication of this notice in accordance with 19 CFR 351.224(b).

### Verification

As provided in section 782(i) of the Act, we intend to verify information relied upon in making our final determination.

### Public Comment

Interested parties are invited to comment on this preliminary determination. Case briefs or other written comments may be submitted to the Assistant Secretary for Enforcement and Compliance no later than seven days after the date on which the final verification report is issued in this proceeding, and rebuttal briefs, limited to issues raised in case briefs, may be submitted no later than five days after the deadline date for case briefs.<sup>11</sup> Pursuant to 19 CFR 351.309(c)(2) and (d)(2), parties who submit case briefs or rebuttal briefs in this proceeding are encouraged to submit with each argument: (1) A statement of the issue; (2) a brief summary of the argument; and (3) a table of authorities.

The Department established separate deadlines for interested parties to provide comments on scope issues.<sup>12</sup>

Specifically, case briefs on scope issues were to be submitted no later than October 21, 2016. Scope rebuttal briefs, limited to issues raised in the scope case briefs, were to be submitted no later than November 1, 2016.<sup>13</sup> The Department explained that parties should limit comments on scope issues to their scope case brief and their scope rebuttal brief.<sup>14</sup> Thus, comments on scope issues belong in parties’ scope case briefs and scope rebuttal briefs only and not in other case briefs and rebuttal briefs submitted in this investigation. The Department intends to address parties’ scope comments in a final scope memorandum.

Pursuant to 19 CFR 351.310(c), interested parties who wish to request a hearing must submit a written request to the Assistant Secretary for Enforcement and Compliance, U.S. Department of Commerce, within 30 days after the date of publication of this notice. Requests should contain the party’s name, address, and telephone number, the number of participants, and a list of the issues to be discussed. If a request for a hearing is made, the Department intends to hold the hearing at the U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230, at a time and date to be determined. Parties should confirm by telephone the date, time, and location of the hearing two days before the scheduled date.

All documents must be filed electronically using ACCESS. An electronically-filed request must be received successfully in its entirety by ACCESS by 5:00 p.m. Eastern Standard Time.

### Postponement of Final Determination and Extension of Provisional Measures

Section 735(a)(2) of the Act provides that a final determination may be postponed until not later than 135 days after the date of the publication of the preliminary determination if, in the event of an affirmative preliminary determination, a request for such postponement is made by exporters who account for a significant proportion of exports of the subject merchandise, or in the event of a negative preliminary determination, a request for such postponement is made by the petitioner. 19 CFR 351.210(e)(2) requires that requests by respondents for

postponement of a final determination be accompanied by a request for extension of provisional measures from a four-month period to a period not more than six months in duration.

Respondents China Steel and Shang Chen have requested that, in the event of an affirmative preliminary determination in this investigation, the Department postpone its final determination, *i.e.*, no later than 135 days after the publication of the preliminary determination in the **Federal Register**, and agreed to extend the application of the provisional measures prescribed under section 733(d) of the Act and 19 CFR 351.210(e)(2), from a four-month period to a period not to exceed six months.<sup>15</sup>

In accordance with section 735(a)(2)(A) of the Act and 19 CFR 351.210(b)(2)(ii), because (1) our preliminary determination is affirmative; (2) the requesting exporters account for a significant proportion of exports of the subject merchandise; and (3) no compelling reasons for denial exist, we are postponing the final determination until no later than 135 days after the publication of this notice in the **Federal Register** and extending the provisional measures from a four-month period to a period not greater than six months. Accordingly, we will issue our final determination no later than 135 days after the date of publication of this preliminary determination, pursuant to section 735(a)(2) of the Act.<sup>16</sup>

### International Trade Commission (ITC) Notification

In accordance with section 733(f) of the Act, we are notifying the ITC of our affirmative preliminary determination of sales at LTFV. If our final determination is affirmative, the ITC will determine before the later of 120 days after the date of this preliminary determination or 45 days after our final determination whether these imports are materially injuring, or threaten material injury to, the U.S. industry.

This determination is issued and published in accordance with sections 733(f) and 777(i)(1) of the Act and 19 CFR 351.205(c).

Dated: November 4, 2016.

