

leverage the federal assistance in a manner that produces broader public benefits. Discussions about creative mitigation should be initiated early in the Section 106 review process when options can be objectively evaluated and before project plans and commitments become firm. Creative mitigation measures ultimately should advance community-wide preservation goals discussed during Section 106 reviews. Examples of creative mitigation that have been successful include the development of local historic preservation ordinances; acquisition and relocation of historic properties to alternate sites in a historic district; funding for landscaping and streetscape improvements in a district; and guidance on managing vacant and abandoned properties in the community.

Conclusion

Federal, state, and local officials; applicants; residents; and preservationists are encouraged to use the above principles when developing community revitalization plans and coordinating Section 106 reviews. Please visit the ACHP's Web site, www.achp.gov, to view helpful case studies and best management practices and to learn about webinars that can further expand knowledge of these historic preservation tools and how they are being used throughout the nation.
