

the New Mexico Public Regulation Commission to remedy its alleged improper implementation of PURPA, all as more fully explained in the petition.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Petitioner.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for electronic review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please email FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Comment Date: 5:00 p.m. Eastern Time on November 28, 2016.

Dated: November 7, 2016.

Kimberly D. Bose,
Secretary.

BILLING CODE 6717-01-P

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-0698]

Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501-3520), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before January 17, 2017. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicole Ongele, FCC, via email to PRA@fcc.gov and to Nicole.Ongele@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Nicole Ongele at (202) 418-2991.

SUPPLEMENTARY INFORMATION:

OMB Approval Number: 3060-0698.

Title: Section 25.203(i) and 73.1030(a)(2), Radio Astronomy Coordination Zone in Puerto Rico.

Form No: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit, not-for-profit institutions, and State, local, or tribal Government.

Number of Respondents and Responses: 450 respondents, 4,000 responses.

Estimated Time per Response: 5-40 minutes (.0833 hours to .667 hours).

Frequency of Response: On occasion reporting requirement and third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained 47 U.S.C. 154(i), 303(f), 303(r), and 309(j)(13).

Total Annual Burden: 602 hours.

Total Annual Cost: No cost.

Privacy Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: There is no need for confidentiality.

Needs and Uses: The Commission will submit this expiring information collection to the Office of Management and Budget (OMB) after this 60 day comment period to obtain the three-year clearance from them.

On October 15, 1997, the FCC released a Report and Order, ET Docket No. 96-2, RM-8165, FCC 97-347, that established a Coordination Zone for new and modified radio facilities in various communications services that cover the islands of Puerto Rico, Desecheo, Mona, Vieques, and Culebra within the Commonwealth of Puerto Rico. The coordination zone and notification procedures enable the Arecibo Radio Astronomy Observatory to receive information needed to assess whether an applicant's proposed operations will cause harmful interference to the Arecibo Observatory's operations, which also promotes efficient resolution of coordination problems between the applicants and the Arecibo Observatory.

Federal Communications Commission.

Gloria J. Miles,

Federal Register Liaison Officer, Office of the Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-XXXX]

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general

public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before January 17, 2017. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicole Ongele, FCC, via email PRA@fcc.gov and to Nicole.Ongele@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Nicole Ongele at (202) 418-2991.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-XXXX.
Title: Improving Reporting for Submarine Cables and Enhanced Submarine Outage Data.

Form Number: FCC Form 5623.

Type of Review: New collection.

Respondents: Business or other for-profit.

Number of Respondents and Responses: 63 respondents; 50 responses.

Estimated Time per Response: 2 hours.

Frequency of Response: Recurring reporting requirement if reporting thresholds are met, we estimate each respondent will file 0.79 reports per year.

Obligation To Respond: Mandatory. Statutory authority for this information collection is contained in 47 U.S.C. 1,

4(j), 4(o), 34-39, 151, 154(i)-(j), 3 U.S.C. 301, and Executive Order No. 10530.

Total Annual Burden: 100 hours.

Total Annual Cost: No Cost.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: Outage reports filed with the Commission pursuant to part 4 are presumed confidential. The information in those filings may be shared with the Department of Homeland Security only under appropriate confidential disclosure protections. Other persons seeking disclosure must follow the procedures delineated in 47 CFR 0.457 and 0.459 of the Commission's rules for requests for and disclosure of information. The information collection discussed here does not affect the confidential treatment of information provided to the FCC through NORS reports.

Needs and Uses: Section 151 of the Communications Act of 1934 (Act), as amended, requires the Commission to promote the safety of life and property through the use of wire and radio communications. Additionally, the Cable Landing License Act, Cable Landing License Act (47 U.S.C. 34-39), and Executive Order 10530, provide the Commission with authority to grant, withhold, condition and revoke submarine cable landing licenses. In concert, the Cable Landing License Act and Executive Order provide that the Commission may place conditions on the grant of a submarine cable landing license in order to assure just and reasonable rates and service in the operation and use of cables so licensed. "Just and reasonable service" entails assurance that the cable infrastructure will be reasonably available. Availability of submarine cables is also critically important for national security, and the economy, because submarine cables carry approximately 95 percent of international communications traffic, and are the primary means of connectivity for numerous U.S. states and territories. The data collection requires all submarine cable licensees to report outages through the network outage reporting system (NORS). The general purpose of NORS reporting is to gather sufficient information regarding disruptions to telecommunications to facilitate FCC monitoring, analysis, and investigation of the reliability and security of networks, and to identify and act on potential threats to our Nation's telecommunications infrastructure. The FCC uses this information collection to identify the duration, magnitude, root causes, contributing factors, and preventive measures taken with respect

to significant outages, and to take swift remedial action as required in appropriate circumstances. The Commission also maintains an ongoing dialogue with reporting entities, as well as with the industry at large, generally regarding lessons learned from the information collection in order to foster better understanding of the root causes of significant outages, and to explore preventive measures in the future so as to mitigate the potential impact of such outages on the Nation and the American public.

The data will provide the Commission with greater visibility into the availability and health of these networks, allowing it to better track and analyze submarine cable resiliency, and suggest or take appropriate actions when the data so indicate, *i.e.* before there is a significant problem. Thus, the data will ensure that submarine cable service is just and reasonable, and that critical communications carried across submarine cables continue to promote the safety of life and property, fulfilling the aforementioned statutory obligations.

The NORS information collection (OMB Control No. 3060-0484) is administered by the FCC's Public Safety and Homeland Security Bureau (PSHSB), which maintains an Internet portal for the electronic submission of NORS reports. This electronic filing requirement entails entering the required information using Commission-approved Web-based outage report templates that are available online at the NORS Internet Web portal. The completion of these online templates results in the information being electronically entered into the Commission's NORS reporting data base in real-time.

Federal Communications Commission.

Gloria J. Miles,

Federal Register Liaison Officer, Office of the Secretary.