### Appendix I—Scope of the Investigation

The products covered by this investigation are certain carbon and alloy steel hot-rolled or forged flat plate products not in coils, whether or not painted, varnished, or coated with plastics or other non-metallic substances (cut-to-length plate). Subject merchandise includes plate that is produced by being cut-to-length from coils or from other discrete length plate and plate that is rolled or forged into a discrete length. The products covered include (1) Universal mill plates (*i.e.*, flat-rolled products rolled on four faces or in a closed box pass, of a width exceeding 150 mm but not exceeding 1250 mm, and of a thickness of not less than 4 mm, which are not in coils and without patterns in relief), and (2) hot-rolled or forged flat steel products of a thickness of 4.75 mm or more and of a width which exceeds 150 mm and measures at least twice the thickness, and which are not in coils, whether or not with patterns in relief. The covered products described above may be rectangular, square, circular or other shapes and include products of either rectangular or non-rectangular cross-section where such non-rectangular cross-section is achieved subsequent to the rolling process, *i.e.*, products which have been “worked after rolling” (*e.g.*, products which have been beveled or rounded at the edges).

For purposes of the width and thickness requirements referenced above, the following rules apply:

(1) Except where otherwise stated where the nominal and actual thickness or width measurements vary, a product from a given subject country is within the scope if application of either the nominal or actual measurement would place it within the scope based on the definitions set forth above unless the product is already covered by an order existing on that specific country (*i.e.*, *Notice of Antidumping Duty Order; Certain Hot-Rolled Carbon Steel Flat Products From Taiwan*, 66 FR 59563 (November 29, 2001).); and

(2) where the width and thickness vary for a specific product (*e.g.*, the thickness of certain products with non-rectangular cross-section, the width of certain products with non-rectangular shape, *etc.*), the measurement at its greatest width or thickness applies.

Steel products included in the scope of this investigation are products in which:

(1) Iron predominates, by weight, over each of the other contained elements; and

(2) the carbon content is 2 percent or less by weight.

Subject merchandise includes cut-to-length plate that has been further processed in the subject country or a third country, including but not limited to pickling, oiling, levelling, annealing, tempering, temper rolling, skin passing, painting, varnishing, trimming, cutting, punching, beveling, and/or slitting, or any other processing that would not otherwise remove the merchandise from the scope of the investigation if performed in the

country of manufacture of the cut-to-length plate.

All products that meet the written physical description, are within the scope of this investigation unless specifically excluded or covered by the scope of an existing order. The following products are outside of, and/or specifically excluded from, the scope of this investigation:

(1) Products clad, plated, or coated with metal, whether or not painted, varnished or coated with plastic or other non-metallic substances;

(2) military grade armor plate certified to one of the following specifications or to a specification that references and incorporates one of the following specifications:

- MIL-A-12560,
- MIL-DTL-12560H,

- MIL-DTL-12560K,
- MIL-DTL-32332,
- MIL-A-46100D,
- MIL-DTL-46100-E,
- MIL-46177C,
- MIL-S-16216K Grade HY80,
- MIL-S-16216K Grade HY100,
- MIL-S-24645A HSLA-80;
- MIL-S-24645A HSLA-100,
- T9074-BD-GIB-010/0300 Grade HY80,
- T9074-BD-GIB-010/0300 Grade HY100,
- T9074-BD-GIB-010/0300 Grade HSLA80,
- T9074-BD-GIB-010/0300 Grade HSLA100, and
- T9074-BD-GIB-010/0300 Mod. Grade HSLA115,

except that any cut-to-length plate certified to one of the above specifications, or to a military grade armor specification that references and incorporates one of the above specifications, will not be excluded from the scope if it is also dual- or multiple-certified to any other non-armor specification that otherwise would fall within the scope of this order;

(3) stainless steel plate, containing 10.5 percent or more of chromium by weight and not more than 1.2 percent of carbon by weight;

(4) CTL plate meeting the requirements of ASTM A-829, Grade E 4340 that are over 305 mm in actual thickness;

#### Certain Carbon and Alloy Steel Cut-To-Length Plate From Italy: Preliminary Determination of Sales at Less Than Fair Value, Affirmative Determination of Critical Circumstances, and Postponement of Final Determination

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**SUMMARY:** The Department of Commerce (the Department) preliminarily determines that certain carbon and alloy steel cut-to-length plate (CTL plate) from Italy is being, or is likely to be, sold in the United States at less than fair value (LTFV).
